

When the test plan has been successfully completed, Amtrak will make the necessary filings under 49 CFR Part 263 (Subpart I) to obtain safety certification of the newly configured system. Amtrak assumes that successful completion of this work will be a condition on any relief provided under this request becoming effective.

This initial step of modifying the provisions of the ACSES Final Order of Particular Applicability will allow Amtrak the ability to collect relevant real-time data as it demonstrates that its Acela operation at a MAS of 160 mph is safe and viable. Amtrak is hoping that increased MAS for Acela service will make better use of limited resources while reducing trip times for NEC riders and will help to build ridership and market share.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (e.g., Waiver Petition Docket Number FRA–2013–0128) and may be submitted by any of the following methods:

### Federal Railroad Administration

[Docket Number FRA–2012–0021]

#### Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations, this document provides the public notice that by a letter dated January 16, 2014, Columbia Business Center Railroad (CBCX) has petitioned the Federal Railroad Administration (FRA) for an extension of its waiver of compliance from certain provisions of the Federal hours of service laws contained at 49 U.S.C. 21103(a)(4). FRA assigned the petition Docket Number FRA–2012–0021.

In its petition, CBCX seeks relief from 49 U.S.C. 21103(a)(4), which in part requires a train employee to receive 48 hours off duty after initiating an on-duty period for 6 consecutive days. Specifically, CBCX seeks a waiver to allow a train employee to initiate an on-duty period, each day, for 6 consecutive days followed by 24 hours off duty. In support of its request, CBCX explained that employees covered by the waiver work Monday through Friday, from 7:30 a.m. to 4:30 p.m., with a crew occasionally working on Saturday for 4 hours or less. CBCX also explained that all employees covered by the waiver work well below the Federal 276-hour monthly limit, and since the waiver was granted, no train employee has exceeded 210 hours in any month. Finally, CBCX said that all employees covered by the waiver were provided information about the waiver extension petition, and that there were no objections to the waiver extension by these employees.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at [www.regulations.gov](http://www.regulations.gov) and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE., W12–140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by

submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

### Federal Railroad Administration

[Docket Number FRA–2013–0134]

#### Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that by a document dated November 19, 2013, the Reading Blue Mountain and Northern Railroad (RBMN) has petitioned the Federal

Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR Part 230—Steam Locomotive Inspection and Maintenance Standards. FRA assigned the petition Docket Number FRA–2013–0134. RBMN owns and operates No.425, a 4–6–2 Pacific class steam locomotive built in 1928 by the Baldwin Locomotive Works for the Gulf, Mobile, and Ohio Railroad. RBMN No. 425 is operated periodically for special trains on RBMN.

RBMN requests relief from 49 CFR 230.16(a)(2), *Fifth annual inspection*, with respect to 49 CFR 230.41, *Flexible staybolts with caps*. Specifically, RBMN is petitioning for a delay of the flexible staybolt and cap inspection for an undetermined amount of calendar days until RBMN No. 425 has accumulated 200 service days. Inclusive of the 2013 operating season, RBMN No. 425 will have accumulated 125 service days since the 1,472 service-day inspection was performed in December 2007. RBMN states that the flexible staybolt and cap inspection required by 49 CFR 230.41 would require 14 man-weeks to perform and be a burden on the RBMN steam program.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at [www.regulations.gov](http://www.regulations.gov) and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE., W12–140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

[Docket Number FRA–2013–0143]

**Petition for Waiver of Compliance**

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that by a letter dated December 11, 2013, Mr. Ray Kolasa, a private owner of a Penn Central Transfer Caboose, Car Number 18216, petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR Part 215, Railroad Freight Car Safety Standards. FRA assigned the petition Docket Number FRA–2013–0143.

Mr. Kolasa seeks relief for the caboose from 49 CFR 215.303, *Stenciling of restricted cars*, which requires that restricted railroad freight cars shall be stenciled or marked in clearly legible letters with the letter “R.” The caboose was built in 1948 and is more than 50 years old from its original date of construction, and therefore is restricted per 49 CFR 215.203(a), *Restricted cars*. Mr. Kolasa states that stenciling of this car would distract from the historical image. Mr. Kolasa also requests Special Approval for continued operation of the

same car in accordance with 49 CFR 215.203(c).

Mr. Kolasa further states that this car was converted to carry passengers and will be used for tourist attractions and historical purposes. This car will not be interchanged in regular freight operations. Additionally, Mr. Kolasa states that this car will be serviced, inspected, and maintained in compliance with all applicable regulations with the exception of the conditions that require special approvals.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at [www.regulations.gov](http://www.regulations.gov) and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE., W12–140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.
