*General Description of Collection:* The FDIC collects deposit insurance assessments on a quarterly basis. Each quarterly assessment is based on an insured depository institution’s quarterly report of condition for the prior calendar quarter. The FDIC collects the quarterly assessment payments by means of direct debits through the Automated Clearing House network. The information collection consists of the reporting requirement

associated with certifying the review by officials of the insured institutions to confirm that the assessment data are accurate and, in cases of inaccuracy, submission of corrected data. There is no change in the substance or methodology of this information collection. The change in burden is due solely to the decrease in the estimated number of respondents by 671 from the estimated 7,011 annual respondents in the currently-approved information

collection to the current estimate of 6,340. The decrease in estimated respondents is the result of the drop in the total number of insured depository institutions.

2. *Title:* Summary of Deposits.  
*OMB Number:* 3064-0061.  
*Forms:* None.  
*Affected Public:* FDIC-insured depository institutions.

*General Description of Collection:* The Summary of Deposits (SOD) is the annual survey of branch office deposits as of June 30 for all FDIC-insured institutions, including insured U.S. branches of foreign banks. All FDIC-insured institutions that operate a main office and one or more branch locations (including limited service drive-thru locations) as of June 30 each year are required to file the SOD Survey. Insured branches of foreign banks are also

required to file. All data collected on the SOD submission are available to the public. The survey data provides a basis for measuring the competitive impact of bank mergers and has additional use in research on banking. There is no change in the substance or methodology of this information collection. The change in burden is due solely to the decrease in the estimated number of respondents by 429 from the estimated 4,299 annual respondents in the currently-approved

information collection to the current estimate of 3,870.

3. *Title:* Procedures for Monitoring Bank Secrecy Act Compliance.

*General Description of Collection:* Respondents must establish and maintain procedures designed to monitor and ensure their compliance with the requirements of the Bank Secrecy Act and the implementing regulations promulgated by the Department of Treasury at 31 CFR chapter X. Respondents must also keep records evidencing that they have provided training for appropriate personnel. There is no change in the method or substance of the collection. The overall increase in burden hours is a result of economic fluctuation. In particular, the total number of respondents has increased while the hours per response remain the same.

**Request for Comment**

*Comments are invited on:* (a) Whether the collection of information is necessary for the proper performance of the FDIC’s functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collection, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.
