

As noted in the initial regulatory flexibility analysis, USDA has not identified any relevant Federal rules that duplicate, overlap, or conflict with this final rule.

A proposed rule concerning this action was published in the **Federal Register** on March 18, 2008 (73 FR 14400). Copies of the proposed rule were also mailed or sent via facsimile to all Vidalia onion handlers. Finally, the proposal was made available through the Internet by USDA and the Office of the Federal Register. A 30-day comment period ending April 17, 2008, was provided for interested persons to respond to the proposal. No comments were received.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: <http://www.ams.usda.gov/fv/moab.html>. Any questions about the compliance guide should be sent to Jay Guerber at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

After consideration of all relevant material presented, including the information and recommendation submitted by the Committee and other available information, it is hereby found that this rule, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it also found and determined that good cause exists for not postponing the effective date of this rule until 30 days after publication in the **Federal Register** because handlers are already receiving 2008 crop Vidalia onions from growers. In addition, the fiscal year began on January 1, 2008, and the marketing order requires that the rate of assessment for each fiscal period apply to all assessable Vidalia onions handled during such fiscal period. The Committee also needs to have sufficient funds to pay its expenses which are incurred on a continuous basis. Further, handlers are aware of this rule which was recommended at a public meeting. Also, a 30-day comment period was provided for in the proposed rule.

ACTION: Final rule; Office of Management and Budget approval for information collection.

SUMMARY: This document announces the Office of Management and Budget's (OMB) approval of the information collection requirement for the final rule entitled Performance and Handling Qualities Requirements for Rotorcraft (Amendments 27-44 and 29-51), published February 29, 2008.

DATES: The FAA received OMB approval for the information collection requirements for Performance and Handling Qualities Requirements for Rotorcraft, effective March 25, 2008.

FOR FURTHER INFORMATION CONTACT: Jeff Trang, Rotorcraft Standards Staff, ASW-111, Federal Aviation Administration, Fort Worth, Texas 76193-0111; telephone (817) 222-5135; facsimile (817) 222-5961, e-mail jeff.trang@faa.gov.

SUPPLEMENTARY INFORMATION: On February 29, 2008, the FAA published the final rule, "Performance and Handling Qualities Requirements for Rotorcraft" (73 FR 10987). The rule provided new and revised airworthiness standards for normal and transport category rotorcraft due to technological advances in design and operational

trends in normal and transport rotorcraft performance and handling qualities. The rule contained information collection requirements that had not yet been approved by OMB at the time of publication. In the **DATES** section of the rule, the FAA noted that affected parties did not need to comply with the information collection requirements until OMB approved the FAA's request to collect the information.

In accordance with the Paperwork Reduction Act of 1995, OMB approved the information collection request, without change, on March 25, 2008, and assigned OMB Control Number 2120-0726. This notice informs affected parties that effective March 25, 2008, the information collection requirements for Performance and Handling Qualities Requirements for Rotorcraft (Amendments 27-44 and 29-51) are approved. This information collection approval expires on March 31, 2011.

Authority for This Rulemaking

The FAA's authority to issue rules on aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart III, Section 44701, "General requirements," Section 44702, "Issuance of Certificates," and section 44704, "Type certificates, production certificates, and airworthiness certificates." Under section 44701, the FAA is charged with prescribing regulations and minimum standards for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. Under section 44702, the FAA may issue various certificates including type certificates, production certificates, and airworthiness certificates. Under section 44704, the FAA shall issue type certificates for aircraft, aircraft engines, propellers, and specified appliances when we find that the product is properly designed and manufactured, performs properly, and meets the regulations and minimum prescribed standards. This regulation is within the scope of that authority because it promotes safety by updating the existing minimum prescribed standards used during the type certification process to reflect the enhanced performance and handling quality capabilities of rotorcraft.

Issued in Washington, DC, May 27, 2008.

Pamela Hamilton-Powell,

Director, Office of Rulemaking.

History

The FAA published a direct final rule with request for comments in the **Federal Register** February 21, 2008, (73 FR 9452), Docket No. FAA-2008-0025, Airspace Docket No. 08-AGL-3. The FAA uses the direct final rule procedure for non-controversial rules where the FAA believes that there will be no adverse public comment. This direct final rule advised the public that no adverse comments were anticipated, and that unless a written adverse comment, or a written notice of intent to submit an adverse comment, was received within the comment period, the regulation would become effective on April 10, 2008.
