

of the Tariff Act of 1930, as amended (the Act): (1) For subject merchandise produced and exported by Kangfa, the cash deposit rate will be zero; (2) for subject merchandise exported by Kangfa, but not manufactured by Kangfa, the cash deposit rate will continue to be the PRC-wide rate (*i.e.*, 198.63 percent); and (3) for subject merchandise manufactured by Kangfa, but exported by any party other than Kangfa, the cash deposit rate will be the rate applicable to the exporter. These cash deposit requirements will remain in effect until further notice.

Reimbursement of Duties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective orders (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

This new shipper review and notice are in accordance with sections 751(a)(2)(B) and 777(i)(1) of the Act and 19 CFR 351.214(h).

Dated: December 4, 2009.

Ball Bearings and Parts Thereof From France: Final Results of Changed-Circumstances Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) has determined, pursuant to section 751(b) of the Tariff Act of 1930, as amended (the Act), that SKF Aeroengine France S.A.S.U. (SKF Aeroengine) is the successor-in-interest to SNFA S.A.S.U. and, as a result, should be accorded the same treatment as SNFA S.A.S.U.

DATES: *Effective Date:* December 10, 2009.

FOR FURTHER INFORMATION CONTACT: Kristin Case or Richard Rimlinger, AD/CVD Operations, Office 5, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; (202) 482-3174 or (202) 482-4477, respectively.

SUPPLEMENTARY INFORMATION:

Background

The Department of Commerce (the Department) published an antidumping duty order on ball bearings and parts thereof from France on May 15, 1989. See *Antidumping Duty Orders: Ball Bearings, Cylindrical Roller Bearings, Spherical Plain Bearings, and Parts Thereof From France*, 54 FR 20902 (May 15, 1989). On August 11, 2000, the Department revoked the order, effective May 1, 1999, with respect to sales of ball bearings by SNFA S.A. (subsequently SNFA S.A.S.U.) (SNFA France). See *Antifriction Bearings (Other Than Tapered Roller Bearings) and Parts Thereof From France, Germany, Italy, Japan, Romania, Singapore, Sweden, and the United Kingdom; Final Results of Antidumping Duty Administrative Reviews and Revocation of Orders in Part*, 65 FR 49219, 49221 (August 11, 2000).

On March 2, 2007, pursuant to a request from SNFA France, SKF France S.A., and SKF Aerospace France S.A.S., we initiated a changed-circumstances review in order to determine whether SNFA France was a successor-in-interest to SKF France S.A. following SNFA France's acquisition by that company or, alternatively, that post-acquisition SNFA France was the successor-in-interest to the pre-

acquisition SNFA France. See *Ball Bearings and Parts Thereof from France: Initiation of an Antidumping Duty Changed-Circumstances Review*, 72 FR 9513 (March 2, 2007). During the course of the changed-circumstances review, the companies informed the Department that SNFA France would be changing its name to SKF Aeroengine.

On June 29, 2007, we initiated an administrative review of the antidumping duty order on ball bearings and parts thereof from France for the period May 1, 2006, through April 30, 2007, with respect to SKF France S.A. and SKF Aerospace France S.A.S. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews, Request for Revocation in Part and Deferral of Administrative Review*, 72 FR 35690 (June 29, 2007). On October 26, 2007, we rescinded the changed-circumstances review initiated on March 2, 2007, and explained that, because we had initiated an administrative review with respect to SKF France S.A. and SKF Aerospace France S.A.S., we would address any issues that had arisen during the course of the changed-circumstances review in the context of the administrative review. See *Ball Bearings and Parts Thereof from France and Italy: Rescission of Antidumping Duty Changed-Circumstances Reviews*, 72 FR 60798, 60799 (October 26, 2007). In the final results of the 2006/07 administrative review, we determined that post-acquisition SNFA France was the successor-in-interest to pre-acquisition SNFA France and that SNFA France had not changed its name to SKF Aeroengine until after the period of review. See *Ball Bearings and Parts Thereof From France, Germany, Italy, Japan, and the United Kingdom: Final Results of Antidumping Duty Administrative Reviews and Rescission of Reviews in Part*, 73 FR 52823 (September 11, 2008), and accompanying Issues and Decision Memorandum at Comment 12 (*AFBs Final Results*).

On February 6, 2009, SKF Aeroengine requested that, because the Department appeared to have left open the effect of the name change from SNFA France to SKF Aeroengine on its determination in *AFBs Final Results*, the Department either confirm that its determination encompassed the name change or, in the alternative, the Department initiate a changed-circumstances review to determine whether SKF Aeroengine is the successor-in-interest to SNFA France. On March 30, 2009, we initiated a changed-circumstances review. See *Ball Bearings and Parts Thereof from France: Initiation of Antidumping Duty*

Changed-Circumstances Review, 74 FR 14107 (March 30, 2009). On June 9, 2009, we preliminarily found that SKF Aeroengine is the successor in interest to SNFA France. See *Ball Bearings and Parts Thereof from France: Preliminary Results of Changed-Circumstances Review*, 74 FR 27280 (June 9, 2009). We received a case brief from The Timken Company and a rebuttal brief from SKF Aeroengine, SKF France S.A., and SKF Aerospace France S.A.S. We did not hold a hearing as none was requested.

Analysis of Comment Received

The issues raised in the case briefs by parties in this review are addressed in the Issues and Decision Memorandum from John M. Andersen, Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to

Ronald K. Lorentzen, Deputy Assistant Secretary for Import Administration, dated concurrently with this notice (Decision Memo), which is hereby adopted by this notice. A list of the issues which parties have raised and to which we have responded is in the Decision Memo and attached to this notice as an Appendix. The Decision Memo, which is a public document, is on file in the Central Records Unit, main Department of Commerce building, Room 1117, and is accessible on the Web at <http://ia.ita.doc.gov/frn>. Final Results of Changed-Circumstances Review

For the reasons stated in the preliminary results, we continue to find that SKF Aeroengine is the successor-in-interest to SNFA France and, as a result, should be accorded the same treatment as SNFA France. We will instruct U.S. Customs and Border Protection to liquidate, without regard to antidumping duties, all unliquidated entries produced and exported by SKF Aeroengine which were entered, or withdrawn from warehouse, for consumption on or after September 3, 2007, the date of SNFA France's name change to SKF Aeroengine. Fisheries of the South Atlantic and Gulf of Mexico; Southeastern Data, Assessment, and Review (SEDAR)

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR Methods and Procedures Workshop 4: Evaluating Assessment Uncertainty.

SUMMARY: SEDAR procedural workshops provide an opportunity for focused discussion and deliberation on topics that arise in multiple assessments and are structured to develop best practices for addressing common issues across assessments. The SEDAR Steering Committee agreed that the three completed procedural workshops were effective and that similar workshops should be held to address other issues that affect multiple assessments. Continuing to address such global issues is recognized as an important to continuing improvements in efficiency and quality.

The 4th procedural workshop will consider methods of addressing uncertainty in SEDAR assessments, including topics such as developing appropriate confidence intervals in both parameter estimates and projection outputs, methods of characterizing and expressing assessment uncertainty beyond that reflected in confidence intervals, use of sensitivity analyses and recommendations on standard sensitivities, and relating uncertainty to overall risk evaluation and especially the risk of overfishing occurring. Participants will prepare a SEDAR procedures document addressing their recommendations that will be used to guide future SEDAR assessments. See **SUPPLEMENTARY INFORMATION.**
