SUPPLEMENTARY INFORMATION:

Title: FERC–574 (Gas Pipeline Certificates: Hinshaw Exemption).

OMB Control No.: 1902–0116.

Type of Request: Three-year extension of the FERC–574 with no changes to the current reporting requirements.

Abstract: On November 26, 2019 (84 FR 65148), the Commission published a Notice in the **Federal Register** in Docket No. IC20–3–000 requesting public comments. The Commission received no comments and is noting that in the related submittal to OMB. On December 19, 2019, OMB granted the Commission an emergency extension for FERC–574, from December 31, 2019 to March 31, 2020.

The Commission uses the information collected under the requirements of FERC–574 to implement the statutory provisions of Sections 1(c), 4, and 7 of the Natural Gas Act (NGA). Natural gas pipeline companies file applications with the Commission furnishing information in order to facilitate a determination of an applicant's qualification for an exemption under the provisions of the section 1(c). If the Commission grants an exemption, the natural gas pipeline company is not required to file certificate applications, rate schedules, or any other applications or forms prescribed by the Commission.

The exemption applies to companies engaged in the transportation, sale, or resale of natural gas in interstate commerce if: (a) They receive gas at or within the boundaries of the state from another person at or within the boundaries of that state; (b) such gas is ultimately consumed in such state; (c) the rates, service and facilities of such company are subject to regulation by a State Commission; and (d) that such State Commission is exercising that jurisdiction. 18 CFR part 152 specifies the data required to be filed by pipeline companies for an exemption.

Type of Respondents: Pipeline companies.

*Estimate of Annual Burden:*¹ The Commission estimates the annual public reporting burden and cost² for the information collection as:

¹ "Burden" is the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a federal agency. See 5 CFR 1320 for

additional information on the definition of information collection burden.

² Commission staff estimates that the industry's skill set and cost (for wages and benefits) for FERC–

574 are approximately the same as the Commission's average cost. The FERC 2019 average salary plus benefits for one FERC full-time equivalent (FTE) is \$167,091/year (or \$80.00/hour).
