Regulated Area means an area where special local regulations apply to a specific described waterway to include creeks, sounds, bays, rivers, and oceans. Regulated areas include all navigable waters of a specific body of water described with intent to define boundaries where the Coast Guard enforces special local regulations. Boundaries may be described from shoreline to shoreline, reference bridges or other fixed structures, by points and lines defined by latitude and longitude. All coordinates provided reference Datum: WGS 1984.

Significant New Use Rules on Certain Chemical Substances (23–3.5e); Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; correction.

SUMMARY: EPA is making corrections to a final rule that appeared in the **Federal Register** of June 13, 2025 (FR Doc. 2025–10812). The final rule established significant new use rules (SNURs) under the Toxic Substances Control Act (TSCA) for chemical substances that were the subject of premanufacture notices (PMNs) and Orders issued by EPA pursuant to TSCA.

DATES: The final rule corrections are effective on August 12, 2025.

ADDRESSES: The docket for this action, identified under docket identification (ID) number EPA–HQ–OPPT–2023–0328, is available online at <https://www.regulations.gov> or in person at the Office of Pollution Prevention and Toxics Docket (OPPT Docket) in the Environmental Protection Agency Docket Center (EPA/DC). Please review the visitor instructions and additional information about the docket available at <https://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT:

William Wysong, New Chemicals Division (7405M), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001; telephone number: (202) 564–4163; email address: wysong.william@epa.gov.

SUPPLEMENTARY INFORMATION: This action corrects certain regulatory amendments established in the final rule that appears in the **Federal Register** of June 13, 2025 (90 FR 24977 (FRL–11825–02–OCSPP)) as listed here:

1. The amendment to the table in 40 CFR part 9 is removed because EPA subsequently issued a separate amendment to 40 CFR part 9 that makes this change obsolete and unnecessary. See FR Doc. 2025–11573 (90 FR 27785, June 30, 2025 (FRL–12001–01–OCSPP)).

2. In the table of content, heading and regulatory provision for 40 CFR 721.11839 and 721.11840, the word “ethandiyl” in the name of the chemical substance was misspelled and is corrected to read “ethanediyl”.

3. In the regulatory provision for 40 CFR 721.11839 and 721.11840, the word “floatation” was misspelled and is corrected to read “flotation”.

4. In the regulatory provision for 40 CFR 721.11858, the phrase “and regulated blendstocks (40 CFR part 1090)” is repeated in the second sentence and is being removed to eliminate the redundancy.

5. In the table of content, heading and regulatory provision for 40 CFR 721.11861, the word “hetropolycyclic” in the name of the chemical substance was misspelled and is corrected to read “heteropolycyclic”.

The Agency is not providing a public comment opportunity prior to promulgation of these technical corrections, because such public comment is unnecessary under 5 U.S.C. 553(b)(B) of the Administrative Procedure Act (APA). The corrections established in this action are very minor and non-substantive technical corrections to regulations; thus, the corrections would not substantively alter the regulations established in the final rule in a way that would be of interest to the regulated community or the public. Therefore, pursuant to the APA section 553(b)(B), EPA finds good cause to promulgate these technical corrections without notice and comment.

Corrections

In FR Doc. 2025–10812 appearing at 90 FR 24977 in the **Federal Register** of Friday, June 13, 2025 (FRL–11825–02–OCSPP), the following corrections are made to the regulatory text:
