Approval and Promulgation of Air Quality Implementation Plans; Illinois; Ford Motor Company Adjusted Standard

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve a January 4, 2006, request from Illinois for a site specific revision to the State Implementation Plan (SIP) for the Ford Motor Company (Ford). The revision will allow Ford to discontinue use of its Stage II vapor recovery system (Stage II) at its Chicago Assembly Plant. In place of Stage II, Ford will comply with the standards of the Federal onboard refueling vapor recovery (ORVR) regulations, as well as meet other minor conditions. The exclusive use of ORVR will provide at least an equivalent amount of gasoline vapor capture as Stage II.

[Docket No. PHMSA-2003-15864; Notice 3]

RIN 2137-AD98

Pipeline Safety: Protecting Unusually Sensitive Areas From Rural Onshore Hazardous Liquid Gathering Lines and Low-Stress Lines

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), U.S. Department of Transportation (DOT).

ACTION: Notice of proposed rulemaking.

SUMMARY: We are proposing to extend pipeline safety regulations to rural onshore hazardous liquid gathering lines and low-stress lines within a defined buffer of previously defined "unusually sensitive areas." These are non-populated areas requiring extra protection because of the presence of sole source drinking water resources, endangered species, or other ecological resources.

This proposal will define "regulated rural onshore gathering lines" and "regulated rural onshore low-stress lines" and require operators of the lines to comply with certain safety requirements. These proposed safety requirements will address the most common threats to the integrity of these rural lines: corrosion and third-party damage. This proposal is intended to provide additional integrity protection for unusually sensitive areas that could be affected by these lines and improve public confidence in the safety of hazardous liquid rural onshore gathering and low-stress lines.

DATES: Persons interested in submitting written comments on the rules proposed in this document must do so by November 6, 2006. PHMSA will consider late filed comments so far as practicable.
