

**CERTIFICATION PURSUANT TO § 620C(d)
OF THE FOREIGN ASSISTANCE ACT OF 1961, AS AMENDED**

Pursuant to Section 620C(d) of the Foreign Assistance Act of 1961, as amended (the Act), Executive Order 12163 and State Department Delegation of Authority No. 293-2, I hereby certify that the furnishing to Turkey of 48 MK 48 Mod 6 Advanced Technology All-Up-Round (AUR) Warshot Torpedoes is consistent with the principles contained in Section 620C(b) of the Act.

This certification will be made part of the notification to Congress under Section 36(b) of the Arms Export Control Act, as amended, regarding the proposed sale of the above-named articles and services and is based on the justification accompanying such notification, of which such justification constitutes a full explanation.

Rose Gottemoeller
Acting Under Secretary of State
for Arms Control and International
Security

POLICY JUSTIFICATION

Government of Iraq (GOI)—Aerostat and Rapid Aerostat Initial Deployment System Towers

The Government of Iraq has requested a possible sale of 7 Aerostats (17 meter) and 14 Rapid Aerostat Initial Deployment (RAID) Tower Systems, installation, spare and repair parts, support equipment, publications and technical data, site surveys, U.S. government and contractor technical assistance, personnel training and training equipment, and other related elements of program and logistics support. The estimated cost is \$90 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a strategic partner. This proposed sale directly supports the Government of Iraq and serves the interests of the people of Iraq and the United States.

This proposed sale would facilitate progress towards increasing the Iraq's ability to provide protection of national level command and control sites, military installations, and other critical infrastructure against terrorist attacks. Iraq will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Company of Arlington, Virginia. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require up to 12 U.S. Government and contractor representatives to travel to Iraq over a two year period to provide technical support, program reviews and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 14–04

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex—Item No. vii

(vii) Sensitivity of Technology:

1. The Aerostat and Rapid Aerostat Initial Deployment (RAID) System Towers are Unclassified. The Aerostat is a large fabric balloon filled with helium and has the capability to carry up to a 200 pound payload and reach a maximum altitude of 1000 meters. Aerostat operator/support personnel consist of an 8–12 person team. The RAID tower will be the 107 foot variant supported by 3–5 person teams. The common sensor for both platforms is the Forward Looking Infrared Radar (FLIR) manufactured Star Safire III (max range 18K). These systems provide downward looking surveillance but do not provide a targeting capability. The enhanced Battlespace Reconnaissance Intelligence Surveillance software and mapping data are commercial variants.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that the recipient country can provide

the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

4. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Iraq.
