While work on the radial gate is being performed, minimum instream flows will be released through an existing 36-inch pipe during the variance period, at its maximum release capacity. To offset recreational impacts to whitewater opportunities, the licensee proposes a make-up schedule of November 15 & 16, and November 22, & 23, 2025, of similar boating flows, if the variance is approved. In addition, the licensee also requests to postpone monitoring activities performed under the Poe Tributary Access Monitoring Plan, if 2025 is determined to be a dry or critically dry water year type.

#### Yuba County Water Agency; Notice of Intent To Prepare an Environmental Assessment

On November 14, 2023, Yuba County Water Agency (YCWA) filed an application to relicense the 12-megawatt Narrows Hydroelectric Project No. 1403. The project is located on the Yuba River, near the City of Marysville, in Nevada County, California.

In accordance with the Commission's regulations, on February 26, 2025, Commission staff issued a notice that the project was ready for environmental analysis (REA notice). Based on the information in the record, including comments filed on the REA Notice, staff does not anticipate that licensing the project would constitute a major federal action significantly affecting the quality of the human environment. Therefore, staff intends to prepare an environmental assessment (EA) on the application to relicense the project.<sup>1</sup>

The EA will be issued and circulated for review by all interested parties. All comments filed on the EA will be analyzed by staff and considered in the Commission's final licensing decision.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, community organizations, Tribal members, and others to access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502–6595 or [OPP@ferc.gov](mailto:OPP@ferc.gov).

The application will be processed according to the following schedule. The EA will be issued for a 45-day comment period. Revisions to the schedule may be made as appropriate.
