BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Notice of Final Federal Agency Actions on a Proposed Highway Project in California

AGENCY: Federal Highway Administration (FHWA), U.S. DOT.

ACTION: Notice of Limitation on Claims for Judicial Review of Actions by FHWA and other Federal agencies.

SUMMARY: This notice announces actions taken by the FHWA and other Federal agencies that are final within the meaning of 23 U.S.C. 139(1)(1). These actions relate to a proposed Highway project on State Route 50 between Post Mile L0.9 to 12.8 in Sacramento County, State of California. These actions grant approvals for the project.

DATES: By this notice, the FHWA is advising the public of final agency actions subject to 23 U.S.C. 139(1)(1). A claim seeking judicial review of the Federal agency actions on the highway project will be barred unless the claim is filed on or before January 2, 2008. If the Federal law that authorizes judicial review of a claim provides a time period of less than 180 days for filing such claim, then that shorter time period still applies.

FOR FURTHER INFORMATION CONTACT: Cesar Perez, Senior Project Development Engineer, Federal Highway Administration, 650 Capitol Mall, #4-100, Sacramento, CA 95814, weekdays between 7 a.m. and 4 p.m., telephone 916-498-5065, cesar.perez@fhwa.dot.gov, or John Webb, Supervisory Environmental Planner, California Department of Transportation, 2389 Gateway Oaks Dr., Sacramento, CA 95833, weekdays between 8 a.m. and 4:30 p.m., (916) 274-0588, John_Webb@dot.ca.gov.

SUPPLEMENTARY INFORMATION: Notice is hereby given that the FHWA and other Federal agencies have taken final agency actions by issuing approvals for the following highway project in the State of California. This project would improve safety and provide congestion relief on State Route 50, between post mile 0.9 to 12.8, in Sacramento County, California. This would be accomplished by adding bus/carpool lanes in the existing median of U.S. 50 between the above post miles. The purpose of the project is to increase mobility, provide an option for reliable peak period travel time, improve traffic operations, use the highway facilities as efficiently as possible, and provide incentives for commuters.
