

approximately 46,000 square meters (500,000 square feet) of existing space. In the Bay View area, NASA proposes approximately 251,000 square meters (2.7 million square feet) of new office, research and development, laboratory, educational, and student/faculty housing development. In the Eastside/Airfield area, NASA proposes (1) The creation of approximately 62,000 square meters (670,000 square feet) of new light industrial, research and development, office and educational facility development, and (2) renovation of the historic hangars. The total build out under Alternative 4 would be approximately 940,000 square meters (10.1 million square feet).

Alternative 5: The Preferred Alternative. Under Alternative 5, NASA would allow some new construction in each of the four development areas, but would concentrate most of this construction in the NRP area. In this alternative, NASA proposes: (1) The addition of approximately 192,000 square meters (2 million square feet) of new educational, office, research and development, museum, conference center, housing and retail space in the NRP Area, (2) the demolition of approximately 52,000 square meters (560,000 square feet) of non-historic structures, and (3) the renovation of approximately 56,000 square meters (600,000 square feet) of existing space. In the Bay View area, NASA proposes the addition of approximately 93,000 square meters (1 million square feet) of new development, primarily for housing. In the Eastside/Airfield area, NASA proposes the construction of approximately 1,115 square meters (12,000 square feet) of new space in a new control tower. Finally, in the Ames Campus area, NASA proposes to demolish approximately 37,000 square meters (400,000 square feet) of existing buildings to make way for 46,000 square meters (500,000 square feet) of high density office and research and development space. Total build out under Alternative 5 would be approximately 780,000 square meters (8.4 million square feet).

NASA has selected Alternative Five as the Preferred Alternative. The Preferred Alternative has been identified as the option that best meets NASA's purpose and need.

The DEIS also includes the General Conformity Determination for Carbon Monoxide as an appendix since implementing alternatives 2 through 5 would generate more than 100 tons per year of carbon monoxide, a pollutant regulated in the San Francisco Bay Area under the California State Implementation Plan. Ozone and its

precursors (reactive organic gases and nitrogen oxides) are also regulated, but none of the alternatives would generate more than *de minimus* amounts of these pollutants. Although more than 100 tons per year of carbon monoxide would be generated by the preferred alternative, no violation of National Ambient Air Quality Standards is expected.

Pursuant to section 7 of the Endangered Species Act, NASA has initiated consultation with the United States Fish and Wildlife Service, and has prepared a Biological Assessment to describe the effects of the proposed action on the federally listed species at the site. No adverse effect is expected from implementation of any of the alternatives. The Biological Assessment is an appendix to the DEIS.

Since proposed removal of non-historic structures, construction of new buildings, and rehabilitation of historic structures in Alternatives 1 through 5 have the potential to disturb the integrity of the Shenandoah Plaza Historic District and contributing elements in the NRP if not designed carefully to ensure the compatibility of the changes with historic architecture, NASA, pursuant to the National Historic Preservation Act (NHPA), has prepared a Historic Resources Protection Plan (HRPP) for the Shenandoah Plaza Historic District. NASA has also prepared a Programmatic Agreement (PA) with the Advisory Council on Historic Preservation and the California State Historic Preservation Officer to adopt and implement the HRPP. No adverse effect is expected from implementation of Alternative 5, the preferred alternative. The HRPP and PA are an appendix of the DEIS.

Jeffrey E. Sutton,

Associate Administrator for Management Systems.

BILLING CODE 7510-01-P

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards, Subcommittee Meeting on Planning and Procedures; Notice of Meeting

The ACRS Subcommittee on Planning and Procedures will hold a meeting on December 4, 2001, Room T-2B1, 11545 Rockville Pike, Rockville, Maryland.

The entire meeting will be open to public attendance, with the exception of a portion that may be closed pursuant to 5 U.S.C. 552b(c) (2) and (6) to discuss organizational and personnel matters

that relate solely to internal personnel rules and practices of ACRS, and information the release of which would constitute a clearly unwarranted invasion of personal privacy.

The agenda for the subject meeting shall be as follows:

Tuesday, December 4, 2001—9 a.m.—12 Noon.

The Subcommittee will discuss proposed ACRS activities and related matters. The purpose of this meeting is to gather information, analyze relevant issues and facts, and formulate proposed positions and actions, as appropriate, for deliberation by the full Committee.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Electronic recordings will be permitted only during those portions of the meeting that are open to the public, and questions may be asked only by members of the Subcommittee, its consultants, and staff. Persons desiring to make oral statements should notify the cognizant ACRS staff person named below five days prior to the meeting, if possible, so that appropriate arrangements can be made.

Further information regarding topics to be discussed, the scheduling of sessions open to the public, whether the meeting has been canceled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted therefor can be obtained by contacting the cognizant ACRS staff person, Sam Duraiswamy (telephone: 301/415-7364) between 7:30 a.m. and 4:15 p.m. (EST). Persons planning to attend this meeting are urged to contact the above named individual one or two working days prior to the meeting to be advised of any changes in schedule, etc., that may have occurred.

Dated: November 14, 2001.

Sher Bahadur,

Associate Director for Technical Support, ACRS/ACNW.
