

which those issues and impacts will be analyzed in the EIS. At present, the BLM has identified the following preliminary issues: pit lake formation post closure, mine dewatering, wildlife, and socioeconomic concerns.

The BLM will follow the NEPA public participation requirements to satisfy the public involvement requirements under Section 106 of the National Historic Preservation Act (NHPA) (16 U.S.C. 470(f)) pursuant to 36 CFR 800.2(d)(3). Any information about historic and cultural resources within the area potentially affected by the proposed project will assist the BLM in identifying and evaluating impacts to such resources in the context of both NEPA and Section 106 of the NHPA.

The BLM will consult with Indian tribes on a government-to-government basis in accordance with Executive Order 13175 and other policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. Federal, State, and local agencies, along with tribes and other stakeholders that may be interested in or affected by the proposed Buffalo Valley Mine Project are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate in the development of the environmental analysis as a cooperating agency.

**SUPPLEMENTARY INFORMATION:** The following-described public land in Campbell County, Wyoming, is proposed for direct sale, subject to the applicable provisions of Sections 203 and 209 of the Federal Land Policy and Management Act of 1976 (FLPMA) and 43 CFR Parts 2711 and 2720:

#### Sixth Principal Meridian, Wyoming

T. 56 N., R. 73 W.,  
Sec. 8, lot 17.

The area described contains 4.15 acres, according to the official plat of the survey of the said land, on file with the BLM.

The proposed (non-competitive) direct sale is in conformance with the BLM Buffalo Resource Management Plan (RMP) approved on October 4, 1985. The parcel is identified for disposal in the RMP Record of Decision, pages 13 and 14 and Map 5 because the lands are isolated public lands surrounded by private lands under single ownership. These isolated lands are difficult and uneconomic for the Federal Government to manage. Additionally, Maintenance Plan Change #20120720 was added to comply with guidelines of the Department of the Interior and the BLM. The Maintenance Plan Change updated the land disposal map and included a text version of all legal descriptions for parcels identified for consideration for disposal. The land, if offered, would be through a (non-competitive) direct sale to the Craig G. and Peggy S. Means Revocable Trust as the final resolution to the unauthorized

use, pursuant to 43 CFR 2710.0-6(c)(3)(iii) and 43 CFR 2711.3-3(a)(5). In addition, the Craig G. and Peggy S. Means Revocable Trust are the sole owners of the private lands surrounding the identified parcel of Federal land and pursuant to 43 CFR 2710.0-6(c)(3)(iii) and 43 CFR 2711.3-3(a)(4) a direct sale is appropriate. Conveyance of the identified public land would be subject to valid existing rights and encumbrances of record. Conveyance of any mineral interests, pursuant to Section 209 of the FLPMA, was not proposed, but would be analyzed during processing of the proposed sale.

On February 4, 2013, the above-described land will be segregated from all forms of appropriation under the public land laws, including the mining laws and the mineral leasing laws, except for the sale provisions of the FLPMA. Until completion of the sale action, the BLM is no longer accepting land use applications affecting the identified public land. The temporary segregation will terminate upon issuance of a patent, publication in the **Federal Register** of a termination of the segregation, or February 4, 2015, unless extended by the BLM Wyoming State Director in accordance with 43 CFR 2711.1-2(d) prior to the termination date.

For a period until March 21, 2013, interested parties and the general public may submit in writing any comments concerning the land being considered for sale, including notification of any encumbrances or other claims relating to the identified land, to the Field Manager, BLM Buffalo Field Office, at the above address. In order to ensure consideration in the environmental analysis of the proposed sale, comments must be in writing and postmarked or delivered within 45 days of the initial date of publication of this Notice. Electronic mail (email) will also be accepted and should be sent to [buffalo\\_wymail@blm.gov](mailto:buffalo_wymail@blm.gov) with "Campbell County Land Sale" inserted in the subject line. Comments, including names and street addresses of respondents, will be available for public review at the BLM Buffalo Field Office during regular business hours, except holidays.

Before including your address, phone number, email address, or other personal identifying information in your comment, be advised that your entire comment—including your personal identifying information—may be made publicly available at any time. **SUMMARY:** The Bureau of Land Management (BLM) is considering eight parcels of public land totaling 208.12 acres in Sheridan County, Wyoming, for direct sale under the provisions of the Federal Land Policy Management Act of 1976 (FLPMA), at no less than the appraised fair market value.

**SUPPLEMENTARY INFORMATION:** The following-described public land in Sheridan County, Wyoming, is being considered for direct sale under the authority of Section 203 FLPMA, (90 Stat. 2750, 43 U.S.C. 1713):

#### Sixth Principal Meridian

Sec. 26, NE1/4SW1/4.

The areas described aggregate 208.12 acres in Sheridan County, Wyoming.

parcels of public land as suitable for disposal. Conveyance of the identified public land will be subject to valid existing rights and encumbrances of record, including but not limited to, rights-of-way for roads and public utilities.

Farmland Reserve, Inc., has submitted a formal proposal for the acquisition of 208.12 acres of public land in Sheridan County. A direct sale was initiated to purchase only lands solely within the boundaries of a ranch where there is no legal access or adjacent landowners. The parcels are difficult for the BLM to manage. The lands would continue to be used for ranching operations. The proposed sale of the identified public land is in the initial stages of processing.

Until completion of the sale, the BLM is no longer accepting land use applications affecting the identified public land, except applications for the amendment of previously-filed right-of-way applications or existing authorizations to increase the term of the grants in accordance with 43 CFR 2807.15 and 2886.15. The segregative effect will terminate upon issuance of a patent, publication in the **Federal Register** of a termination of the segregation, or February 4, 2015, unless extended by the BLM State Director in accordance with 43 CFR 2711.1–2(d) prior to the termination date.

#### Public Comments
