Pentachloronitrobenzene (PCNB); Cancellation Order for Amendments To Terminate Uses

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's order for amendments to terminate uses, voluntarily requested by the registrant

and accepted by the Agency, of products containing pentachloronitrobenzene (PCNB), pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). This cancellation order follows a June 6, 2014 **Federal Register** Notice of Receipt of Requests from the registrant listed in Table 2 of Unit II. to voluntarily amend to terminate certain uses of these product registrations. These are not the last products containing this pesticide registered for use in the United States. In the June 6, 2014 notice, EPA indicated that it would issue an order implementing the amendments to terminate uses, unless the Agency received substantive comments within the 30-day comment period that would merit its further review of these requests, or unless the registrant withdrew its requests. The Agency did not receive any comments on the notice. Further, the registrant did not withdraw its requests. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested amendments to terminate uses. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The amendments are effective September 24, 2014.

III. Summary of Public Comments Received and Agency Response to Comments

During the public comment period provided, EPA received no comments in response to the June 6, 2014 **Federal Register** notice announcing the Agency's receipt of the requests for voluntary amendments to terminate uses of products listed in Table 1 of Unit II.

IV. Cancellation Order

Pursuant to FIFRA section 6(f), EPA hereby approves the requested amendments to terminate uses of the PCNB registrations identified in Table 1 of Unit II. Accordingly, the Agency hereby orders that the product registrations identified in Table 1 of Unit II. are amended to terminate the affected uses. The effective date of the amendments that are the subject of this notice is September 24, 2014. Any distribution, sale, or use of existing

stocks of the products identified in Table 1 of Unit II. in a manner inconsistent with any of the provisions for disposition of existing stocks set forth in Unit VI. will be a violation of FIFRA.

V. What is the Agency's authority for taking this action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the EPA Administrator may approve such a request. The notice of receipt for this action was published for comment in the **Federal Register** of June 6, 2014 (79 FR 32730) (FRL-9911-37). The comment period closed on July 7, 2014.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the action. The existing stocks provision for the products subject to this order is as follows.

Upon publication of this order, the registrant is no longer permitted to sell or distribute the products listed in Table 1 of Unit II. of this Notice under the previously approved labeling (that is, labeling that includes the use sites for which the registrant has requested termination), except for export

consistent with FIFRA section 17 or for proper disposal. The registrant will be permitted to relabel the products listed in Table 1 of Unit II. to conform with the requested use deletions as long as the registrant has verified that the products have been formulated from Technical PCNB that complies with the certified limits as amended on November 23, 2011 and June 13, 2012, and the registrant retains records demonstrating such compliance.

Use of existing stocks of products whose labels include the deleted uses is permitted until supplies are exhausted, provided that such use is consistent with the terms of the previously approved labeling on, or that accompanied, those products.
