#### Deletions

On 3/15/2013 (78 FR 16475–16476)  
and 3/22/2013 (78 FR 17641–17642), the  
Committee for Purchase From People  
Who Are Blind or Severely Disabled  
published notices of proposed deletions  
from the Procurement List.

After consideration of the relevant  
matter presented, the Committee has  
determined that the product and service  
listed below are no longer suitable for  
procurement by the Federal Government  
under 41 U.S.C. 8501–8506 and 41 CFR  
51–2.4.

#### Regulatory Flexibility Act Certification

I certify that the following action will  
not have a significant impact on a  
substantial number of small entities.  
The major factors considered for this  
certification were:

1. The action will not result in  
additional reporting, recordkeeping or  
other compliance requirements for small  
entities.

2. The action may result in  
authorizing small entities to furnish the  
product and service to the Government.

3. There are no known regulatory  
alternatives which would accomplish  
the objectives of the Javits-Wagner-  
O'Day Act (41 U.S.C. 8501–8506) in  
connection with the product and service  
deleted from the Procurement List.

#### End of Certification

Accordingly, the following product  
and service are deleted from the  
Procurement List:

#### Final Environmental Impact Statement for the Construction and Operation of an Infantry Platoon Battle Course at Pōhakuloa Training Area, Hawai'i

**AGENCY:** Department of the Army, DoD.

**ACTION:** Notice of availability.

**SUMMARY:** The U.S. Army Pacific  
(USARPAC) and U.S. Army Garrison,  
Hawai'i, (USAG–HI) propose to  
construct and operate a modern Infantry  
Platoon Battle Course (IPBC) and  
associated infrastructure that is  
compliant with current Army training  
requirements at Pōhakuloa Training

Area (PTA), Hawai'i. The proposed  
IPBC would support the live-fire  
collective training needs of the Army,  
Army Reserve, and Hawai'i Army  
National Guard, as well as other Service  
components that are stationed or train  
in Hawai'i.

Two alternatives were analyzed in the  
EIS: the Western Range Area Alternative  
(preferred) and the Charlie Circle  
Alternative. Both proposed IPBC  
alternative locations are in under-  
utilized portions of the PTA impact area  
where no ranges currently exist. These  
locations have been exposed to indirect  
munitions fire, and the proposed action  
would reclaim portions of the impact  
area to construct the IPBC. A third  
alternative analyzed in the Draft  
Programmatic Environmental Impact  
Statement (PEIS), Southwest of Range  
20, is not operationally feasible and has  
been eliminated from the Final EIS. The  
Army also considered a No Action  
Alternative to not build the IPBC. For all  
alternatives (except for the No Action),  
the IPBC would be used for 242 training  
days per year.

The Army identified and analyzed  
environmental and socioeconomic  
impacts associated with the proposed  
IPBC. The major potential  
environmental impacts are to air  
quality, cultural sites, threatened and  
endangered species, encountering  
munitions and explosives of concern,  
and igniting wildfires. Cultural  
resources could also be significantly  
impacted. The Army consulted with the  
USFWS on potential mitigation  
measures to protect federally-listed  
species. The USFWS issued a Biological  
Opinion (BO) pursuant to Section 7 of  
the Endangered Species Act on January  
11, 2013. The Army also consulted with  
the State Historic Preservation Division,  
Advisory Council on Historic  
Preservation, and other consulting  
parties, including Native Hawaiian  
organizations, about potential effects on  
cultural resources and mitigation of  
those effects. The Army and the  
consulting parties are in the process of  
signing a Programmatic Agreement (PA)  
pursuant to Section 106 of the National  
Historic Preservation Act. The PA  
establishes how the remaining steps to  
the Section 106 consultation will be  
completed and the mitigation measures  
for the potential adverse effects on  
cultural resources. The PA will be  
signed prior to the Army issuing a  
Record of Decision for the proposed  
action.

**DATES:** The waiting period for the Final  
EIS will end 30 days after publication of  
the NOA in the **Federal Register** by the  
U.S. Environmental Protection Agency.

**ADDRESSES:** Written comments may be addressed to PTA EIS, P.O. Box 514, Honolulu, HI 96809 or by email to [PTAPEIS@bah.com](mailto:PTAPEIS@bah.com).

**FOR FURTHER INFORMATION CONTACT:** USAG–HI Public Affairs Office by phone at (808) 656–3152 Monday through Friday 9:00 a.m. to 5:00 p.m. Hawai'i Standard Time (HST).

**SUPPLEMENTARY INFORMATION:** The IPBC would be used to train and test infantry platoons and other units on the skills necessary to conduct collective (group) tactical movement techniques, and to detect, identify, engage, and defeat stationary and moving infantry and armor targets in a tactical array. Soldiers would engage targets with small arms, machine guns, and other weapon systems as part of live-fire exercises. This includes air-ground integration where Soldiers maneuvering on the IPBC can coordinate air support. In addition to live-fire, the range would also be used for training with sub-caliber and/or laser training devices. This type of training is mission essential for Soldiers to be prepared to encounter threats during combat operations overseas.

The Draft PEIS included a programmatic level analysis of future modernization of ranges, training and support infrastructure, and the Cantonment Area. A number of factors caused the Army to reconsider the programmatic portion of this analysis: the highly uncertain nature of the future projects in the modernization program, a rapidly changing austere fiscal environment, as well as the many public and agency comments received on the Draft PEIS. After thorough consideration of all of these factors, Army leadership has decided to defer analysis of the programmatic portion of the EIS.

In the 2011 Draft PEIS, the IPBC was analyzed as part of a larger Infantry Platoon Battle Area (IPBA), which included a Military Operations on Urban Terrain (MOUT) Assault Course and a live-fire Shoothouse facility. Due to funding constraints, the MOUT Assault Course and Shoothouse facility are no longer part of the project. Further NEPA analysis will occur when funding becomes available for these projects and sites are identified. A third IPBC alternative analyzed in the Draft PEIS, Southwest of Range 20, was subsequently found not to be operationally feasible and it was eliminated from the Final EIS.

The Record of Decision will be published no sooner than 30 days after publication of the notice of availability of the Final EIS in the **Federal Register** by the U.S. Environmental Protection

Agency. The Record of Decision will include final mitigation measures the Army will adopt. Copies of the Final EIS are available at the following libraries: Hilo Public Library, 300 Waiānū Avenue, Hilo; Kailua-Kona Public Library, 75–138 Hualalai Road, Kailua-Kona; Thelma Parker Memorial Public and School Library, 67–1209 Mamalahoa Highway, Kamuela; and Hawai'i State Library, 478 South King Street, Honolulu.
