The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Additional Information

The NRC is issuing for public comment a DG in the NRC's “Regulatory Guide” series. This series was developed to describe, and make available to the public, information regarding methods that are acceptable to the NRC staff for implementing specific parts of the NRC's regulations, techniques that the staff uses in evaluating specific issues or postulated events, and data that the staff needs in its review of applications for permits and licenses.

This proposed Revision 3 to RG 1.91, entitled “Evaluations of Explosions Postulated to Occur at Nearby Facilities and on Transportation Routes Near Nuclear Power Plants,” is temporarily identified by its task number, DG-1388 (ADAMS Accession No. ML21105A439). The staff is also issuing for public comment a draft regulatory analysis (ADAMS Accession No. ML21105A438).

The NRC published Revision 2 of RG 1.91, “Evaluations of Explosions Postulated to Occur on Transportation Routes near Nuclear Power Plants,” in April 2013 to provide licensees and applicants with agency-approved guidance regarding methods acceptable to the NRC staff for determining if the risk of damage at the site caused by an accidental explosion at a nearby facility or on a transportation route is sufficiently high to warrant a detailed

investigation to ensure safety-related systems, structures, and components are unaffected. The current version of RG 1.91 (Revision 2) does not reflect the changes and updates with respect to the following NRC report or current methodologies as appropriate.

This proposed revision (Revision 3) reflects updates with information pertinent to addressing the recommendations of the NRC report entitled, “Report of the U.S. Nuclear Regulatory Commission Expert Evaluation Team on Concerns Pertaining to Gas Transmission Lines Near the Indian Point Nuclear Power Plant.” (ADAMS Accession No. ML20100F635) issued in April 2020 and current methodologies as appropriate.

III. Backfitting, Forward Fitting, and Issue Finality

DG-1388, if finalized, would not constitute backfitting as defined in section 50.109 of title 10 of the *Code of Federal Regulations* (10 CFR), “Backfitting,” and as described in NRC Management Directive (MD) 8.4, “Management of Backfitting, Forward Fitting, Issue Finality, and Information Requests” (ADAMS Accession No. ML18093B087); would not constitute forward fitting as that term is defined and described in MD 8.4; and would not affect the issue finality of any approval issued under 10 CFR part 52, “Licenses, Certificates, and Approvals for Nuclear Power Plants.” As explained in DG-1388, applicants and licensees are not required to comply with the positions set forth in DG-1388.

Dated: July 27, 2021.

Chief, Regulatory Guidance and Programs, Management Branch, Division of Engineering, Office of Nuclear Regulatory Research.

Applicants

1. The Trust is a Massachusetts business trust and will consist of one or more series operating as a Fund. The Trust is registered as an open-end management investment company under the Act. Applicants seek relief with respect to Funds (as defined below), including the initial Fund (the “Initial Fund”). The Funds will offer exchange-traded shares utilizing active management investment strategies as contemplated by the Reference Order.²

2. The Adviser, a Minnesota limited liability company, will be the investment adviser to the Initial Fund. Subject to approval by the Trust’s board of trustees, an Adviser (as defined below) will serve as investment adviser to each Fund. The Adviser is, and any other Adviser will be, registered as an investment adviser under the Investment Advisers Act of 1940 (“Advisers Act”). An Adviser may enter into sub-advisory agreements with other investment advisers to act as sub-advisers with respect to the Funds (each a “Sub-Adviser”). Any Sub-Adviser to a Fund will be registered under the Advisers Act.

3. The Distributor is a Delaware corporation and a broker-dealer registered under the Securities

Exchange Act of 1934, as amended, and will act as the principal underwriter of Shares of the Funds. Applicants request that the requested relief apply to any distributor of Shares, whether affiliated or unaffiliated with the Adviser and/or Sub-Adviser (included in the term “Distributor”). The requested Order would permit applicants to offer Funds that operate as contemplated by the Reference Order. Because the relief requested is the same as certain of the relief granted by the Commission under the Reference Order and because the Adviser has entered into a licensing agreement with Fidelity Management & Research Company, or an affiliate thereof, in order to offer Funds that operate as contemplated by the Reference Order,³ the Order would incorporate by reference the terms and conditions of the same relief of the Reference Order.

5. class of persons, securities or transactions, from any provisions of the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.
