

sums the costs of its electric regulatory program and subtracts all electric regulatory program filing fee collections to determine the total collectible electric regulatory program costs. Then, the Commission uses the data submitted under FERC-582 to determine the total megawatt-hours of transmission of electric energy in interstate commerce. Respondents (public utilities and power

marketers) subject to these annual charges must submit FERC-582 data to the Commission by April 30 of each year.⁴ The Commission issues bills for annual charges to respondents. Then, respondents must pay the charges within 45 days of the Commission's issuance of the bill.

Respondents may file requests for waivers and exemptions of fees and

charges⁵ based on need. The Commission's staff uses the filer's financial information to evaluate the request for a waiver or exemption of the obligation to pay a fee or an annual charge.

Estimate of Annual Burden: The Commission estimates the burden⁶ and cost⁷ for this information collection as follows.

FERC-582, ELECTRIC FEES, ANNUAL CHARGES, WAIVERS, AND EXEMPTIONS

Number of respondents	Annual number of responses per respondent	Total number of responses	Average burden & cost per response	Total annual burden hours & cost	Cost per respondent
(1)	(2)	(1) × (2) = (3)	(4)	(3) * (4) = (5)	(5)/(1) = (5)
51	1	51	2.39 hrs.; \$239.00	121.89 hrs.; \$12,189.00	\$239.00

Comments: Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

The first page of any filing should include the docket number P-77-320. Comments emailed to Commission staff are not considered part of the Commission record.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on

⁴ 18 CFR 382.201.

⁵ This includes requirements of 18 CFR 381.105 (methods of payment), 381.106 (waiver), 381.108 (exemption), 381.302 (declaratory order), 381.303 (review of DOE remedial order), 381.304 (DOE denial of adjustment), and 381.305 (OGC interpretation).

⁶ Burden is defined as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collection burden, refer to 5 CFR part 1320.

⁷ The Commission staff estimates that the average respondent for FERC-582 is similarly situated to the Commission, in terms of salary plus benefits. Based on FERC's current annual average of \$207,786 (for salary plus benefits), the average hourly cost is \$100/hour.

each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

l. *Description of Request:* The licensee requests a temporary variance of its minimum flow requirements at two project locations. Due to seismic risk at Scott Dam, the licensee has elected to leave the spillway gates at Scott Dam open indefinitely, thereby reducing the storage capacity in Lake Pillsbury by approximately 20,000 acre-feet. The licensee also states that there is a high potential for bank sloughing and ensuing dam safety and operational constraints should the reservoir recede to a pool level of between 5,000 and 12,000 acre-feet.

To preserve water storage in Lake Pillsbury and conserve cold water for downstream aquatic resources, the licensee proposes to release flows below Scott Dam (as measured at gage E-2) to be consistent with a critical water year type minimum flow of 20 cubic feet per second (cfs). However, actual releases would be closer to the minimum facility limitation of 35 cfs from the low-level outlet. In addition, the licensee would reduce minimum flows in the East Branch Russian River (as measured at gage E-16) to match the dry water year minimum flow requirement of 25 cfs with the flexibility to further reduce flows to the critical water year requirement of 5 cfs, depending on water availability, safety concerns, and water temperature conditions in the Eel River. After September 16, 2024, the licensee would resume the dry water year flow release of 25 cfs. In addition, the licensee requests that compliance with the minimum flow requirement in the Eel River below Cape Horn Dam (as measured at gage E-11) be modified to a 24-hour average instead of an instantaneous requirement to allow for a tighter compliance buffer.

The request licensee's request also includes provisions for water temperature and biological monitoring, environmental mitigation, and monthly consultation throughout implementation of the proposed variance. The licensee requests that the variance begin immediately upon Commission approval and conclude when Lake Pillsbury storage exceeds 36,000 acre-feet following October 1, 2024, or is superseded by another variance or license amendment.

m. *Locations of the Application:* This filing may be viewed on the

Commission's website at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. n. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

o. *Comments, Protests, or Motions to Intervene:* Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214, respectively. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

p. *Filing and Service of Documents:* Any filing must (1) bear in all capital letters the title "COMMENTS", "PROTEST", or "MOTION TO INTERVENE" as applicable; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person commenting, protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, motions to intervene, or protests must set forth their evidentiary basis. Any filing made by an intervenor must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 385.2010.

q. The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes.
