[Docket No. OSHA-2013-0010]

RIN 1218-AC80

Record Requirements in the Mechanical Power Presses Standard

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Proposed rule; request for comments.

SUMMARY: OSHA is proposing to make two main revisions to its Mechanical Power Presses Standard. First, OSHA is proposing to revise a provision that requires employers to develop and maintain certification records of periodic inspections performed on the presses by adding a requirement that they develop and maintain certification records of any maintenance and repairs they perform on the presses during the periodic inspections. Second, OSHA is proposing to remove the requirement from another provision that employers develop and maintain certification records of weekly inspections and tests performed on the presses.

This rulemaking is part of the Department of Labor's initiative to reduce paperwork burden; it will remove 613,600 hours of unnecessary paperwork burden for employers, while maintaining employee protection. OSHA is publishing a companion direct final rule elsewhere in this issue of the **Federal Register** taking this same action.

DATES: Submit comments on this proposed rule (including comments to the information-collection (paperwork) determination (described under the section titled "Procedural Determinations"), hearing requests, and other information by December 20, 2013. All submissions must bear a postmark or provide other evidence of the submission date. The following section describes the available methods for making submissions.

ADDRESSES: Submit comments, hearing requests, and other material, identified by Docket No. OSHA-2013-0010, by any of the following methods:

Electronically: Submit comments and attachments, as well as hearing requests and other information, electronically to <http://www.regulations.gov>, which is the Federal e-Rulemaking Portal. Follow the online instructions for submitting comments.¹

Facsimile: OSHA allows facsimile transmission of comments and hearing requests that are 10 pages or fewer in length (including attachments). Send these documents to the OSHA Docket Office at (202) 693-1648. OSHA does not require hard copies of these documents. Instead of transmitting facsimile copies of attachments that supplement these documents (for example, studies, journal articles), commenters must submit these attachments to the OSHA Docket Office, Technical Data Center, Room N-2625, OSHA, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, DC 20210. These attachments must identify clearly the sender's name, the date, subject, and docket number (OSHA-2013-0010) so that the Docket Office can attach them to the appropriate document.

Regular mail, express mail, hand delivery, and messenger (courier) service: Submit comments, hearing requests, and any additional material (for example, studies, journal articles) to the OSHA Docket Office, Docket No. OSHA-2013-0010 or RIN 1218-AC80, Technical Data Center, Room N-2625, OSHA, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, DC 20210; telephone: (202) 693-2350. (OSHA's TTY number is (877) 889-5627.) Contact the OSHA Docket Office for information about security procedures concerning delivery of materials by express mail, hand delivery, and messenger service. The hours of operation for the OSHA Docket Office are 8:15 a.m. to 4:45 p.m., e.t.

Instructions: All submissions must include the Agency's name and the docket number (that is, OSHA-2013-0010). OSHA will place comments and other material, including any personal information, in the public docket without revision, and these materials will be available online at <http://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting statements they do not want made available to the public and submitting

comments that contain personal information (either about themselves or others) such as Social Security numbers, birth dates, and medical data.

OSHA requests comment on all issues related to this proposed rule. The Agency also welcomes comments on its findings that this proposed rule would have no negative economic, paperwork, or other regulatory impacts on the regulated community. This proposed rule is the companion document to a direct final rule published in the "Rules" section of this issue of the **Federal Register**. If OSHA receives no significant adverse comment on the proposal or direct final rule, the Agency will publish a **Federal Register** notice confirming the effective date of the final rule and withdrawing this companion proposed rule. The final rule may include minor editorial or technical corrections of the direct final rule. For the purpose of judicial review, OSHA considers the date that the Agency confirms the effective date of the final rule to be the date of issuance. If, however, OSHA receives significant adverse comment on the direct final rule or proposal, the Agency will publish a timely withdrawal of the direct final rule and proceed with the proposed rule, which addresses the same revisions to its Mechanical Power Presses Standard.

Docket: The electronic docket for this proposed rule established at <http://www.regulations.gov> lists most of the documents in the docket. However, some information (for example, copyrighted material) is not available publicly to read or download through this Web site. All submissions, including copyrighted material, are accessible at the OSHA Docket Office. Contact the OSHA Docket Office for assistance in locating docket submissions.
