

February 5, 2014 with the NIOSH Docket Office. Individuals wishing to speak during the meeting may sign up when registering with the NIOSH Docket Office no later than February 5, 2014, at 513/533-8611 or by email at nioshdocket@cdc.gov. Those who have not signed up to present in advance may be allowed to present at the meeting if time allows.

Persons wanting to provide oral comments will be permitted up to 20 minutes. If additional time becomes available, presenters will be notified. Oral comments given at the meeting must also be submitted to the docket in writing in order to be considered by the Agency.

Priority for attendance will be given to those providing oral comments. Other requests to attend the meeting will then be accommodated on a first-come basis. Unreserved walk-in attendees will not be admitted due to security clearance requirements.

Purpose of the Meeting: To discuss and obtain comments on the draft document, "Criteria for a Recommended Standard: Occupational Exposure to Heat and Hot Environments". Special emphasis will be placed on discussion of the following:

Overall Questions

- (1) Is worker acclimatization clearly explained and presented?
- (2) Are there any additional recommendations that should be made?
- (3) Is there any additional information on hydration that should be considered?
- (4) Are there any additional risk factors for heat-related illnesses that should be discussed?
- (5) Are there any additional examples of auxiliary body cooling and protective clothing that should be included?
- (6) Are there any additional research needs that should be mentioned?
- (7) Are there any additional references that should be included?

Written comments will be accepted at the meeting. Written comments may also be submitted by any of the following methods:

- **Federal eRulemaking Portal:** <http://www.regulations.gov>. Follow the instructions for submitting comments.
- **Mail:** NIOSH Docket Office, Robert A. Taft Laboratories, 4676 Columbia Parkway, MS C-34, Cincinnati, Ohio 45226.

All material submitted to the Agency should reference the agency name and docket number (CDC-2013-0025; NIOSH-266). All electronic comments should be formatted as Microsoft Word. Please make reference to CDC-2013-0025 and Docket Number NIOSH-266.

All information received in response to this notice will be available for public

examination and copying at the NIOSH Docket Office, Room 109, 4676 Columbia Parkway, Cincinnati, Ohio, 45226.

Background: Workers who are exposed to extreme heat or work in hot environments may be at risk of heat stress. Exposure to extreme heat can result in occupational illnesses and injuries. Heat stress can result in heat-related illnesses such as heat stroke, heat exhaustion, heat cramps, or heat rashes. Heat can also increase the risk of injuries in workers as it may result in sweaty palms, fogged-up safety glasses, and dizziness. Burns may also occur as a result of accidental contact with hot surfaces or steam. Workers at risk of heat stress include outdoor workers and workers in hot environments such as firefighters, bakery workers, farmers, construction workers, miners, boiler room workers, factory workers, and others.

In 1986, NIOSH published a Criteria Document on hot environments [DHHS (NIOSH) Publication No. 86-113] <http://www.cdc.gov/niosh/docs/86-113/86-113.pdf> which identified many of the effects of heat, provided information on appropriate measuring techniques, and made recommendations for occupational standards, prevention and control. In recent years, including during the oil spill response of 2010, questions were raised regarding whether this document needed to be updated with additional research and findings. Recent literature was reviewed to determine areas that needed updating and revision.
