### **Federal Aviation Administration**

#### **14 CFR Part 71**

**[Docket No. FAA–2020–0604; Airspace Docket No. 19–ANM–33]**

**RIN 2120–AA66**

#### **Amendment of Class D and Class E Airspace; Pendleton, OR**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** This action modifies Class D airspace at Eastern Oregon Regional at Pendleton Airport. This action also modifies Class E airspace, designated as a surface area. Additionally, this action establishes Class E airspace, designated as an extension to a Class D or Class E surface area. Further, this action modifies Class E airspace, extending upward from 700 feet above the surface. This action also removes Class E airspace, extending upward from 1,200 feet above the surface. This action also removes the Pendleton VORTAC from the airspace text headers and legal descriptions. Lastly, this action implements administrative corrections to the airspace text headers and legal descriptions.

**DATES:** Effective 0901 UTC, February 25, 2021. The Director of the Federal Register approves this incorporation by reference action under Title 1 Code of Federal Regulations part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

**ADDRESSES:** FAA Order 7400.11E, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at [https://www.faa.gov/air\\_traffic/publications/](https://www.faa.gov/air_traffic/publications/). For further information, you can contact the Airspace Policy Group, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783. The Order is also available for inspection at the National Archives and Records Administration (NARA). #### **SUPPLEMENTARY INFORMATION:**

##### **Authority for This Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it modifies Class D and Class E airspace at Eastern Oregon Regional at Pendleton Airport, Pendleton, OR, to ensure the safety and management of Instrument Flight Rules (IFR) operations at the airport.

##### **History**

The FAA published a notice of proposed rulemaking in the **Federal Register** (85 FR 40138; July 6, 2020) for Docket No. FAA–2020–0604 to modify Class D and Class E at Eastern Oregon Regional at Pendleton Airport, Pendleton, OR. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class D, E2, E4, and E5 airspace designations are published in paragraphs 5000, 6002, 6004, and 6005, respectively, of FAA Order 7400.11E, dated July 21, 2020, and effective September 15, 2020, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

##### **Availability and Summary of Documents for Incorporation by Reference**

This document amends FAA Order 7400.11E, Airspace Designations and Reporting Points, dated July 21, 2020, and effective September 15, 2020. FAA Order 7400.11E is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11E lists Class A, B, C, D, and E airspace areas,

air traffic service routes, and reporting points.

### The Rule

This amendment to Title 14 Code of Federal Regulations part 71 modifies Class D airspace at Eastern Oregon Regional at Pendleton Airport, Pendleton, OR. The airspace area is described as follows: That airspace extending upward from the surface to and including 4,000 feet MSL within a 4.1-mile radius of Eastern Oregon Regional at Pendleton Airport. This Class D airspace area is effective during the specific dates and times established, in advance, by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Chart Supplement.

This action modifies Class E airspace, designated as a surface area, to be coincident with the new Class D dimensions. The airspace area is described as follows: That airspace extending upward from the surface within a 4.1-mile radius of Eastern Oregon Regional at Pendleton Airport. This Class E airspace area is effective during the specific dates and times established, in advance, by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Chart Supplement.

Additionally, this action establishes Class E airspace, designated as an extension to a Class D or Class E surface area. The airspace area is described as follows: That airspace extending upward from the surface within 1 mile each side of the 129° bearing from the airport, extending from the 4.1-mile radius to 7.3 miles southeast of Eastern Oregon Regional at Pendleton Airport.

Further, this action modifies Class E airspace extending upward from 700 feet above the surface. The airspace area is described as follows: That airspace extending upward from 700 feet above the surface within a 6.6-mile radius of the airport, and within 3.5 miles each side of the 090° bearing from the airport extending from the 6.6-mile radius to 14.8 miles east of the airport, and within 3.4 miles each side of the 129° bearing from the airport extending from the 6.6-mile radius to 14.3 miles southeast of the airport, and within 4 miles south and 8 miles north of the 270° bearing from the airport, extending from 4 miles west of the airport to 20 miles west of Eastern Oregon Regional at Pendleton Airport.

This action also removes Class E airspace extending upward from 1,200 feet above the surface. This area is wholly contained within Class E en route airspace which overlies the entire

Pendleton area, duplication is not necessary.

The action removes the Pendleton VORTAC and all references to the VORTAC from the Class D, E2, and E5 text headers and legal descriptions.

Lastly, this action implements administrative corrections to the airspace legal descriptions. The airport name on the second line of the text header does not match the FAA database and is updated to "Eastern Oregon Regional at Pendleton Airport". The airport's geographic coordinates do not match the FAA database and are updated to "lat. 45°41'41" N, long. 118°50'35" W". The last sentence in the Class D and Class E surface area legal descriptions contain the term "Airport/Facilities Directory" the term is updated to "Chart Supplement".

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

### Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

### Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures," paragraph 5–6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

### List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

### Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

### PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

**Authority:** 49 U.S.C. 106(f), 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

#### § 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order 7400.11E, Airspace Designations and Reporting Points, dated July 21, 2020, and effective September 15, 2020, is amended as follows:

*Paragraph 5000 Class D Airspace.*

\* \* \* \* \*

#### ANM OR D Pendleton, OR [Amended]

Eastern Oregon Regional at Pendleton Airport, OR  
(Lat. 45°41'41" N, long. 118°50'35" W)

That airspace extending upward from the surface to and including 4,000 feet MSL within a 4.1-mile radius of Eastern Oregon Regional at Pendleton Airport. This surface area is effective during the specific dates and times established, in advance, by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Chart Supplement.

*Paragraph 6002 Class E Airspace Areas Designated as a Surface Area.*

#### **SUPPLEMENTARY INFORMATION:**

##### **Authority for This Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it modifies Class E airspace at Lake County Airport, Leadville, CO, to ensure the safety and management of Instrument Flight Rules (IFR) operations at the airport.

##### **History**

The FAA published a notice of proposed rulemaking in the **Federal Register** (85 FR 43511; July 17, 2020) for Docket No. FAA-2020-0626, to modify Class E airspace at Lake County Airport, Leadville, CO. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E5 airspace designations are published in paragraph 6005 of FAA Order 7400.11E, dated July 21, 2020, and effective September 15, 2020, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

##### **Availability and Summary of Documents for Incorporation by Reference**

This document amends FAA Order 7400.11E, Airspace Designations and Reporting Points, dated July 21, 2020, and effective September 15, 2020. FAA Order 7400.11E is publicly available as listed in the **ADDRESSES** section of this

document. FAA Order 7400.11E lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

##### **The Rule**

This amendment to Title 14 Code of Federal Regulations part 71 modifies Class E airspace, extending upward from 700 feet above the surface, at Lake County Airport. This airspace area is described as follows: That airspace extending upward from 700 feet above the surface within a 3.5-mile radius of the airport, and within 3 miles each side of the 164° bearing from the airport, extending from the 3.5-mile radius to 14.5 miles south of the airport, and within 2.7 miles each side of the 350° bearing from the airport, extending from the 3.5-mile radius to 14.7 miles north of Lake County Airport.

This action also updates the airport's geographic coordinates to "Lat. 39°13'10" N, long. 106°18'59" W."

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

##### **Regulatory Notices and Analyses**

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial, and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

##### **Environmental Review**

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures," paragraph 5-6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.
