

1320.10(e)(1), 1320.12(a). Specifically, FRA invites interested respondents to comment on the following summary of proposed information collection activities regarding (i) whether the information collection activities are necessary for FRA to properly execute its functions, including whether the activities will have practical utility; (ii) the accuracy of FRA's estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (iii) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (iv) ways for FRA to minimize the burden of information collection activities on the public by automated, electronic, mechanical, or other technological collection

techniques or other forms of information technology (e.g., permitting electronic submission of responses). See 44 U.S.C. 3506(c)(2)(A)(i)–(iv); 5 CFR 1320.8(d)(1)(i)–(iv). FRA believes that soliciting public comment will promote its efforts to reduce the administrative and paperwork burdens associated with the collection of information mandated by Federal regulations. In summary, FRA reasons that comments received will advance three objectives: (i) Reduce reporting burdens; (ii) ensure that it organizes information collection requirements in a “user friendly” format to improve the use of such information; and (iii) accurately assess the resources expended to retrieve and produce information requested. See 44 U.S.C. 3501.

Below are brief summaries of the two currently approved information collection activities that FRA will submit for clearance by OMB as required under the PRA:

Title: Certification of Glazing Materials.

OMB Control Number: 2130–0525.

Abstract: The collection of information is set forth under 49 CFR Part 223, which requires the certification and permanent marking of glazing materials by the manufacturer. The manufacturer is also responsible for making available test verification data to railroads and FRA upon request.

Form Number(s): N/A.

Affected Public: Businesses.

Respondent Universe: 5 Manufacturers.

CFR section	Respondent universe	Total annual responses	Average time per response	Total annual burden hours
223.17—Identification of Equipped Locomotives, Passenger Cars, and Caboose.	4 Manufacturers	200 stencilings or metal plates.	15 minutes	50
223.17—Appendix A—Requests for Glazing Certification.	5 Manufacturers	10 request	15 minutes	3
—Marking Individual Units of Glazing Material.	5 Manufacturers	25,000 pieces	480 pieces per hour	52
—Testing New Material and Providing Verification Data.	5 Manufacturers	1 test	14 hours	14

Frequency of Submission: On occasion.

Total Responses: 25,211.

Estimated Total Annual Burden: 119 hours.

Status: Extension of a currently approved collection.

Title: Disqualification Proceedings.

OMB Control Number: 2130–0529.

Abstract: Under 49 U.S.C. 20111(c), FRA is authorized to issue orders disqualifying railroad employees, including supervisors, managers, and other agents, from performing safety-sensitive service in the rail industry for violations of safety rules, regulations, standards, orders, or laws evidencing unfitness. FRA's regulations, 49 CFR Part 209, Subpart D, implement the statutory provision by requiring (i) a railroad employing or formerly employing a disqualified individual to disclose the terms and conditions of a disqualification order to the individual's new or prospective employing railroad; (ii) a railroad considering employing an individual in a safety-sensitive position to ask the individual's previous employing railroad whether the individual is currently serving under a disqualification order; and (iii) a disqualified individual to inform his new or prospective employer of the disqualification order and provide a copy of the same. Additionally, the

regulations prohibit a railroad from employing a person serving under a disqualification order to work in a safety-sensitive position. This information serves to inform a railroad whether an employee or prospective employee is currently disqualified from performing safety-sensitive service based on the issuance of a disqualification order by FRA. Furthermore, it prevents an individual currently serving under a disqualification order from retaining and obtaining employment in a safety-sensitive position in the rail industry.

Form Number(s): N/A.

Affected Public: Railroad Employees.

Respondent Universe: 40,000 Locomotive Engineers.

Total Responses: 3.

Estimated Total Annual Burden: 5 hours.

Status: Extension of a currently approved collection.

Pursuant to 44 U.S.C. 3507(a) and 5 CFR 1320.5(b), 1320.8(b)(3)(vi), FRA informs all interested parties that it may not conduct or sponsor, and a respondent is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Authority: 44 U.S.C. 3501–3520.

Issued in Washington, DC, on November 8, 2012.
