SUPPLEMENTARY INFORMATION:

I. Abstract

EDA provides a broad range of economic development assistance to help distressed communities design and implement effective economic development strategies. Part of this assistance includes disseminating information about best practices and encouraging collegial learning among economic development practitioners. EDA has created the Award for Excellence in Economic Development to recognize outstanding economic development activities of national importance. In order to make Awards for Excellence in Economic Development, EDA must collect two kinds of information: (a) information identifying the nominee and contacts within the organization being nominated and (b) information explaining why the nominee should be given the award. The information will be used to determine those applicants best meeting the preannounced selection criteria. Use of a nomination form standardizes and limits the information collected as part of the nomination process. This makes the competition fair and eases any burden on applicants and reviewers alike. Participation in the competition is voluntary. The award is strictly honorary.

II. Method of Collection

As part of the development of the Award for Excellence in Economic Development, EDA has designed a short nomination form. Nominees will submit the form to EDA, where they will be screened for completeness and forwarded to the Selection Panel for review. The information will be used by the Selection Panel to determine those applicants best meeting the reannounced selection criteria. The Selection Panel will include: three representatives of the economic development practitioner community; one member from academe; three representatives of the Economic Development Administration; and up to two at large members.
