

manufacturers outside the State who must comply with California's requirements in order to produce motor vehicles for sale in California. For this reason, I hereby determine and find that this is a final action of national applicability.

As with past waiver decisions, this action is not a rule as defined by Executive Order 12866. Therefore, it is exempt from review by the Office of Management and Budget as required for rules and regulations by Executive Order 12866.

In addition, this action is not a rule as defined in the Regulatory Flexibility Act, 5 U.S.C. sec. 601(2). Therefore, EPA has not prepared a supporting regulatory flexibility analysis addressing the impact of this action on small business entities.

Finally, the Administrator has delegated the authority to make determinations regarding waivers of Federal preemption under section 209(b) of the Act to the Assistant Administrator for Air and Radiation.

Dated: January 18, 2001.

Robert Perciasepe,

Assistant Administrator for Air and Radiation.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-34203G; FRL-6764-2]

Chlorpyrifos; End-Use Products Cancellation Order

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the use deletions and cancellations as requested by the companies that hold the registrations of pesticide end-use products containing the active ingredient chlorpyrifos and accepted by EPA, pursuant to section 6(f) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). This order follows up a November 17, 2000, notice of receipt of requests for amendments to delete uses and receipt of requests for registration cancellations. In that notice, EPA indicated that it would issue an order confirming the voluntary use deletions and registration cancellations. Any distribution, sale, or use of canceled chlorpyrifos products is only permitted in accordance with the terms of the existing stocks provisions of this cancellation order.

DATES: The cancellations are effective January 25, 2001.

FOR FURTHER INFORMATION CONTACT: Tom Myers, Special Review and Reregistration Division (7508C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460, telephone number: (703) 308-8589; fax number: (703) 308-8041; e-mail address: myers.tom@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general. You may be potentially affected by this action if you manufacture, sell, distribute, or use chlorpyrifos products. The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, does not apply because this action is not a rule, for purposes of 5 U.S.C. 804(3). Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Additional Information, Including Copies of this Document and Other Related Documents?

1. *Electronically.* You may obtain electronic copies of this document, and certain other related documents that might be available electronically, from the EPA Internet Home Page at <http://www.epa.gov/>. To access this document, on the Home Page select "Laws and Regulations," "Regulations and Proposed Rules," and then look up the entry for this document under the "Federal Register—Environmental Documents." You can also go directly to the **Federal Register** listings at <http://www.epa.gov/fedrgstr/>. To access information about the risk assessment for chlorpyrifos, go to the Home Page for the Office of Pesticide Programs or go directly <http://www.epa.gov/pesticides/op/chlorpyrifos.htm>.

2. *In person.* The Agency has established an official record for this action under docket control number OPP-34203E. The official record consists of the documents specifically referenced in this action, any public comments received during an applicable comment period, and other information related to this action, including any information claimed as Confidential

Business Information (CBI). This official record includes the documents that are physically located in the docket, as well as the documents that are referenced in those documents. The public version of the official record does not include any information claimed as CBI. The public version of the official record, which includes printed, paper versions of any electronic comments submitted during an applicable comment period, is available for inspection in the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1921 Jefferson Davis Hwy., Arlington, VA, from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The PIRIB telephone number is (703) 305-5805.

II. Receipt of Requests to Cancel and Amend Registrations to Delete Uses

A. Background

In a memorandum of agreement (Agreement) effective June 7, 2000, EPA and the basic manufacturers of the active ingredient chlorpyrifos agreed to several voluntary measures that will reduce the potential exposure to children associated with chlorpyrifos containing products. EPA initiated the negotiations with registrants after finding chlorpyrifos, as currently registered, was an exposure risk especially to children. As a result of the Agreement, registrants that hold the pesticide registrations of end-use products containing chlorpyrifos (who are in large part the customer of these basic manufacturers) have asked EPA to cancel or amend their registrations for these products. Pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA announced the Agency's receipt of these requests from the registrants by a **Federal Register** notice published on November 17, 2000 (65 FR 69518) (FRL-6753-3). With respect to the registration amendments, the registrants have asked EPA to amend end-use product registrations to delete the following uses: all termite control uses (these will be phased out); all residential uses (except for ant and roach baits in child resistant packaging (CRP) and fire ant mound drenches for public health purposes by licensed applicators and mosquito control for public health purposes by public health agencies); all indoor non-residential uses (except ship holds, industrial plants, manufacturing plants, food processing plants, containerized baits in CRP, and processed wood products treated during the manufacturing process at the manufacturing site or at the mill); all outdoor non-residential

sites (except golf courses, road medians, industrial plant sites, fence posts, utility poles, railroad ties, landscape timbers, logs, pallets, wooden containers, poles, posts, processed wood products, manhole covers, and underground utility cable and conduits; and fire ant mound drenches for public health purposes by licensed applicators and mosquito control for public health purposes by public health agencies); and use on post-bloom apple trees. In addition, the companies agreed to limit the maximum chlorpyrifos end-use dilution to 0.5% active ingredient (a.i.) for termiticide uses that will be phased out, limit the maximum label application rate for outdoor non-residential use on golf courses, road medians, and industrial plant sites to 1

lb/a.i. per acre, and either classify all new/amended chlorpyrifos products (except baits in CRP) as Restricted Use or package the products in large containers, depending on the formulation type, to ensure that remaining chlorpyrifos products are not available to homeowners. In return, EPA stated that with this Agreement, it had no current intention to initiate any cancellation or suspension proceedings under section 6(b) or 6(c) of FIFRA with respect to the issues addressed in the Agreement.

In the **Federal Register** of November 17, 2000, EPA published a notice of the Agency's receipt of end-use product amendments and cancellations from registrants that hold the pesticide registrations containing chlorpyrifos

(who are in large part the customer of the basic manufacturers). These requests were submitted as a result of the Memorandum of Agreement that was signed on June 7, 2000 between EPA and the basic manufacturers of chlorpyrifos. A copy of the Memorandum of Agreement that was signed on June 7, 2000 is located in docket control number OPP-34203D.

B. Requests for Voluntary Cancellation of End-Use Products

Pursuant to the Agreement and FIFRA section 6(f)(1)(A), several registrants have submitted requests for voluntary cancellation of registrations for their end-use products. The registrations for which cancellations were requested are identified in the following Table 1.

TABLE 1.—END-USE PRODUCT REGISTRATION CANCELLATION REQUESTS

Company	Reg. No.	Product
Verdant Brands, Inc.	70-178	Dursban 1/2G Granular Insecticide
	70-180	Dursban Lawn & Ornamental Spray
	70-184	Kill-Ko Dursban 1G Granular Insecticide

In the **Federal Register** notice of November 17, 2000, EPA requested public comment on the voluntary cancellation and use deletion requests, and provided a 30-day comment period. The registrants requested that the Administrator waive the 180-day comment period provided under FIFRA section 6(f)(1)(C).

No public comments were submitted to the docket in response to EPA's request for comments.

C. Requests for Voluntary Amendments to Delete Uses from the Registrations of End-Use Products

Pursuant to section 6(f)(1)(A) of FIFRA, several registrants have also

submitted requests to amend their end-use registrations of pesticide products containing chlorpyrifos to delete the aforementioned uses. The registrations for which amendments to delete uses were requested are identified in the following Table 2.

In the **Federal Register** notice of November 17, 2000, EPA requested public comment on the voluntary cancellation and use deletion requests, and provided a 30-day comment period. The registrants requested that the Administrator waive the 180-day comment period provided under FIFRA section 6(f)(1)(C).

III. Cancellation Order

Pursuant to section 6(f) of FIFRA, EPA is approving the requested use deletions and the requested registration cancellations. Accordingly, the Agency orders that the registrations identified in Table 2 are hereby amended to delete the following uses: All post-construction termite control uses, except spot and local treatment (use of such products for spot and local treatment will be prohibited after December 31, 2002 by product labeling); all other termite control uses, effective December 31, 2004 (unless EPA has made a decision prior to that date that preconstruction use may continue); all residential uses (except for ant and roach baits in child resistant packaging (CRP) and fire ant mound drenches for public health purposes by licensed applicators and mosquito control for public health purposes by public health agencies); all indoor non-residential, non-agricultural uses (except ship holds, industrial plants, manufacturing plants, food processing plants, containerized baits in CRP, and processed wood products treated during the manufacturing process at the manufacturing site or at the mill); all outdoor non-residential, non-agricultural sites (except golf courses, road medians, industrial plant sites,

fence posts, utility poles, railroad ties, landscape timbers, logs, pallets, wooden containers, poles, posts, processed wood products, manhole covers, and underground utility cable and conduits; and fire ant mound drenches for public health purposes by licensed applicators and mosquito control for public health purposes by public health agencies); and use on post-bloom apple trees (except for tree trunk use). The Agency also orders that the registrations identified in Table 1 are hereby canceled. Any distribution, sale, or use of existing stocks of the products identified in Tables 1-2 in a manner inconsistent with the terms of this Order or the Existing Stock Provisions in Unit IV. of this notice will be considered a violation of section 12(a)(2)(K) of FIFRA and/or section 12(a)(1)(A) of FIFRA.

IV. Existing Stocks Provisions

For purposes of this Order, the term existing stocks is defined, pursuant to EPA's existing stocks policy (56 FR 29362, June 26, 1991), as those stocks of a registered pesticide product which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the amendment or cancellation.

1. *Distribution, sale and use of products bearing instructions for use on apples trees post-bloom.* The distribution or sale of existing stocks by any person of any product listed in Table 1 or 2 that bears instructions for post-bloom application to apple trees (other than tree trunk use) will not be lawful under FIFRA after [insert date of publication in the **Federal Register**], except for the purposes of returns for

relabeling consistent with the June 7, 2000 Memorandum of Agreement, shipping such stocks for export consistent with the requirements of section 17 of FIFRA, or proper disposal. Any use of such products for post-bloom application to apple trees (other than tree trunk use) will not be lawful after [insert date of publication in the **Federal Register**]. All other use of such products may continue until stocks are exhausted, provided such use is in accordance with the existing labeling of that product.

2. *Distribution or sale by registrants of products bearing other uses—(i) Restricted use and package size limitations.* Except for the purposes of returns for relabeling consistent with the June 7, 2000 Memorandum of Agreement, shipping for export consistent with the requirements of section 17 of FIFRA, or proper disposal:

(a) The distribution or sale by registrants of existing stocks of any EC formulation product listed in Table 1 or 2 will not be lawful under FIFRA after February 1, 2001 unless the product is labeled as restricted use;

(b) The distribution or sale by registrants of existing stocks of any product listed in Table 1 or 2 labeled for any agricultural use and that is not an EC, will not be lawful under FIFRA after February 1, 2001, unless the product is either labeled for restricted use or packaged in containers no smaller than 15 gallons of a liquid formulation, 50 pounds of a granular formulation, or 25 pounds of any other dry formulation;

(c) The distribution or sale by registrants of existing stocks of any product listed in Table 1 or 2 labeled solely for non-agricultural uses (other

than containerized baits in CRP) and that is not an EC, will not be lawful under FIFRA after February 1, 2001, unless the product is either labeled for restricted use or packaged in containers no smaller than 15 gallons of a liquid formulation or 25 pounds of a dry formulation.

(ii) *Prohibited uses.* Except for the purposes of returns for relabeling consistent with the June 7, 2000 Memorandum of Agreement, shipping for export consistent with the requirements of section 17 of FIFRA, or proper disposal, the distribution or sale of existing stocks by registrants of any product identified in Table 1 or 2 that bears instructions for any of the following uses will not be lawful under FIFRA after February 1, 2001:

(a) Termite control, unless the product bears directions for use of a maximum 0.5% active ingredient chlorpyrifos end-use dilution;

(b) Post-construction termite control, except for spot and local termite treatment, provided the label of the product states that the product may not be used for spot and local treatment after December 31, 2002;

(c) Indoor residential except for containerized baits in CRP;

(d) Indoor non-residential except for containerized baits in CRP and products with formulations other than EC that bear labeling solely for one or more of the following uses: Warehouses, ship holds, railroad boxcars, industrial plants, manufacturing plants, food processing plants, or processed wood products treated during the manufacturing process at the manufacturing site or at the mill;

(e) Outdoor residential except for products bearing labeling solely for one or more of the following public health uses: individual fire ant mound treatment by licensed applicators or mosquito control by public health agencies;

(f) Outdoor non-residential, non-agricultural except for products that bear labeling solely for one or more of the following uses: Golf courses, road medians, and industrial plant sites, provided the maximum label application rate does not exceed 1lb./ai per acre; mosquito control for public health purposes by public health agencies; individual fire ant mound treatment for public health purposes by licensed applicators; and fence posts, utility poles, railroad ties, landscape timbers, logs, pallets, wooden containers, poles, posts, processed wood products, manhole covers, and underground utility cable and conduits.

3. *Retail and other distribution or sale.* The retail sale of existing stocks of

products listed in Table 1 or 2 bearing instructions for the prohibited uses set forth in Unit IV.2.(ii)(a)-(f) of this notice will not be lawful under FIFRA after December 31, 2001. Except as otherwise provided in this order, any other distribution or sale (for example, return to the manufacturer for relabeling) is permitted until stocks are exhausted.

4. *Final distribution, sale and use date for preconstruction termite control.* The distribution, sale or use of any product listed in Table 1 or 2 bearing instructions for pre-construction termite use will not be lawful under FIFRA after December 31, 2005, unless, prior to that date, EPA has issued a written determination that such use may continue consistent with the requirements of FIFRA.

5. *Use of existing stocks.* Except for products bearing those uses identified in Units IV.1. and IV.4. of this notice, EPA intends to permit the use of existing stocks of products listed in Table 1 or 2 until such stocks are exhausted, provided such use is in accordance with the existing labeling of that product.

Preliminary Administrative Determination Document on the Question of Whether Ferric Ferrocyanide Is One of the "Cyanides" Within the Meaning of the List of Toxic Pollutants Under the Clean Water Act

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Notice of document availability
and public comment period.

SUMMARY: By order dated October 19, 1995, the United States District Court for the District of Massachusetts stayed the proceedings in *Commonwealth of Massachusetts v. Blackstone Valley Electric Co.* (No. 94-2286) and referred the question of whether ferric ferrocyanide qualifies as one of the "cyanides" within the meaning of the

list of toxic pollutants under the Clean Water Act (CWA) to the U.S.

Environmental Protection Agency (EPA). This District Court order followed a U.S. Court of Appeals decision in which the First Circuit determined that it was appropriate to refer this question to EPA for an "administrative determination." *Commonwealth of Massachusetts v. Blackstone Valley Electric Co.*, 67 F.3d 981 (1st Cir. 1995). Today's notice announces the availability of EPA's preliminary administrative determination for public review and comment.

DATES: Comments and relevant information on this preliminary administrative determination must be submitted to the Agency by March 12, 2001. Comments submitted should be adequately documented.

ADDRESSES: Mail written comments to: FFC Administrative Determination, USEPA, Engineering and Analysis Division (4303), Office of Science and Technology, 1200 Pennsylvania Avenue, Ariel Rios Building, NW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: For further information and to request a copy of the administrative determination contact Dr. Maria Gomez-Taylor, USEPA, Engineering and Analysis Division (4303), Office of Science and Technology, Ariel Rios Building, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; or call (202) 260-1639; or fax (202) 260-7185; or e-mail gomez-taylor.maria@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has prepared a preliminary administrative determination describing EPA's opinion on how to interpret the term "cyanides" (40 CFR 401.15, 40 CFR 302.4, and Table 302.4) as it applies to ferric ferrocyanide. (40 CFR 401.15 contains the list of toxic pollutants, 40 CFR 302.4 provides the designation of hazardous substances, and Table 302.4 at 40 CFR 302.4 contains the list of hazardous substances and reportable quantities.) This preliminary administrative determination document has been prepared in order to respond to a referral from the United States District Court for the District of Massachusetts. By order dated October 19, 1995, the United States District Court for the District of Massachusetts stayed the proceedings in *Commonwealth of Massachusetts v. Blackstone Valley Electric Co.* (No. 94-2286) and referred the question of whether ferric ferrocyanide qualifies as one of the "cyanides" within the meaning of 40 CFR 401.15, 40 CFR 302.4, and Table 302.4 to the U.S. Environmental
