DEPARTMENT OF ENERGY

Western Area Power Administration

Washoe Project-Rate Order No. WAPA-160

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of Proposed Extension of Non-Firm Power Formula Rate.

SUMMARY: This action is a proposal to extend the existing Washoe Project, Stampede Powerplant (Stampede) non-firm power formula rate, Schedule SNF-7, through September 30, 2017. The existing formula rate will expire July 31, 2013.

DATES: By July 31, 2013, Western Area Power Administration (Western) will publish in the **Federal Register** the final Notice of Extension and Rate Order.

ADDRESSES: All documents that Western used to develop the proposed Stampede non-firm power formula rate extension are available for inspection and copying at the Sierra Nevada Customer Service Region, located at 114 Parkshore Drive, Folsom, CA 95630-4710.

FOR FURTHER INFORMATION CONTACT: Ms. Regina Rieger, Rates Manager, Sierra Nevada Customer Service Region, Western Area Power Administration,

114 Parkshore Drive, Folsom, CA 95630-4710, (916) 353-4629, email: riege@wapa.gov.

SUPPLEMENTARY INFORMATION: By Delegation Order No. 00-037.00, effective December 6, 2001, the Secretary of Energy delegated: (1) The authority to develop power and transmission rates to Western's Administrator; (2) the authority to confirm, approve, and place such rates into effect on an interim basis to the Deputy Secretary of Energy; and (3) the authority to confirm, approve, and place into effect on a final basis, to remand or to disapprove such rates to the Federal Energy Regulatory Commission (FERC).

FERC confirmed and approved the existing formula rate, contained in Rate Order No. WAPA-136,¹ on a final basis for 5 years through July 31, 2013.² In accordance with 10 CFR 903.23(a), Western proposes to extend the existing Stampede non-firm power formula rate without an adjustment. The formula rate is applied annually after determining Stampede's reimbursable expenses and revenue collected in accordance with the Stampede Energy Exchange Services contract. Since the project has no Federally-owned transmission, the contractor accepts delivery of Stampede generation to serve project use obligations and pays Western for energy received in excess of project use loads. Pursuant to Rate Order No. WAPA-136, any remaining reimbursable expenses are transferred to the Central Valley Project (CVP) for incorporation into the CVP power revenue requirement. The existing formula rate methodology collects annual revenue sufficient to recover annual expenses, including interest, capital requirements, and timely deficit recovery, thus ensuring repayment of the project within the cost recovery criteria set forth in DOE Order RA 6120.2.

The formula rate provides sufficient revenue to recover all appropriate costs and the affiliated contract remains in effect through December 31, 2024. Western proposes to extend the current rate schedule through September 30, 2017, and will consider further extension as determined necessary. Consistent with 10 CFR 903.23(a) for proposals to extend but not otherwise change existing rates, Western will not hold a consultation and comment period.

Thirty days after this notice is published, Western will take further action on the proposed formula rate

extension consistent with 10 CFR part 903.

Dated: February 12, 2013.

Anita J. Decker,
Acting Administrator.

Abstract: The National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321-4347 establishes a national policy for the environment. The Council on Environmental Quality (CEQ) oversees the NEPA implementation. CEQ's Regulations at 40 CFR parts 1500 through 1508 set the standard for NEPA compliance. They also require agencies to establish their own NEPA implementing procedures. EPA's procedures for implementing NEPA are found in 40 CFR Part 6. Through this part, EPA adopted the CEQ Regulations

and supplemented those regulations for actions by EPA that are subject to NEPA requirements. EPA actions subject to NEPA include the award of wastewater treatment construction grants under Title II of the Clean Water Act, EPA's issuance of new source National Pollutant Discharge Elimination System (NPDES) permits under section 402 of the Clean Water Act, certain research and development projects, development and issuance of regulations, EPA actions involving renovations or new construction of facilities, and certain grants awarded for projects authorized by Congress through the Agency's annual Appropriations Act. EPA is collecting information from certain applicants as part of the process of complying with either NEPA or Executive Order 12114 ("Environmental Effects Abroad of Major Federal Actions"). EPA's NEPA regulations apply to the actions of EPA that are subject to NEPA in order to ensure that environmental information is available to the Agency's decision-makers and the public before decisions are made and before actions are taken. When EPA conducts an environmental assessment pursuant to its Executive Order 12114 procedures, the Agency generally follows its NEPA procedures. Compliance with the procedures is the responsibility of EPA's Responsible Officials, and for applicant proposed actions applicants may be required to provide environmental information to EPA as part of the environmental review process. For this Information Collection Request (ICR), applicant-proposed projects subject to either NEPA or Executive Order 12114 (and that are not addressed in other EPA programs' ICRs) are addressed through the NEPA process.

Form Numbers: None.

Respondents/affected entities: Entities potentially affected by this action are certain grant or permit applicants who must submit environmental information documentation to EPA for their projects to comply with NEPA or Executive Order 12114, including Wastewater Treatment Construction Grants Program facilities, State and Tribal Assistance Grant recipients and new source National Pollutant Discharge Elimination System permittees.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 312.

Frequency of response: On occasion

Total estimated burden: 38,472 hours

Total estimated cost: \$3,503,245, includes \$7,638 annualized capital or operation & maintenance costs.

Changes in Estimates: The above estimates are based on information and data available through the current ICR supporting documentation. However, it is anticipated that there will be slight decrease in hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This slight decrease is due to changes in the number of respondents and their associated EPA actions eligible for categorical exclusions which results in a reduction in total hours and burden.

Dated: February 15, 2013.

Cliff Rader,

Director, NEPA Compliance Division, Office of Federal Activities.
