If MARAD determines, in accordance with 46 U.S.C. 12121 and MARAD’s regulations at 46 CFR part 388, that the employment of the vessel in the coastwise trade to carry no more than 12 passengers will have an unduly adverse effect on a U.S.-vessel builder or a business that uses U.S.-flag vessels in that business, MARAD will not issue an approval of the vessel’s coastwise endorsement eligibility. Comments should refer to the vessel name, state the commenter’s interest in the application, and address the eligibility criteria given in section 388.4 of MARAD’s regulations at 46 CFR part 388.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), before an agency submits a proposed collection of information to OMB for approval, it must first publish a document in the **Federal Register** providing a 60-day comment period and otherwise consult with members of the public and affected agencies concerning each proposed collection of information. on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.* permitting electronic submission of responses. In compliance with these requirements, NHTSA asks for public comments on the following proposed collection of information for which the agency is seeking approval from OMB.

Summary of the Collection of Information

The National Traffic and Motor Vehicle Safety Act authorizes the Secretary of Transportation (NHTSA by delegation), at 49 U.S.C. 30111, to issue federal motor vehicle safety standards (FMVSS) that set performance standards for motor vehicles and items of motor vehicle equipment. Manufacturers of motor vehicles and items of motor vehicle equipment subject to the FMVSS are required, by 49 U.S.C. 30115, to certify to the distributor or dealer that the vehicle or equipment complies with the applicable standards. Certification of equipment may be shown by a label or tag on the equipment or on the outside of the container in which the equipment is delivered. Further, the Secretary (NHTSA by delegation) is authorized, at 49 U.S.C. 30117, to require manufacturers to provide information to first purchasers of motor vehicles or items of motor vehicle equipment related to performance and safety in printed materials that are attached to or accompany the motor vehicle or item of motor vehicle equipment. Using this authority, the agency issued FMVSS No. 116, "Motor vehicle brake fluids", which specifies performance and design requirements for motor vehicle brake fluids and hydraulic system mineral oils. Section 5.2.2 of the standard specifies labeling requirements for manufacturers and packagers of brake fluids, as well as packagers of hydraulic system mineral oils. Certification of equipment must be shown by a label permanently affixed to the container, in any location except a removable part such as a lid.
