FEDERAL COMMUNICATIONS COMMISSION

[CC Docket No. 96-45; DA 03-3731]

Public Service Cellular, Inc. for Designation as an Eligible Telecommunications Carrier in Georgia

AGENCY: Federal Communications Commission.

ACTION: Notice; solicitation of comments.

SUMMARY: In this document, the Wireline Competition Bureau sought comment on the Public Service Cellular, Inc. (PSC) petition. PSC is seeking designation as an eligible telecommunications carrier (ETC) to receive federal universal service support for service offered throughout its licensed service area in the state of Georgia.

DATES: Comments are due on or before February 9, 2004. Reply comments are due on or before February 23, 2004.

ADDRESSES: Federal Communications Commission, 445 Twelfth Street, SW., Washington, DC 20554. See

SUPPLEMENTARY INFORMATION for further filing instructions.

FOR FURTHER INFORMATION CONTACT: Scott A. Mackoul, Attorney, Wireline Competition Bureau, Telecommunications Access Policy Division, (202) 418-7498, TTY (202) 418-0484.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Public Notice, CC Docket No. 96-45, released November 20, 2003. On September 23, 2003, PSC filed with the Commission a petition pursuant to section 214(e)(6) of the Communications Act of 1934, as amended, to receive federal universal service support in the State of Georgia. PSC specifically seeks ETC designation to receive support for the service it

provides in its commercial mobile radio service (CMRS) licensed areas that are currently served by non-rural telephone companies and Public Service Telephone Company (PSTC), which is a rural telephone company and a commonly owned affiliate of PSC. In support of its request, PSC contends that: the Georgia Public Service Commission (Georgia Commission) has provided an affirmative statement that it does not exercise jurisdiction over CMRS carriers in general, and PSC specifically, for purposes of making determinations concerning eligibility for ETC designations; PSC satisfies all the statutory and regulatory prerequisites for ETC designation; and designating PSC as an ETC will serve the public interest.

Pursuant to § 54.207 of the Commission's rules, PSC also requests that the Commission designate PSC as an ETC in service areas defined along boundaries that differ from PSTC's rural study area boundary. PSC requests that each PSTC wire center in which PSC intends to provide service is classified as a separate service area on a wire center by wire center basis. PSC also states that PSTC's wire centers are completely within PSC's CMRS service areas except for the Culloden and Lizella wire centers. PSC requests ETC designation in the portions of each of the Culloden and Lizella wire centers where it is licensed to provide mobile services. PSC maintains that the proposed redefinition of service areas for ETC purposes is consistent with the factors to be considered when redefining a rural telephone company service area, as enumerated by the Federal-State Joint Board on Universal Service. The Wireline Competition Bureau seeks comment on PSC's petition.

The petitioner must provide copies of its petition to the Georgia Commission. The Commission will also send a copy of this Public Notice to the Georgia Commission by overnight express mail to ensure that the Georgia Commission is notified of the notice and comment period.

Pursuant to §§ 1.415 and 1.419 of the Commission's rules, 47 CFR 1.415, 1.419, interested parties may file comments as follows: comments are due on or before February 9, 2004, and reply comments are due on or before February 23, 2004.
