

of human subjects. Specific research studies may be undertaken by a Center or by the Network. Each will be undertaken as the need is identified through the ongoing experience of reviewing vaccine safety issues by the functioning Network, if funding is available, and with the development of a formal research protocol at that time.

6. Budget (not scored)

The applicant shall describe their proposed plan for managing the resources necessary to comply with the requirements specified in Section E. This shall include a description of the Center organization, including proposed person hours for each key individual.

I. Reporting Requirements

Provide CDC with original plus two copies of:

1. Semi-annual progress reports. The progress report will include a data requirement that demonstrates measures of effectiveness.
2. Financial status report, no more than 90 days after the end of the budget period.
3. Final financial and performance reports, no more than 90 days after the end of the project period.

Send all reports to the Grants Management Specialist identified in the "Where to Obtain Additional Information" section of this announcement.

The following additional requirements are applicable to this program.

- AR-1 Human Subjects Requirements
- AR-2 Requirements for Inclusion of Women and Racial and Ethnic Minorities in Research
- AR-7 Executive Order 12372 Review
- AR-8 Public Health System Reporting Requirements
- AR-10 Smoke-Free Workplace Requirements
- AR-11 Healthy People 2010
- AR-12 Lobbying Restrictions
- AR-14 Accounting System Requirements
- AR-15 Proof of Non-Profit Status
- AR-22 Research Integrity

J. Where To Obtain Additional Information

[Program Announcement 02206]

Cooperative Agreement for International Emerging Infections Program Surveillance in Thailand; Notice of Availability of Funds

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2002 funds for a cooperative agreement program for International Emerging Infections Surveillance in Thailand.

The purpose of the program is to provide assistance to the Thailand Ministry of Public Health to conduct population-based surveillance for emerging infections in Thailand in collaboration with the International Emerging Infections Program (IEIP).

The objectives of this program are to (1) establish an active, populations-based surveillance network that uses standardized data collection instruments, operational definitions, and laboratory diagnostic tests to enhance surveillance for severe pneumonia in Sa Kaeo Province; (2) use the experience gained from the first six months of surveillance in Sa Kaeo to expand the surveillance system to include one additional province and two additional syndromes; (3) improve local laboratory diagnostic capabilities by supporting and enhancing those local laboratories that participate in IEIP surveillance; (4) develop educational and training opportunities for local public health practitioners as part of broader efforts to improve public health infrastructure in the region; and (5) improve communications and data exchange between public health officials by electronically linking IEIP surveillance sites, laboratories, and provincial and national epidemiologists.

Measurable outcomes of the program will be in alignment with one or more of the following performance goals for the National Center for Infectious Diseases: (1) Apply scientific findings to prevent and control infectious diseases and (2) Strengthen epidemiologic and laboratory capacity to recognize, respond to, and monitor infectious diseases.

B. Authority and Catalog of Federal Domestic Assistance Number

This program is authorized under section 301 and 307 of the Public Health Service Act [42 U.S.C. 241 and 242], as
