

**III. Executive Orders 12866 and 13563**

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is a significant regulatory action and, therefore, was subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

**IV. Regulatory Flexibility Act**

The Department of Defense, the General Services Administration, and the National Aeronautics and Space Administration certify that this final rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because this rule will only have impact on an offeror that is engaging in an activity for which sanctions may be imposed under section 5 of the Iran Sanctions Act or that is exporting sensitive technology to Iran. This rule will have little effect on domestic small business concerns, because such dealings with Iran are already generally prohibited under U.S. law. Due to current restrictions on trade with Iran, domestic entities are generally prohibited from engaging in activity that would cause them to be subject to the procurement bans described in this rule (see *e.g.*, Department of the Treasury Office of Foreign Assets Control regulations at 31 CFR part 560). Accordingly, it is expected that the number of domestic entities, both large and small, significantly impacted by this rule will be minimal, if any.

Although this rule mainly affects foreign entities, the Regulatory Flexibility Act is for the protection of domestic small entities, not foreign entities. For the definition of "small business", the Regulatory Flexibility Act refers to the Small Business Act, which in turn allows the Small Business Administration (SBA) Administrator to specify detailed definitions or standards (5 U.S.C. 601(3) and 15 U.S.C. 632(a)). The SBA regulations at 13 CFR 121.105 discuss who is a small business: "(a)(1) Except for small agricultural

cooperatives, a business concern eligible for assistance from SBA as a small business is a business entity organized for profit, with a place of business located in the United States, and which operates primarily within the United States or which makes a significant contribution to the U.S. economy through payment of taxes or use of American products, materials or labor." Therefore, the impact assessment does not include the impact on foreign entities.

**V. Paperwork Reduction Act**

The final rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

#### **SUPPLEMENTARY INFORMATION:**

#### **I. Background and Discussion**

This interim rule expands upon the interim rule published in the **Federal Register** at 75 FR 60254 on September 29, 2010, under FAR Case 2010-012, Certification Requirement and Procurement Prohibition Relating to Iran Sanctions. FAR Case 2010-012 implementation of section 106 of the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010 (Pub. L. 111-195), included imposing a procurement prohibition relating to contracts with persons that export certain sensitive technology to Iran. To further implement section 106, the rule adds at FAR 25.703-3(b) a requirement for a representation that the offeror does not export any sensitive technology to the government of Iran or any entities or individuals owned or controlled by, or acting on behalf or at the direction of, the government of Iran.

The interim rule provides an exception to the representation requirement for offerors that are providing eligible products in acquisitions that are subject to trade agreements.

The waiver procedure at FAR 25.703-2(d) is moved to FAR 25.703-4, so that waiver of section 106 can be addressed along with the procedures for waiver of section 102 of the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010.

The representation that the offeror does not export sensitive technology to Iran is incorporated into the certification at FAR 52.225-25, now titled "Prohibition on Contracting with Entities Engaging in Sanctioned Activities Relating to Iran—Representation and Certification," in order to include the representation and clarify that the prohibition is against contracting with sanctioned entities. Along with the statutory definition of "sensitive technology," an email address is included in the provision, so that offerors can refer questions concerning sensitive technology to the Department of State, prior to making the representation.

This representation requirement is also applied to acquisition of commercial items at FAR 52.212-3, Offeror Representations and Certifications—Commercial Items, paragraph (o) (see section III, Determinations of Applicability).

Offerors will be able to make an annual certification through the Online Representations and Certifications Application, if the offeror is registered in the Central Contractor Registration database. Therefore, conforming changes have been made to FAR part 4 and the FAR clause at 52.204-8, Annual Representations and Certifications.

The interim rule includes two additional changes:

- FAR 25.703-2(b)—Adds an authority for termination—FAR part 49 and a cite to FAR 12.403 for termination of commercial contracts.
- FAR 52.225-25(d)—Adds two more examples of trade agreement provisions that may be included in the solicitation to indicate the applicability of trade agreements to the acquisition.

#### **II. Executive Orders 12866 and 13563**

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is a significant regulatory action and, therefore, was subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

#### **III. Determinations of Applicability**

The Federal Acquisition Regulatory Council (FAR Council) has made a determination to apply the requirement of section 106 of the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010, to contracts at or below the simplified acquisition threshold (SAT), contracts for the acquisition of commercial items, and contracts for the acquisition of commercially available off-the-shelf (COTS) items.

##### **1. Applicability to Contracts at or Below the SAT**

41 U.S.C. 1905 governs the applicability of laws to contracts or subcontracts in amounts not greater

than the SAT. It is intended to limit the applicability of laws to them. 41 U.S.C. 1905 provides that if a provision of law contains criminal or civil penalties, or if the FAR Council makes a written determination that it is not in the best interest of the Federal Government to exempt contracts or subcontracts at or below the SAT, the law will apply to them. Therefore, given that the requirements of sections 102 and 106 of the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010 were enacted to widen the sanctions against Iran, the FAR Council has determined that it is in the best interest of the Federal Government to apply this rule to all acquisitions including contracts at or below the SAT, as defined at FAR 2.101. An exception for acquisitions at or below the SAT would exclude a significant portion of Federal contracting and the contractors who provide these products and services, thereby undermining the overarching public policy purpose of the law.

##### **2. Applicability to Contracts for the Acquisition of Commercial Items**

41 U.S.C. 1906 governs the applicability of laws to contracts for the acquisition of commercial items, and is intended to limit the applicability of laws to contracts for the acquisition of commercial items. 41 U.S.C. 1906 provides that if a provision of law contains criminal or civil penalties, or if the FAR Council makes a written determination that it is not in the best interest of the Federal Government to exempt commercial item contracts, the provision of law will apply to contracts for the acquisition of commercial items.

Therefore, given that the requirements of sections 102 and 106 of the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010 were enacted to widen the sanctions against Iran, the FAR Council has determined that it is in the best interest of the Federal Government to apply the rule to contracts for the acquisition of commercial items, as defined at FAR 2.101. An exception for contracts for the acquisition of commercial items would exclude a significant portion of Federal contracting and the contractors who provide these products and services, thereby undermining the overarching public policy purpose of the law.

##### **3. Applicability to Contracts for the Acquisition of COTS Items**

41 U.S.C. 1907 governs the applicability of laws to contracts for the acquisition of COTS items, and is intended to limit the applicability of

laws to them. 41 U.S.C. 1907 provides that if a provision of law contains criminal or civil penalties, or if the Administrator for Federal Procurement Policy makes a written determination that it is not in the best interest of the Federal Government to exempt contracts for the acquisition of COTS items, the provision of law will apply. Therefore, given that the requirements of sections 102 and 106 of the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010 were enacted to widen the sanctions against Iran, the Administrator for Federal Procurement Policy has determined that it is in the best interest of the Federal Government to apply the rule to contracts for the acquisition of COTS items, as defined at FAR 2.101. An exception for contracts for the acquisition of COTS items would exclude a significant portion of Federal contracting and the contractors who provide these products and services, thereby undermining the overarching public policy purpose of the law.

#### IV. Regulatory Flexibility Act

DoD, GSA, and NASA do not expect this interim rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because this rule will only have an impact on an offeror that is exporting sensitive technology to Iran. Domestic entities are generally prohibited from engaging in activity that would cause them to be subject to the procurement bans described in this rule due to current restrictions on trade with Iran (see, *e.g.*, Department of the Treasury Office of Foreign Assets Control regulations at 31 CFR part 560).

Although this rule mainly affects foreign entities, the Regulatory Flexibility Act is for the protection of domestic small entities, not foreign entities. For the definition of "small business," the Regulatory Flexibility Act refers to the Small Business Act, which in turn allows the U.S. Small Business Administration (SBA) Administrator to specify detailed definitions or standards (5 U.S.C. 601(3) and 15 U.S.C. 632(a)). The SBA regulations at 13 CFR 121.105 discuss who is a small business: "(a)(1) Except for small agricultural cooperatives, a business concern eligible for assistance from SBA as a small business is a business entity organized for profit, with a place of business located in the United States, and which operates primarily within the United States or which makes a significant contribution to the U.S. economy through payment of taxes or use of American products, materials or labor."

Therefore, an Initial Regulatory Flexibility Analysis has not been performed because the number of domestic entities significantly impacted by this rule will be minimal. DoD, GSA, and NASA invite comments from small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD, GSA, and NASA will also consider comments from small entities concerning the existing regulations in subparts affected by the rule in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (FAC 2005–54, FAR Case 2010–018), in correspondence.

#### V. Paperwork Reduction Act

The interim rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

#### VI. Determination To Issue an Interim Rule

A determination has been made under the authority of the Secretary of Defense (DoD), the Administrator of General Services (GSA), and the Administrator of the National Aeronautics and Space Administration (NASA) that urgent and compelling reasons exist to promulgate this interim rule without prior opportunity for public comment. FAR Case 2010–012 implemented section 102 and partially implemented section 106 of the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010 (Pub. L. 111–195). This interim rule is necessary because the rule further implements section 106 of the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010, which was signed on July 1, 2010. Section 106 was effective upon enactment, which imposed a procurement prohibition relating to contracts with persons that export certain sensitive technology to Iran entered into or renewed on or after September 29, 2010. However, pursuant to 41 U.S.C. 1707 and FAR 1.501–3(b), DoD, GSA, and NASA will consider public comments received in response to this interim rule in the formation of the final rule.

#### Federal Acquisition Regulation; Set-Asides for Small Business

**AGENCY:** Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

**ACTION:** Interim rule.

**SUMMARY:** DoD, GSA, and NASA are issuing an interim rule amending the Federal Acquisition Regulation (FAR) to implement section 1331 of the Small Business Jobs Act of 2010 (Jobs Act). Section 1331 addresses set-asides of task- and delivery-orders under multiple-award contracts, partial set-asides under multiple-award contracts, and the reserving of one or more multiple-award contracts that are awarded using full and open competition. Within this same context,
