[Project No. 2420-059]

PacifiCorp; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for a new license to continue to operate and maintain the Cutler Hydroelectric Project No. 2544 (project). The project is located on the Bear River, in Box Elder and Cache Counties, Utah. Commission staff has prepared an Environmental Assessment (EA) for the project.¹

The EA contains the staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major Federal action that would significantly affect the quality of the human environment.

The Commission provides all interested persons with an opportunity to view and/or print the EA via the internet through the Commission's Home Page (<http://www.ferc.gov/>), using the "eLibrary" link. Enter the docket number, excluding the last three digits in the docket number field, to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov, or toll-free at (866) 208-3676, or for TTY, (202) 502-8659.

Any comments should be filed within 30 days from the date of this notice.

The Commission strongly encourages electronic filing. Please file comments

¹ The notice of intent to prepare an EA that Commission staff issued for the project on August 18, 2022, specified a schedule for issuing both a draft and final EA; however, after further consideration of the complexity of the issues surrounding the project proposal it has been determined that the issuance of a single EA is appropriate.
