

initial fixed cost for Members. The Exchange now believes that it is appropriate to remove these credits in light of the current operating conditions, including the Exchange's overall membership and the current type and amount of volume executed on the Exchange. The Exchange believes that the Exchange's current rebates and fees will still allow the Exchange to remain highly competitive such that the Exchange should continue to attract order flow and maintain market share.

Inter-Market Competition

The Exchange operates in a highly competitive market in which market participants can readily favor one of the 15 competing options venues if they deem fee levels at a particular venue to be excessive. Based on publicly-available information, and excluding index-based options, no single exchange has more than approximately 16% market share. Therefore, no exchange possesses significant pricing power regarding memberships or in the execution of multiply-listed equity and exchange-traded fund ("ETF") options order flow. Over the course of 2021 and 2022, the Exchange's market share has fluctuated between approximately 3–6% of the U.S. equity options industry.²⁷ The Exchange is not aware of any evidence that a market share of approximately 3–6% provides the Exchange with anti-competitive pricing power when it comes to competition for memberships. The Exchange believes that the ever-shifting market share among exchanges from month to month demonstrates that market participants can discontinue memberships in response to fee changes. In such an environment, the Exchange must continually adjust its fees to remain competitive with other exchanges and to attract and retain memberships on the Exchange. Lastly, the proposed fee change will not impact intermarket competition because it will apply to all Members equally.

[SEC File No. 270–780, OMB Control No. 3235–0733]

Submission for OMB Review; Comment Request; Extension: Rule 194

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE, Washington, DC 20549–2736

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 ("PRA") (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget ("OMB") a request for approval of extension of the previously approved collection of information provided for in Commission Rule of Practice 194, (17 CFR 240.194), under the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*).

Rule of Practice 194 provides a process for security-based swap dealers and major security-based swap participants (collectively, "SBS Entity") to make an application to the Commission for an order permitting an associated person who is subject to a statutory disqualification to effect or be involved in effecting security-based swaps on behalf of the SBS Entity. Rule of Practice 194 specifies the process for obtaining relief from the statutory prohibition in Exchange Act Section 15F(b)(6), including by setting forth the required showing, the form of application and the items to be addressed with respect to associated persons that are natural persons. An SBS Entity is not required to file an

application under Rule of Practice 194 with respect to certain associated persons that are subject to a statutory disqualification, as provided for in paragraph (h) of Rule of Practice 194. To meet those requirements, however, the SBS Entity is required to file a notice with the Commission.

It is estimated that approximately 50 entities may fit within the definition of security-based swap dealer and up to five entities may fit within the definition of major security-based swap participant—55 SBS Entities in total. The Commission anticipates that, on an average annual basis, only a small fraction of the natural persons at an SBS Entity would be subject to a statutory disqualification. Accordingly, based on available data, the Commission estimates that, on an average annual basis, the Commission would receive up to five applications in accordance with Rule of Practice 194 with respect to associated persons that are natural persons, and five notices pursuant to proposed Rule of Practice 194(h) with respect to associated persons that are natural persons. The Commission estimates that the average time necessary for an SBS Entity to research the questions, and complete and file an application under Rule of Practice 194 with respect to associated persons that are natural persons is approximately 30 hours, for a total of approximately 150 burden hours per year for all SBS Entities. The Commission estimates that approximately five SBS Entities will provide notices pursuant to Rule of Practice 194(h) for one natural person each on an average annual basis taking approximately 6 hours per notice, for a total of approximately 30 burden hours per year for all SBS Entities providing the notices for an estimated five natural persons. As such, the combined estimated annual hour burden for all SBS Entities to complete applications and notices pursuant to Rule of Practice 194 is approximately 180 hours per year (150 + 30).
