SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060–0804.

Title: Universal Service—Health Care Providers Universal Service Program.

Form Nos: FCC Forms 465, 466, 466–A and 467.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit and not-for-profit institutions.

Number of Respondents: 12,800 respondents; 14,400 responses.

Estimated Time Per Response: .50–3 hours.

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Total Annual Burden: 17,600 hours.

Total Annual Cost: N/A.

Needs and Uses: The Commission seeks comment on ways to streamline further the application process and expand outreach efforts regarding the rural health care universal service support mechanism. The Commission implemented the rural health care mechanism at the direction of Congress as provided in the Telecommunications Act of 1996 (1996 Act). In past years of its operation, the rural health care mechanism has provided discounts that have facilitated the ability of health care providers to provide critical access to modern telecommunications and information services for medical and health maintenance purposes to rural America. Participation in the rural health care universal service support mechanism, however, has not met the

Commission's projections. The Commission finds it appropriate to assess whether our rules and policies require modification.

OMB Control No.: 3060–0929.

Needs and Uses: FCC Form 331 is required to be used by the licensees of MDS, MMDS, ITFS, or commercial ITFS to apply for modification to a main station, response station hub, high-power signal booster station, notification of low-power signal booster station or 125 kHz (I Channel) point to multipoint transmissions. The data is used by FCC staff to determine whether the applicant meets legal and technical requirements and to ensure that the public interest would be served by grant of the application.
