

ENVIRONMENTAL PROTECTION AGENCY**[EPA-HQ-OLEM-2018-0391, FRL-10267-01-OMS]****Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Ground-Water Monitoring Requirements (Renewal)****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Facility Ground-Water Monitoring Requirements (EPA ICR Number 0959.17, OMB Control Number 2050-0033) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through November 30, 2022. Public comments were previously requested via the **Federal Register** on March 23, 2022 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before October 31, 2022.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-OLEM-2018-0391, online using www.regulations.gov (our preferred method), or by mail to: RCRA Docket (2822T), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue NW, Washington, DC 20460. The EPA's policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public

Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Peggy Vyas, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: 202-566-0453; fax number: email address: vyas.peggy@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov. Materials can also be viewed at the Reading Room located at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Avenue NW, Washington, DC 20004. The Docket Center's hours of operations are 8:30 a.m.–4:30 p.m., Monday–Friday (except Federal Holidays). The telephone number for the Docket Center is 202-566-1744.

Abstract: Subtitle C of the Resource Conservation and Recovery Act (RCRA) creates a comprehensive program for the safe management of hazardous waste. Section 3004 of RCRA requires owners and operators of facilities that treat, store, or dispose of hazardous waste to comply with standards established by EPA that are to protect the environment. Section 3005 provides for implementation of these standards under permits issued to owners and operators by EPA or authorized States. Section 3005 also allows owners and operators of facilities in existence when the regulations came into effect to comply with applicable notice requirements to operate until a permit is issued or denied. This statutory authorization to operate prior to permit determination is commonly known as "interim status." Owners and operators of interim status facilities also must comply with standards set under Section 3004.

This ICR examines the ground-water monitoring standards for permitted and interim status facilities at 40 CFR parts 264 and 265, as specified. The ground-water monitoring requirements for regulated units follow a tiered approach whereby releases of hazardous contaminants are first detected (detection monitoring), then confirmed (compliance monitoring), and if necessary, are required to be cleaned up (corrective action). Each of these tiers requires collection and analysis of ground-water samples. Owners or operators that conduct ground-water monitoring are required to report information to the oversight agencies on releases of contaminants and to maintain records of ground-water

monitoring data at their facilities. The goal of the ground-water monitoring program is to prevent and quickly detect releases of hazardous contaminants to groundwater, and to establish a program whereby any contamination is expeditiously cleaned up as necessary to protect human health and environment.

Form Numbers: None.

Respondents/affected entities:

Business or other for-profit; and State, Local, or Tribal Governments.

Respondent's obligation to respond:

Mandatory (RCRA Sections 3004 and 3005).

Estimated number of respondents: 774.

Frequency of response: Quarterly, semi-annually, and annually.

Total estimated burden: 100,701 hours per year. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$22,470,710 (per year), which includes \$15,430,083 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease of 4,160 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to a decrease in the respondent universe.

Courtney Kerwin,

Director, Regulatory Support Division.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-10227-01-R9]

Clean Air Act Operating Permits; Arizona; Petitions To Object to Permits for the Coronado Generating Station, Desert Basin Generating Station, and Agua Fria Generating Station

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final action.

SUMMARY: The Environmental Protection Agency (EPA) Administrator signed three Orders granting in part and denying in part petitions to object to three Clean Air Act (CAA) title V operating permits issued to power plants in Arizona. The Orders relate to the operating permits for Coronado Generating Station, issued by the Arizona Department of Environmental Quality (ADEQ); Desert Basin Generating Station, issued by the Pinal County Air Quality Control District (PACQCD); and Agua Fria Generating Station issued by the Maricopa County Air Quality Department (MCAQD). The Orders respond to petitions submitted by the Sierra Club (the "Petitioner") requesting that the EPA object to the issuance of the operating permits for these facilities. The Orders constitute final action on the request that the Administrator object to the issuance of these CAA title V operating permits.

DATES: Pursuant to section 307(b)(1) of the Clean Air Act, 42 U.S.C. 7607(b)(1), judicial review of this final agency action, to the extent it is available, may be sought by filing a petition for review in the United States Court of Appeals for the Ninth Circuit within 60 days of September 30, 2022.

ADDRESSES: Copies of the petitions and Orders are available at <https://www.epa.gov/title-v-operating-permits/title-v-petition-database>. For additional information, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section.

FOR FURTHER INFORMATION CONTACT: Lisa Beckham, EPA Region 9, 75 Hawthorne Street (AIR-3-1), San Francisco, California 94105. By phone at (415) 972-3811, or by email at beckham.lisa@epa.gov.

SUPPLEMENTARY INFORMATION: The CAA affords the EPA a 45-day period to review and, as appropriate, the authority to object to operating permits proposed by state and local permitting authorities under title V of the CAA, 42 U.S.C. 7661-7661f. Section 505(b)(2) of the CAA and 40 CFR 70.8(d) authorize any person to petition the EPA Administrator to object to a title V operating permit within 60 days after the expiration of the EPA's 45-day review period if the EPA has not objected on its own initiative. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the permitting authority, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or the grounds for the issues arose after the comment period closed.

As listed below, the EPA received and responded to three petitions from the Petitioner that were submitted pursuant to section 505(b)(2) of the CAA and 40 CFR 70.8(d) for title V operating permits issued to three electric power generating facilities in Arizona.

Coronado Generating Station. On January 10, 2022, the EPA received a petition requesting that the EPA object to the CAA title V operating permit issued by the ADEQ for the Salt River Project's Coronado Generating Station (Permit No. 89460) in Apache County, Arizona. On June 14, 2022, the EPA issued an Order responding to the petition by granting the petition in part and denying the petition in part.

Desert Basin Generating Station. On February 8, 2022, the EPA received a petition requesting that the EPA object to the CAA title V operating permit issued by the PACQCD for the Salt River Project's Desert Basin Generating

Station (Permit No. V20678.R02) in Pinal County, Arizona. On July 28, 2022, the EPA issued an Order responding to the petition by granting the petition in part and denying the petition in part.

Agua Fria Generating Station. On February 28, 2022, the EPA received a petition requesting that the EPA object to the CAA title V operating permit issued by the MCAQD for the Salt River Project's Agua Fria Generating Station (Permit No. P0007595) in Maricopa County, Arizona. On July 28, 2022, the EPA issued an Order responding to the petition by granting the petition in part and denying the petition in part.

The Orders provide additional information, including a summary of the claims raised and the EPA's detailed basis for its determination to grant or deny the claims raised by the Petitioner. Please see the **ADDRESSES** section above to access copies of the Orders.

Dated: September 26, 2022.

Martha Guzman Aceves,

Regional Administrator, Region IX.
