### **Description**

The Corporation seeks approval of three survey forms for the evaluation of the community impacts of the Corporation's AmeriCorps\*NCCC program. It will allow for the assessment of the impact of the AmeriCorps\*NCCC projects on direct beneficiaries, agency and organizational sponsors, and the larger communities they serve. It will also help the Corporation to determine effective planning, initiation, and implementation practices for enhancing AmeriCorps\*NCCC projects' impacts on communities.

Data obtained from the surveys, in combination with documentation available from AmeriCorps\*NCCC program managers, will provide three complementary options for estimating impacts. These include (1) describing impacts on a program-by-program basis in the terms and measures used by sponsors in relation to the "no-treatment" expectation, (2) examining reported actual impacts in relation to

predicted ones, and (3) calculating the monetary benefit of some programs' impacts. These impacts can be related to the structural and implementation characteristics of the projects.

There has been one change since the publication of the 60 day notice (**Federal Register**: October 15, 1999 (Volume 64, Number 199), Pages 55905-55907). An intensive interview protocol for use in assessing implementation at a small number of project sites has been eliminated.

Dated: February 10, 2000.
