High Pressure Steel Cylinders From China; Termination of Five-Year Reviews

AGENCY: International Trade Commission.

ACTION: Notice.

SUMMARY: The Commission instituted the subject five-year reviews on November 1, 2022 to determine whether revocation of the countervailing duty order and antidumping duty order on high pressure steel cylinders from China would be likely to lead to continuation or recurrence of material injury. On January 20, 2023, the Department of Commerce published notice that it was revoking the orders effective December 5, 2022, because no domestic interested party responded to the sunset review notice of initiation by the applicable deadline. Accordingly, the subject reviews are terminated.

DATES: December 5, 2022 (effective date of revocation of the order).

SUPPLEMENTARY INFORMATION: Section 337 of the Tariff Act of 1930 provides that, if the Commission finds a violation, it shall exclude the articles concerned from the United States: unless, after considering the effect of such exclusion upon the public health and welfare, competitive conditions in the United States economy, the production of like or directly competitive articles in the United States, and United States consumers, it finds that such articles should not be excluded from entry. (19 U.S.C. 1337(d)(1)).

The Commission is soliciting submissions on public interest issues raised by the recommended relief should the Commission find a violation, specifically: a limited exclusion order against certain replacement automotive lamps of TYC Brother Industrial Co., Ltd, Genera Corporation (dba TYC Genera), LKQ Corporation, and Keystone Automotive Industries, Inc. Parties are to file public interest submissions pursuant to 19 CFR 210.50(a)(4).

The Commission is interested in further development of the record on the public interest in this investigation. Accordingly, members of the public are invited to file submissions of no more than five (5) pages, inclusive of attachments, concerning the public interest in light of the administrative law judge's recommended determination on remedy and bonding issued in this investigation on January 24, 2023. Comments should address whether issuance of the recommended limited exclusion order in this investigation would affect the public health and welfare in the United States, competitive conditions in the United States economy, the production of like or directly competitive articles in the United States, or United States consumers.

In particular, the Commission is interested in comments that:

(i) explain how the articles potentially subject to the recommended limited exclusion order are used in the United States;

(ii) identify any public health, safety, or welfare concerns in the United States relating to the recommended limited exclusion order;

(iii) identify like or directly competitive articles that complainant, its licensees, or third parties make in the United States which could replace the subject articles if they were to be excluded;

(iv) indicate whether complainant, complainant's licensees, and/or third party suppliers have the capacity to replace the volume of articles potentially subject to the recommended limited exclusion order within a commercially reasonable time; and

(v) explain how the recommended limited exclusion order would impact consumers in the United States.

Written submissions must be filed no later than by close of business on February 23, 2023.

Persons filing written submissions must file the original document electronically on or before the deadlines stated above. The Commission's paper filing requirements in 19 CFR 210.4(f) are currently waived. 85 FR 15798
