4. An SEA must report these metrics for the school year prior to implementing the intervention, if the data are available, to serve as a baseline, and for each year thereafter for which the SEA allocates school improvement funds under section 1003(g) of the ESEA. With respect to a school that is closed, the SEA need report only the identity of the school and the intervention taken—i.e., school closure.

B. Evaluation

An LEA that receives a School Improvement Grant must participate in any evaluation of that grant conducted by the Secretary.

Executive Order 12866

Under Executive Order 12866, the Secretary must determine whether a regulatory action is “significant” and therefore subject to the requirements of the Executive order and subject to review by the Office of Management and Budget (OMB). Section 3(f) of Executive Order 12866 defines a “significant regulatory action” as an action likely to result in a rule that may (1) have an annual effect on the economy of \$100 million or more, or adversely affect a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local or tribal governments or communities in a material way (also referred to as an “economically significant” rule); (2) create serious inconsistency or otherwise interfere with an action taken or planned by another agency; (3) materially alter the budgetary impacts of entitlement grants, user fees, or local programs or the rights and obligations of recipients thereof; or (4) raise novel legal or policy issues arising out of legal mandates, the President’s priorities, or the principles set forth in the Executive order. The Secretary has determined

that this regulatory action is not significant under section 3(f) of the Executive order.

We have also determined that this regulatory action does not unduly interfere with State, local, and tribal governments in the exercise of their governmental functions.

We summarized the potential costs and benefits of these final requirements in the interim final requirements at 75 FR 3375, 3382.

Regulatory Flexibility Act Certification

The Secretary certifies that these final requirements will not have a significant economic impact on a substantial number of small entities for the reasons summarized in the interim final requirements at 75 FR 3375, 3382–3383.

Paperwork Reduction Act of 1995

These final requirements contain information collection requirements that are subject to review by OMB under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520). The Department received emergency approval for the information collections in the SIG final requirements published on December 10, 2009, under OMB Control Number 1810–0682. OMB approved changes described in the interim final requirements at 75 FR 3375, 3383 on January 20, 2010. On June 10, 2010, the Department submitted a request to OMB for regular approval of this collection and received approval on September 22, 2010, under the OMB control number 1810–0682, which lasts until September 30, 2013.

Intergovernmental Review

This program is not subject to Executive Order 12372 and the regulations in 34 CFR 79.

Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

ENVIRONMENTAL PROTECTION AGENCY

[FRL–9218–5]

Notice of a Project Waiver of Section 1605 (Buy American Requirement) of the American Recovery and Reinvestment Act of 2009 (ARRA) to the Newport Borough Water Authority, Pennsylvania

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Regional Administrator of EPA Region 3 is hereby granting a project waiver of the Buy American requirements of ARRA Section 1605 under the authority of Section 1605(b)(2) [manufactured goods are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality] to the Newport Borough Water Authority (NBWA) for the purchase of membrane filtration cassettes, supplied by GE Water & Process Technologies (GE), that contains a primary component not manufactured in America, at its new Water Treatment Plant (WTP). NBWA indicates that the membrane filtration cassettes at its new WTP are necessary to replace groundwater wells that cannot meet the system demands during drought conditions and provide for the removal of *Cryptosporidium* and *Giardia*. The membrane cassettes under consideration are manufactured by a company located in Hungary and no United States manufacturer produces an
