Agency Information Collection Activities; Proposed Collection Comments Requested; 2020 National Survey of Prosecutors (NSP)

AGENCY: Bureau of Justice Statistics, Office of Justice Programs, Department of Justice.

ACTION: 30-Day notice.

SUMMARY: The Department of Justice (DOJ), Office of Justice Programs, Bureau of Justice Statistics, will be

submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. Following publication of the 60-day notice, BJS received two sets of substantive comments. The first requested that the survey obtain information on prosecutors' handling of appellate cases. The second requested that the survey collect demographic characteristics of defendants. BJS determined that adding these questions would be too burdensome for respondents. Additionally, new items require cognitive testing which at this point would result in a significant delay to launching the survey. Thus, no items were added to the instrument or changed.

DATES: Comments are encouraged and will be accepted for 30 days until November 23, 2020.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

SUPPLEMENTARY INFORMATION: Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Bureau of Justice Statistics, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
