BILLING CODE 4310-05-P

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Clean Water Act

Notice is hereby given that on August 25, 2010, a proposed Consent Decree ("Consent Decree") in *United States v. City of Revere, Massachusetts*, Civil Action No. 1:10-cv-11460 was lodged with the United States District Court for the District of Massachusetts.

In a complaint, filed simultaneously with the Decree, the United States alleges that the City of Revere, Massachusetts ("City") violated Sections 301 and 308 of the Clean Water Act, 33 U.S.C. 1311 and 1318, as a result of unauthorized discharges of pollutants including raw sewage from the City's sanitary sewer system and its separate storm sewer system, as well as a failure to report sanitary sewer overflows to the United States Environmental Protection Agency. The proposed Consent Decree resolves the United States' claims for civil penalties and injunctive relief, as alleged in the complaint. Specifically, the proposed Consent Decree requires the City to implement remedial measures, including necessary upgrades to its sanitary sewer system and separate storm sewer system, over a period of approximately twelve years and at an estimated cost of approximately \$50 million. The Consent Decree also requires the City to pay a \$130,000 civil penalty.

The Department of Justice will receive, for a period of thirty (30) days from the date of this publication, comments relating to the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and either e-mailed to pubcomment-ees.enrd@usdoj.gov or mailed to P.O. Box 7611, United States Department of Justice, Washington, DC 20044-7611, and should refer to *United States v. City of Revere, Massachusetts*, D.J. Ref. 90-5-1-1-09299.

The Consent Decree may be examined at the Office of the United States Attorney, One Courthouse Way, John Joseph Moakley Courthouse, Boston, Massachusetts 02210, and at U.S. EPA Region 1, Office of Regional Counsel, 5 Post Office Square, Suite 100, Boston, Massachusetts 02109. During the public comment period, the Consent Decree

may also be examined on the following Department of Justice Web site, http://www.usdoj.gov/enrd/Consent_Decrees.html. A copy of the Consent Decree may also be obtained by mail from the Consent Decree Library, P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611 or by faxing or e-mailing a request to Tonia Fleetwood (tonia.fleetwood@usdoj.gov), fax no. (202) 514-0097, phone confirmation number (202) 514-1547. In requesting a copy from the Consent Decree Library, please enclose a check to cover the 25 cents per page reproduction costs in the amount of \$16.25 (for Decree without appendix) or \$71.75 (for Decree with appendix) payable to the U.S. Treasury or, if by e-mail or fax, forward a check in that amount to the Consent Decree Library at the stated address.

Maureen Katz,

Assistant Chief, Environmental Enforcement Section, Environment and Natural Resources Division.

BILLING CODE 4410-15-P

DEPARTMENT OF JUSTICE

[CPCLO Order No. 003-2010]

Privacy Act of 1974; System of Records

AGENCY: Federal Bureau of Investigation, Department of Justice.

ACTION: Notice of a new system of records.

SUMMARY: Pursuant to the Privacy Act of 1974 (5 U.S.C. 552a), the United States Department of Justice (Department), Federal Bureau of Investigation (FBI), proposes to establish a new system of records, the Data Integration and Visualization System, JUSTICE/FBI-021, to support and enhance data search, integration, presentation, and storage capabilities in support of the FBI's multifaceted mission.

DATES: In accordance with 5 U.S.C. 552a(e)(4) and (11), the public is given a 30-day period in which to comment. Therefore, please submit any comments by September 30, 2010.

ADDRESSES: The public, OMB, and Congress are invited to submit any comments to the Department of Justice, *Attn:* Privacy Analyst, Office of Privacy and Civil Liberties, U.S. Department of Justice, National Place Building, 1331 Pennsylvania Ave, NW., Suite 940, Washington, DC 20530-0001, or by facsimile at 202-307-0693.

FOR FURTHER INFORMATION CONTACT: Erin Page, Assistant General Counsel,

Privacy and Civil Liberties Unit, Office of the General Counsel, FBI, Washington, DC 20535-0001, telephone 202-324-3000.

SUPPLEMENTARY INFORMATION: Threats from terrorism, espionage, cyber attacks and more traditional crimes continue to jeopardize the well-being of our nation and its citizens while criminals continue to find new and inventive ways to carry out their reprehensible activities. To stay ahead of the threats the FBI continually searches for ways to more effectively understand the danger posed by those who threaten harm. The FBI has available a number of lawfully collected databases that allow it to conduct investigations and analyze intelligence for this purpose. Historically, FBI personnel searched individual databases to extract relevant information and then compared the extract to other available information in order to form a more complete and accurate threat picture. This was a time-consuming process and led to possible gaps in the collated information.

Continued threats to the national security of the United States and criminal events have strengthened the FBI's resolve to develop more efficient methods to analyze FBI data. The Data Integration and Visualization System, DIVS, will allow authorized system users to more effectively search, integrate, display, maintain, and record relevant information in support of the FBI's multifaceted mission. DIVS will provide users with the ability to simultaneously conduct searches across several databases, extract information, and present the integrated results in a format that the user may sort and display in various modes. In order to do this, DIVS will contain replications of some databases while providing the ability to perform federated queries across other databases. DIVS will allow users to save their queries as well as create a separate record of relevant identifiers and information. One of the results of DIVS will be a new set of records that offers an enhanced view of information already contained in FBI holdings.

DIVS will provide a single user interface that incorporates the rules of behavior for FBI information systems, tools to ensure access controls based on roles and data attributes, entity resolution and appropriate metadata tagging. These tools will help ensure data accuracy and reliability.

To enhance the flexibility of the system, DIVS includes a variety of routine uses that the FBI has used successfully in sharing information from its other record systems. The FBI will
