**FOR FURTHER INFORMATION CONTACT:** Muntasir Ali, Sector Policies and Program Division, Office of Air Quality Planning and Standard, D243–05, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (919) 541–0833; email address: [ali.muntasir@epa.gov](mailto:ali.muntasir@epa.gov).

**SUPPLEMENTARY INFORMATION:** This is a proposed extension of the ICR, which is currently approved through February 28, 2025. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on May 18, 2023 during a 60-day comment period (88 FR 31748). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at [www.regulations.gov](http://www.regulations.gov) or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA’s public docket, visit <http://www.epa.gov/dockets>.

**Abstract:** The New Source Performance Standards (NSPS) for Bulk Gasoline Terminals (40 CFR part 60, subpart XX) were proposed December 17, 1980; promulgated on August 18, 1983; and most recently amended on February 24, 2024. These regulations apply to the total of all loading racks at bulk gasoline terminals, which deliver liquid product into gasoline tank trucks, and for which construction, modification, or reconstruction commenced after the date of proposal. A bulk gasoline terminal is any gasoline facility which receives gasoline by pipeline, ship, or barge, and has a gasoline throughput greater than 75,700 liters per day. The affected facility includes the loading arms, pumps, meters, shutoff valves, relief valves, and other piping and valves necessary to fill delivery tank trucks. New facilities include those that commenced either construction, or modification, or reconstruction after December 17, 1980, and on or before June 10, 2022. Sources that commence construction, modification, or reconstruction after June 10, 2022 will be subject to 40 CFR

part 60, subpart XXa, which is accounted for under EPA ICR number 2720.01. This ICR does not account for burden associated with 40 CFR part 60, subpart XXa. This information is being collected to assure compliance with 40 CFR part 60, subpart XX.

**Form Numbers:** None.

**Respondents/affected entities:** Bulk gasoline terminal facilities.

**Respondent’s obligation to respond:** Mandatory (40 CFR part 60, subpart XX).

**Estimated number of respondents:** 214 (total).

**Frequency of response:** Annually.

**Total estimated burden:** 70,900 hours (per year). Burden is defined at 5 CFR 1320.03(b).

**Total estimated cost:** \$8,940,000 (per year), which includes \$0 annualized capital or operation & maintenance costs.

**Changes in the estimates:** There is no change of hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This is due to two considerations. First, the regulations have not changed over the past three years and are not anticipated to change over the next three years. Second, the growth rate for this industry is very low or non-existent, so there is no significant change in the overall burden. Since there are no changes in the regulatory requirements and there is no significant industry growth, there are also no changes in the capital/startup or operation and maintenance (O&M) costs.

### Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; NESHAP for Primary Aluminum Reduction Plants (Renewal)

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Primary Aluminum Reduction Plants (EPA ICR Number 1767.10, OMB Control Number 2060–

0360) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through February 28, 2025. Public comments were previously requested via the **Federal Register** on May 18, 2023 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

**DATES:** Comments may be submitted on or before March 31, 2025.

**ADDRESSES:** Submit your comments, referencing Docket ID Number EPA–HQ–OAR–2023–0126, to EPA online using [www.regulations.gov](http://www.regulations.gov) (our preferred method), by email to [a-and-r-docket@epa.gov](mailto:a-and-r-docket@epa.gov), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA’s policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

**FOR FURTHER INFORMATION CONTACT:** Muntasir Ali, Sector Policies and Program Division, Office of Air Quality Planning and Standard, D243–05, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (919) 541–0833; email address: [ali.muntasir@epa.gov](mailto:ali.muntasir@epa.gov).

**SUPPLEMENTARY INFORMATION:** This is a proposed extension of the ICR, which is currently approved through February 28, 2025. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on May 18, 2023 during a 60-day comment period (88 FR 31748). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are

available in the public docket for this ICR. The docket can be viewed online at [www.regulations.gov](http://www.regulations.gov) or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

**Abstract:** The National Emission Standards for Hazardous Air Pollutants (NESHAP) for the regulations published at (40 CFR part 63, subpart LL) were proposed on September 26, 1996; promulgated on October 7, 1997; and amended on October 15, 2015. These regulations apply to owner or operator of the affected facilities, which include new or existing potlines, paste production plants, or anode bake furnaces associated with primary aluminum production and located at a major source, and for each new pitch storage tank associated with a primary aluminum reduction plant. New facilities include those that commenced either construction or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 63, subpart LL.

In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHAP.

**Form Numbers:** None.

**Respondents/affected entities:**

Primary aluminum reduction facilities.

**Respondent's obligation to respond:** Mandatory (40 CFR part 63, subpart LL).

**Estimated number of respondents:** 6 (total).

**Frequency of response:** Initially, quarterly, semiannually, annually.

**Total estimated burden:** 39,200 hours (per year). Burden is defined at 5 CFR 1320.03(b).

**Total estimated cost:** \$5,240,000 (per year), which includes \$299,000 annualized capital or operation & maintenance costs.

**Changes in the estimates:** There is a decrease of 13,100 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to a decrease in the number of sources from eight to six compared to the previously

approved ICR. There was also a decrease in the overall total capital and O&M costs due to the decrease in number of sources. This decrease is not due to any program changes.

**Abstract:** The National Emission Standards for Hazardous Air Pollutants (NESHAP) for the regulations published at 40 CFR part 63, subpart JJJJJ were proposed on July 22, 2002, promulgated on May 16, 2003, and most recently amended on October 26, 2015 and December 4, 2015. These regulations apply to existing facilities and new facilities that manufacture brick, including face brick, structural brick, brick pavers, or other brick and/or structural clay products including clay pipe; roof tile; extruded floor and wall tile; or other extruded, dimensional clay products. New facilities include those that commenced construction, modification, or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 63, subpart JJJJJ.

**Form Numbers:** None.

**Respondents/affected entities:** Brick and structural clay products manufacturing facilities.
