

period has ended in order to obtain the full three-year clearance from OMB.

The purpose of the revision is to remove the information collection requirements that are Section 47 CFR 25.114 from OMB Control No. 3060–1013 since they were consolidated in 3060–0678. OMB approved the consolidation on August 15, 2014.

Orbital debris consists of artificial objects orbiting the Earth that are not functional spacecraft. It consists of a wide range of non-functioning man-made objects that have been placed in the Earth's orbit, both accidentally and on purpose. Orbital debris consists of small objects such as paint flakes, discarded lens caps, ejected bolts and pieces of debris from exploded spacecraft and rocket bodies. Since human activity in space began, there has been a steady growth in the number and total mass of orbital debris. Once created, debris remains in orbit indefinitely, absent other forces. Growth in the orbital debris population may limit the usefulness of space for communications and other uses in the future by raising the costs and lowering the reliability of space based systems. Furthermore, the effects of collisions involving orbital debris can be catastrophic and may cause significant damage to functional spacecraft or to persons or property on the surface of the Earth, if the debris re-enters the Earth's atmosphere in an uncontrolled manner.

The information collection requirements accounted for in this collection are necessary to mitigate the potential harmful effects of orbital debris accumulation. Without such information collection requirements, the growth in the orbital debris population may limit the usefulness of space for communications and other uses in the future by raising the costs and lowering the reliability of experimental and amateur systems. Furthermore, the effects of collisions involving orbital debris can be catastrophic and may cause significant damage to functional spacecraft or to persons or property on the surface of the Earth, if the debris re-enters the Earth's atmosphere in an uncontrolled manner.

OMB Control No.: 3060–1108.

Title: Consummation of Assignments and Transfers of Control of Authorization.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 163 respondents; 163 responses.

Estimated Time per Response: 1 hour.

Frequency of Response: On occasion reporting requirement.

Obligation To Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained in Sections 47 U.S.C. 154(i).

Total Annual Burden: 163 hours.

Annual Cost Burden: \$48,900.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: In general, there is no need for confidentiality with this collection of information.

Needs and Uses: This collection will be submitted to the Office of Management and Budget (OMB) as a revision after this 60 day comment period has ended in order to obtain the full three-year clearance from OMB.

The purpose of the revision is to remove the information collection requirements that are contained in Section 47 CFR 25.119 from OMB Control No. 3060–1108. The information collection requirements were consolidated into collection 3060–0678. OMB approved the consolidation on August 15, 2014.

A consummation is a party's notification to the Commission that a transaction (assignment or transfer of control of authorization) has been completed. A consummation is applicable to all international telecommunications and satellite services, such as International High Frequency (IHF), Section 214 Applications (ITC), and Submarine Cable Landing Licenses (SCL).

Without this collection of information, the Commission would not have critical information such as a change in a controlling interest in the ownership of the licensee. The Commission would not be able to carry out its duties under the Communications Act and to determine the qualifications of applicants to provide international telecommunications service, including applicants that are affiliated with foreign entities, and to determine whether and under what conditions the authorizations are in the public interest, convenience, and necessity. Furthermore, without this collection of information, the Commission would not be able to maintain effective oversight of U.S. providers of international telecommunications services that are affiliated with, or involved in certain co-marketing or similar arrangements with, foreign entities that have market power.

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before December 15, 2014. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1165.

Title: Section 74.605, Registration of Stationary TV Pickup Receive Sites.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities, not-for-profit institutions, and state, local, or tribal government.

Number of Respondents: 25 respondents; 33 responses.

Estimated Time per Response: 3 hours.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained in 47 U.S.C. 303 and 308.

Total Annual Burden: 33 hours.

Total Annual Cost: \$16,500.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: The Commission is submitting this expiring information collection to the Office of Management and Budget as an extension to obtain the full three year clearance from them. Section 74.605 requires that licensees of TV pickup stations in the 6875-7125 MHz and 12700-13200 MHz bands shall register their stationary receive sites using the Commission's Universal Licensing System. TV pickup licensees record their receive-only sites in the Universal Licensing System (ULS) database, including all fixed service locations. The TV pickup stations, licensed under Part 74 of the Commission's rules, make it possible for television and radio stations and networks to transmit program material from the sites of breaking news stories or other live events to television studios for inclusion in broadcast programs, to transmit programming material from studios to broadcasting transmitters for delivery to consumers' televisions and radios, and to transmit programs between broadcast stations. Registering the receive sites will allow analysis to determine whether Fixed Service links will cause interference to TV pickup stations.

Wireline Competition Bureau Launches Secure Web Portal for Special Access Data Collection

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: On October 1, 2014, the Commission launched a secure web portal interface allowing the electronic filing of responses to the Special Access Data Collection as outlined in the December 11, 2012 Report and Order and Further Notice of Proposed Rulemaking, which requires providers and purchasers of special access services and certain entities providing "best efforts" services in areas where incumbent local exchange carriers are subject to price cap regulation, to submit data for a comprehensive evaluation of the special access services market.

DATES: Responses are due by December 15, 2014.

ADDRESSES: Federal Communications Commission, 445 12th Street SW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Christopher S. Koves, Wireline Competition Bureau, Pricing Policy Division, (202) 418-8209 or Christopher.Koves@fcc.gov.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's public notice, WC Docket No. 05-25, RM-10593, DA 14-1429, released October 1, 2014. This document does not contain information collection(s) subject to the Paperwork Reduction Act of 1995 (PRA), Public Law 104-13. In addition, therefore, it does not contain any new or modified "information collection burden[s] for small business concerns with fewer than 25 employees," pursuant to the Small Business Paperwork Relief Act of 2002. The full text of this document may be downloaded at the following Internet address: <http://www.fcc.gov/document/wcb-launches-secure-portal-special-access-data-collection>. The complete text maybe purchased from Best Copy and Printing, Inc., 445 12th Street SW., Room CY-B402, Washington, DC 20554. To request alternative formats, for persons with disabilities (e.g. accessible format documents, sign language, interpreters, CARTS, etc.), send an email to fcc504@fcc.gov or call the Commission's Consumer and Governmental Affairs Bureau at (202) 418-0530 or (202) 418-0432 (TTY).

I. Background

On October 1, 2014, the Commission's Wireline Competition Bureau released a public notice announcing the activation of a secure web portal for the electronic filing of information and certifications in response to the special access data collection. The web portal is available at <https://specialaccessfiling.fcc.gov/spadc/login>.

This web portal launch further implements the collection outlined by the Commission in its December 11, 2012 Report and Order and Further Notice of Proposed Rulemaking, which requires providers and purchasers of special access services and certain entities providing "best efforts" services in the same areas as price-cap local exchange carriers, to submit data and information for a comprehensive evaluation of the special access market. Responses to the collection are due by December 15, 2014.

The Bureau will conduct an instructional webinar well in advance of the filing deadline to further educate respondents on the electronic submission process. Additional information on the data collection and the underlying special access rulemaking proceeding can be found at: <http://www.fcc.gov/encyclopedia/special-access-data-collection-overview-0>. For further information regarding this proceeding, contact Christopher S. Koves, Pricing Policy Division, Wireline Competition Bureau, (202) 418-8209 or Christopher.Koves@fcc.gov.
