SUPPLEMENTARY INFORMATION: In the **Federal Register** of January 7, 2025 (90 FR 1052), we published a document announcing the availability of a draft guidance entitled “Establishing Sanitation Programs for Low-Moisture Ready-to-Eat Human Foods and Taking Corrective Actions Following a Pathogen Contamination Event.” The notice of availability opened a docket with a 120-day comment period, that closed on May 7, 2025.

We have received requests to extend the comment period for the draft guidance. The requests conveyed concern that a 120-day comment period does not allow sufficient time to develop a meaningful or thoughtful response to the draft guidance. We have considered the requests and have concluded that an extension of the

comment period by 60 days is appropriate. The extension will allow adequate time for interested persons to submit comments without significantly delaying the final guidance.

Dated: May 22, 2025.

Grace R. Graham,

Deputy Commissioner for Policy, Legislation, and International Affairs.

II. Background, Purpose, and Legal Basis

The Red Bull Flugtag event will be held in Cincinnati, Ohio, at Sawyer Point Park and Yeatman’s Cove, near the Ohio River and Licking River, on August 9, 2025. During this event, teams launch homemade, human-powered flying machines from a ramp into the water. The purpose of this rulemaking is to ensure the safety of vessels, participants, and the navigable waters in the vicinity of this event. The Coast Guard is proposing this rulemaking under authority in 46 U.S.C. 70041.

III. Discussion of Proposed Rule

This proposed rule would establish a safety zone from 7 a.m. through 6 p.m. on August 9, 2025. The safety zone will cover all navigable waters from Mile Marker 469.5–Mile Marker 470.5 of the Ohio River and Mile Marker 0.0–Mile Marker 0.3 of the Licking River. The duration of the zone is intended to protect waterway users, vessels, event participants, and the marine environment in these navigable waters while the sporting event is occurring. No vessel or person will be permitted to enter the safety zone without obtaining permission from the COTP or a designated representative.

IV. Regulatory Analyses

We developed this proposed rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. This proposed rule has not been designated a “significant regulatory action,” under section 3(f) of Executive Order 12866. Accordingly, this proposed rule has not been reviewed by the Office of Management and Budget (OMB).
