

their development. The Agency will provide opportunity for public input to any reasonable and prudent measures or alternatives recommended by the Services in these draft Biological Opinions. The purpose of this review would be to determine whether the alternatives or measures can be reasonably implemented and whether there are alternative measures that may provide similar protection but result in less impact. The Agency will consider this input in developing its response to the draft Biological Opinions.

Specific Input Requested - Public Participation

The Agency seeks specific suggestions on how the public could most effectively be informed of the Agency's determinations and consultations. The Agency also seeks other suggestions for enhancing public involvement in the ESPP.

I. Implementation Timing

Once public comment on this Notice has been considered and a final Notice issued, the Agency intends to begin field implementation of the ESPP. At the same time, EPA recognizes that technical and consultation process issues may change based on input in response to the ANPR the Agency will issue with DOI and DOC on or about the same date as this Notice, or changes to FIFRA implementation regulations. However, the Agency believes the responsible approach is to implement in a timely manner, those aspects of listed species protection that the Agency can, while building modifications and efficiencies into the longer term effort of a sustained approach to protecting listed species.

Within 6 months of reviewing existing Interim Pamphlets for accuracy, the Agency intends to modify them as appropriate and issue them as County Bulletins. While the Bulletins will be widely available, they will be effective upon reference to them on pesticide labels. The Agency also will develop for public comment a PR Notice that will identify time frames in which the Agency anticipates that registrants could modify labels for these products.

Upon issuance of a final Notice of Program Field Implementation, the Agency will begin the process of reviewing, for endangered species implications, those pesticides for which REDs have already been issued but for which specific endangered species assessments were not completed during the RED process.

As pesticides are reviewed and determinations made for listed species, the Agency will begin creating Bulletins or preparing to include these pesticides

in existing Bulletins, as appropriate. EPA will review the County Bulletins as necessary, but generally update them not more than once annually.

Specific Input Requested - Implementation Timing

How can EPA time the release of County Bulletins to minimize the potential disruption to pesticide users during a growing season?

J. Program Maintenance

To the degree possible, endangered species issues are and will be addressed within the Agency's existing processes of registration and reregistration. Concurrently, the Agency will review those pesticides that have been through reregistration and were found potentially to affect listed species, or did not undergo ESA review during reregistration. Once all registered pesticides have been re-evaluated, EPA's future obligations to consult under ESA will be fulfilled through an ongoing process of evaluation and referral. If new, valid information becomes available on existing pesticide registrations, or if new species affected by specific pesticides are listed under the ESA, EPA will re-evaluate its determinations and reinitiate consultation when appropriate. EPA anticipates that reinitiation on the basis of new information will occur on an annual or biannual basis, as necessary. EPA will periodically reinitiate consultation, as appropriate, on pesticides already included in the Program to obtain Biological Opinions for newly listed species. It is not the Agency's intent, however, to change product labels and County Bulletins constantly; rather, EPA intends to maintain the ability to act on listed species and critical habitat issues if a new body of data becomes available.

CERCLA Administrative Consent Order Containing Proposed Past Costs Settlement Related to the Butternuts Landfill Superfund Site, Town of Butternuts, Otsego County, NY

AGENCY: Environmental Protection Agency.

ACTION: Notice; request for public comment.

SUMMARY: In accordance with Section 122(i) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, amended ("CERCLA"), 42 U.S.C. 9622(i), notice is hereby given by the U.S. Environmental Protection Agency ("EPA"), Region II, of an administrative consent order ("Order") pursuant to sections 104, 106, 107, and 122 of CERCLA 42 U.S.C. 9604, 9606, 9607, and 9622, addressing, *inter alia*, proposed recovery of past response costs paid by EPA with regard to the Butternuts Landfill Superfund Site ("Site") located in the Town of Butternuts, Otsego County, New York. The Order requires the settling party, Hugo Neu Schnitzer East ("Respondent"), to perform a removal action at the Site and also pay \$40,000 in reimbursement of EPA's past response costs at the Site. The settlement includes a covenant not to sue the Respondent pursuant to sections 106 and 107(a) of CERCLA, 42 U.S.C. 9606, 9607(a), for performance of the removal action and for recovery of EPA's past costs and oversight costs.

For thirty (30) days following the date of publication of this notice, EPA will receive written comments relating only to the portion of the Order which settles EPA's claim for recovery of its past response costs. EPA will consider all such comments received and may modify or withdraw its consent to the past costs settlement if comments received disclose facts or considerations that indicate that the proposed past costs settlement is inappropriate, improper or inadequate. EPA's response

to any comments received will be available for public inspection at EPA Region II office at 290 Broadway, 18th floor, New York, New York 10007-1866.

DATES: Comments must be submitted on or before January 2, 2003.
