14 CFR Part 71

[Docket No. FAA–2024–2559; Airspace Docket No. 24–AEA–11]

RIN 2120–AA66

Amendment of Class D and Class E Airspace; Morgantown, WV: Withdrawal

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Proposed rule, withdrawal.

SUMMARY: This action withdraws the notice of proposed rulemaking (NPRM) published in the **Federal Register** on June 30, 2025, proposing to amend Class D and Class E airspace at Morgantown, WV. The FAA has determined that withdrawal of that NPRM is warranted as new airspace data have been received which significantly change the requirements for the proposed airspace. FAA expects to publish a new NPRM to amend the Class D and Class E airspace at Morgantown, WV, after assessing the new data.

DATES: The proposed rule published in the **Federal Register** on June 30, 2025 (90 FR 27826) is withdrawn as of August 20, 2025.

FOR FURTHER INFORMATION CONTACT: Rebecca Shelby, Federal Aviation Administration, Operations Support Group, Central Service Center, 10101 Hillwood Parkway, Fort Worth, TX 76177; telephone (817) 222–5857.

SUPPLEMENTARY INFORMATION:

History

An NPRM was published in the **Federal Register** on June 30, 2025 (90 FR 27826)¹ under Docket No. FAA–

2024–2559 to amend 14 CFR part 71 by modifying the Class D and Class E surface airspace, and Class E airspace extending upward from 700 feet above the surface at Morgantown Municipal Airport–Walter L. Bill Hart Field, Morgantown, WV. Subsequent to publication, new airspace data was received changing the airspace requirements. Therefore, the FAA is withdrawing the NPRM, and expects to publish a new NPRM after fully evaluating the new data to amend the Class D and Class E surface airspace, and Class E airspace extending upward from 700 feet above the surface at Morgantown Municipal Airport–Walter L. Bill Hart Field, Morgantown, WV, to support the new instrument procedures being developed.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA’s authority to issue rules regarding aviation safety is found in

¹ The FAA had published an NPRM on March 31, 2025 (90 FR 14221) under the same airspace number and FAA docket number, which was subsequently withdrawn on June 9, 2025 (90 FR 24232), prior to the June 30, 2025, publication of the second NPRM that is being withdrawn by the current action.

Title 49 of the United States Code, Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would revoke Class E airspace at the affected airport as it is no longer required.

Comments Invited

The FAA invites interested persons to participate in this rulemaking by submitting written comments, data, or views. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. The most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. To ensure the docket does not contain duplicate comments, commenters should submit only one time if comments are filed electronically, or commenters should send only one copy of written comments if comments are filed in writing.

The FAA will file in the docket all comments it receives, as well as a report summarizing each substantive public contact with FAA personnel concerning this proposed rulemaking. Before acting on this proposal, the FAA will consider all comments it received on or before the closing date for comments. The FAA will consider comments filed after the comment period has closed if it is possible to do so without incurring expense or delay. The FAA may change this proposal in light of the comments it receives.

Privacy: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov as described in the system of records notice (DOT/ALL-14FDMS), which can be reviewed at www.dot.gov/privacy.

Availability of Rulemaking Documents

An electronic copy of this document may be downloaded through the internet at www.regulations.gov. Recently published rulemaking documents can also be accessed through

the FAA's web page at www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the **ADDRESSES** section for the address, phone number, and hours of operations). An informal docket may also be examined during normal business hours at the Federal Aviation Administration, Air Traffic Organization, Central Service Center, Operations Support Group, 10101 Hillwood Parkway, Fort Worth, TX 76177.

Incorporation by Reference

Class E airspace is published in paragraph 6005 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document proposes to amend the current version of that order, FAA Order JO 7400.11J, dated July 31, 2024, and effective September 15, 2024. These updates would be published subsequently in the next update to FAA Order JO 7400.11. FAA Order JO 7400.11J, which lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points, is publicly available as listed in the **ADDRESSES** section of this document.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 that would remove the Class E airspace extending upward from 700 ft above the surface at Carter Ranch Airport, Oakwood, Texas due to the instrument procedures being cancelled and the airspace no longer being required.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities

under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1G, "FAA National Environmental Policy Act Implementing Procedures" prior to any FAA final regulatory action.

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11J, Airspace Designations and Reporting Points, dated July 31, 2024, and effective September 15, 2024, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.
