Estimated Total Annual Cost Burden (Non-Hourly): \$493.70. There are no capital startup, maintenance, or operating fees associated with this collection, nor are there filing or processing fees. There is, however, a non-hourly cost burden associated with this collection in the form of postage costs.

For this collection, it is estimated that 30 complaints will be received by mail. The USPTO estimates that the first-class postage cost for a mailed complaint will be \$0.49. Promotion firms may choose to send responses to complaints using overnight mail service at an estimated cost of \$23.95 per response. The USPTO estimates that it will receive 20 responses to complaints. Therefore, the total postage cost associated with this collection will be approximately \$493.70. As there are no other annual (non-hourly) costs associated with this collection, the USPTO therefore estimates that the total annual (non-hourly) cost burden for this collection, in the form of postage costs, is \$493.70 per year.

Form Number(s):

- PTO/PFH/001
- PTO/PFH/002
- PTO/SB/431

Type of Request: Regular.

Number of Respondents: 110 responses per year.

Needs and Uses

The Patents for Humanity Program is designed to incentivize the distribution of patented technologies or products to address humanitarian needs, and is open to any patent owners or patent licensees, including inventors who have not assigned their ownership rights to others, assignees, and exclusive or non-exclusive licensees. Applications are considered in five categories: Medicine, Nutrition, Sanitation, Household Energy, and Living Standards.

The USPTO has developed two application forms that applicants can use to apply for participation in the Patents for Humanity Program—one application covers the humanitarian uses of technologies or products and the other application covers humanitarian research. Applicants may optionally provide contact information for the public to reach them with any inquiries. Additionally, applicants may provide non-public contact information by email to the USPTO in order to be notified about their award status. Applications must be submitted electronically as described at <http://www.uspto.gov/patentsforhumanity>. Complete submitted applications will be available on the public Web site after being screened for inappropriate material.

The applications are reviewed by external judges working independently. A selection committee composed of representatives from other federal agencies and laboratories will make recommendations for the awards based on the judges' reviews. Those applicants who are selected for an award will receive a certificate redeemable to accelerate select matters before the USPTO and public recognition of their efforts, including an awards ceremony at the USPTO. The certificates can be redeemed to accelerate one of the following matters: an *ex parte* reexamination proceeding, including one appeal to the Patent Trial and Appeal Board (PTAB) from that proceeding; a patent application, including one appeal to the PTAB from that application; or an appeal to the PTAB of a claim twice rejected in a patent application or reissue application or finally rejected in an *ex parte* reexamination, without accelerating the underlying matter which generated the appeal. The certificates cannot be transferred to other parties.

Affected Public: Individuals or households, businesses or other for-profits; not-for-profit institutions.

Respondent's Obligation: Required to obtain or retain benefits.
