The Application Instructions and PPR and PRS forms in this package conform to AmeriCorps' web-based electronic grants management system. The SCP Independent Living Survey and SCP Respite Survey are instruments that collect information from a sample of Senior Companion clients and caregivers. The purpose of the surveys is to assess the feasibility of conducting a longitudinal, quasi-experimental evaluation of the impact of independent living and respite services on clients' social ties and perceived social support. The results of the surveys may also be used to inform the feasibility of using a similar instrument to measure client and caregiver outcomes for an evaluation of RSVP. AmeriCorps seeks to renew the current information collection with revisions. The revisions are intended to capture the socioeconomic status of AmeriCorps Seniors volunteers. The information collection will otherwise be used in the same manner as the existing application. AmeriCorps also seeks to continue using the current application until the revised application is approved by OMB. The current application is due to expire on March 31, 2025.
