### Aluminum Wire and Cable From the People's Republic of China: Final Results of the First Expedited Sunset Reviews of the Antidumping Duty Order

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** As a result of this expedited sunset review, the U.S. Department of Commerce (Commerce) finds that revocation of the antidumping duty (AD) order on aluminum wire and cable from the People's Republic of China (China) would be likely to lead to the continuation or recurrence of dumping at the dumping margins identified in the “Final Results of Sunset Review” section of this notice.

**DATES:** Applicable March 11, 2025.

#### FOR FURTHER INFORMATION CONTACT:

Jayden Graham-White, Trade Agreements Policy and Negotiations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–5255.

#### SUPPLEMENTARY INFORMATION:

### Background

On December 23, 2019, Commerce published the AD order on aluminum wire and cable from China in the *Federal Register*.<sup>1</sup> On November 4,

2024, Commerce published the notice of initiation of the first sunset review of the *Order*, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).<sup>2</sup> Commerce received notices of intent to participate from Encore Wire Corporation (Encore) and Southwire Company, LLC (Southwire) (collectively, the domestic interested parties) on November 6 and 13, 2024, respectively, within the 15-day period specified in 19 CFR 351.218(d)(1)(i).<sup>3</sup> The domestic interested parties claimed interested party status under section 771(9)(C) of the Act as producers of the domestic like product in the United States. On November 25, 2024, Commerce notified the U.S. International Trade Commission (ITC) that it received notices of intent to participate from the domestic interested parties.<sup>4</sup>

On November 18 and December 4, 2024, the domestic interested parties filed adequate substantive responses within the deadline specified in 19 CFR 351.218(d)(3)(i).<sup>5</sup> Commerce did not receive a substantive response from any respondent interested party. On December 26, 2024, Commerce notified the ITC that it did not receive an adequate substantive response from respondent interested parties.<sup>6</sup> As a result, pursuant to section 751(c)(3)(A) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), Commerce conducted an expedited (120-day) sunset review of the *Order*.

### Scope of the Order

The product covered by this *Order* is aluminum wire and cable from China. For a full description of the scope of the

*Countervailing Duty Orders*, 84 FR 70496 (December 23, 2019) (*Order*).

<sup>2</sup> See *Initiation of Five-Year (Sunset) Reviews*, 89 FR 787543 (November 4, 2024).

<sup>3</sup> See Encore's Letter, “Five-Year (“Sunset”) Review of Antidumping Duty Order on Aluminum Wire and Cable from China: Notice of Intent to Participate,” dated November 6, 2024; and Southwire's Letter, “Aluminum Wire and Cable from the People's Republic of China: Notice of Intent to Participate in Sunset Review,” dated November 13, 2024.

<sup>4</sup> See Commerce's Letter, “Sunset Reviews Initiated on November 4, 2024,” dated November 25, 2024.

<sup>5</sup> See Encore's Letter, “Five-Year (“Sunset”) review of Antidumping Duty Order on Aluminum Wire and Cable from China: Encore's Substantive Response to the Notice of Initiation,” dated November 18, 2024; and Southwire's Letter, “Five-Year (“Sunset”) Review of Antidumping Duty Order on Aluminum Wire and Cable from the People's Republic of China: Southwire's Substantive Response to the Notice of Initiation,” dated December 4, 2024.

<sup>6</sup> See Commerce's Letter, “Sunset Reviews Initiated on November 4, 2024,” dated December 26, 2024.

*Order*, see the Issues and Decision Memorandum.<sup>7</sup>

### Analysis of Comments Received

A complete discussion of all issues raised in these sunset reviews, including the likelihood of continuation or recurrence of dumping and the magnitude of the margins of dumping likely to prevail, is contained in the Issues and Decision Memorandum.<sup>8</sup> A list of topics discussed in the Issues and Decision Memorandum is included as an appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be directly accessed at <https://access.trade.gov/public/FRNoticesListLayout.aspx>.

### Final Results of Sunset Review

Pursuant to sections 751(c)(1) and 752(c)(1) and (3) of the Act, Commerce determines that revocation of the *Order* would likely lead to the continuation or recurrence of dumping and that the magnitude of the dumping margins likely to prevail would be weighted-average dumping margins up to 63.47 percent.<sup>9</sup>

### Administrative Protective Order (APO)

This notice serves as the only reminder to interested parties subject to an APO of their responsibility concerning the return/destruction or conversion to judicial protective order of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a). Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

### Notification to Interested Parties

We are issuing and publishing these final results and notice in accordance with sections 751(c), 752(c), and 777(i)(1) of the Act, and 19 CFR 351.221(c)(5)(ii).

<sup>7</sup> See Memorandum, “Issues and Decision Memorandum for the Final Results of the Expedited First Sunset Review of the Antidumping Duty Order on Aluminum Wire and Cable from the People's Republic of China,” dated concurrently with, and hereby adopted by, this notice (Issues and Decision Memorandum).

### Steel Racks and Parts Thereof, From the People's Republic of China: Continuation of Antidumping and Countervailing Duty Orders

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** As a result of the determinations by the U.S. Department of Commerce (Commerce) and the U.S. International Trade Commission (ITC) that revocation of the antidumping duty (AD) and countervailing duty (CVD) orders on certain steel racks and parts thereof (steel racks) from the People's Republic of China (China) would likely lead to the continuation or recurrence of dumping and countervailable subsidies, and material injury to an industry in the United States, Commerce is publishing a notice of continuation of these AD and CVD orders.

**DATES:** Applicable March 5, 2025.

**FOR FURTHER INFORMATION CONTACT:** Angelo Gonzalez, AD/CVD Operations, Office IV, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–5521.

### SUPPLEMENTARY INFORMATION:

#### Background

On September 16, 2019, Commerce published in the **Federal Register** the AD and CVD orders on steel racks from

China.<sup>1</sup> On August 1, 2024, the ITC instituted,<sup>2</sup> and Commerce initiated,<sup>3</sup> the first sunset review of the *Orders*, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). As a result of its reviews, Commerce determined that revocation of the *Orders* would likely lead to the continuation or recurrence of dumping and countervailable subsidies, and therefore, notified the ITC of the magnitude of the margins of dumping and subsidy rates likely to prevail should the *Orders* be revoked.<sup>4</sup>

On March 5, 2025, the ITC published its determination, pursuant to sections 751(c) and 752(a) of the Act, that revocation of the *Orders* would likely lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.<sup>5</sup>

#### Scope of the Orders

The merchandise covered by these *Orders* is steel racks and parts thereof, assembled, to any extent, or unassembled, including but not limited to, vertical components (e.g., uprights, posts, or columns), horizontal or diagonal components (e.g., arms or beams), braces, frames, locking devices (e.g., end plates and beam connectors), and accessories (including, but not limited to, rails, skid channels, skid rails, drum/coil beds, fork clearance bars, pallet supports, row spacers, and wall ties).

Subject steel racks and parts thereof are made of steel, including, but not limited to, cold and/or hot-formed steel, regardless of the type of steel used to produce the components and may, or may not, include locking tabs, slots, or bolted, clamped, or welded connections. Subject steel racks have the following physical characteristics:

(1) Each steel vertical and horizontal load bearing member (e.g., arms, beams, posts, and columns) is composed of steel that is at least 0.044 inches thick;

<sup>1</sup> See *Certain Steel Racks and Parts Thereof, from the People's Republic of China: Amended Final Affirmative Antidumping Duty Determination and Antidumping Duty Order; Countervailing Duty Order*, 84 FR 48584 (September 16, 2019) (*Orders*).

<sup>2</sup> See *Steel Racks from China; Institution of Five-Year Reviews*, 89 FR 62779 (August 1, 2024).

<sup>3</sup> See *Initiation of Five-Year (Sunset) Reviews*, 89 FR 62717 (August 1, 2024).

<sup>4</sup> See *Certain Steel Racks and Parts Thereof from the People's Republic of China: Final Results of the Expedited First Sunset Review of the Antidumping Duty Order*, 89 FR 96947 (December 6, 2024); see also *Steel Racks and Parts Thereof, from the People's Republic of China: Final Results of the Expedited Sunset Review of the Countervailing Duty Order*, 89 FR 96945 (December 6, 2024).

<sup>5</sup> See *Steel Racks from China*, 90 FR 11328 (March 5, 2025) (*ITC Final Determination*).

(2) Each steel vertical and horizontal load bearing member (e.g., arms, beams, posts, and columns) is composed of steel that has a yield strength equal to or greater than 36,000 pounds per square inch;

(3) The width of each steel vertical load bearing member (e.g., posts and columns) exceeds two inches; and

(4) The overall depth of each steel roll-formed horizontal load bearing member (e.g., beams) exceeds two inches.

In the case of steel horizontal load bearing members other than roll-formed (e.g., structural beams, Z-beams, or cantilever arms), only the criteria in subparagraphs (1) and (2) apply to these horizontal load bearing members. The depth limitation in subparagraph (4) does not apply to steel horizontal load bearing members that are not roll-formed.

Steel rack components can be assembled into structures of various dimensions and configurations by welding, bolting, clipping, or with the use of devices such as clips, end plates, and beam connectors, including, but not limited to the following configurations:

(1) Racks with upright frames perpendicular to the aisles that are independently adjustable, with positive-locking beams parallel to the aisle spanning the upright frames with braces; and (2) cantilever racks with vertical components parallel to the aisle and cantilever beams or arms connected to the vertical components perpendicular to the aisle. Steel racks may be referred to as pallet racks, storage racks, stacker racks, retail racks, pick modules, selective racks, or cantilever racks and may incorporate moving components and be referred to as pallet-flow racks, carton-flow racks, push-back racks, movable-shelf racks, drive-in racks, and drive-through racks. While steel racks may be made to ANSI MH16.1 or ANSI MH16.3 standards, all steel racks and parts thereof meeting the description set out herein are covered by the scope of these *Orders*, whether or not produced according to a particular standard.

The scope includes all steel racks and parts thereof meeting the description above, regardless of

(1) other dimensions, weight, or load rating;

(2) vertical components or frame type (including structural, roll-form, or other);

(3) horizontal support or beam/brace type (including but not limited to structural, roll-form, slotted, unslotted, Z-beam, C-beam, L-beam, step beam, and cantilever beam);

(4) number of supports;
