Type of Request: New collection of information.

Abstract: In accordance with the Improper Payments Information Act of 2002 (Public Law No. 107-300), which seeks to improve the integrity of the government's payments and the efficiency of programs and activities,

including the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC), FNS is seeking to carry out a Second National Survey of WIC Participants (NSWP II). Ten years have elapsed since the first NSWP survey was conducted. That study provided national estimates of the case error rate and dollar error for the WIC program. It also collected demographic information about WIC participants and their families. The NSWP II study seeks to: (1) Estimate the annual cost of erroneous payments in the WIC program by examining erroneous payments caused by WIC certification error among applicants; and (2) provide information on the policies, procedures, operations, and staff of WIC State agencies and explore the characteristics and experiences of WIC applicants and participants. In addition, the study will develop a model for updating estimates of erroneous payments due to certification error in the WIC program that will allow the Food and Nutrition Service to calculate erroneous payments for the next 10 years before the next major NSWP study.

Affected Public: State WIC Agency officials, Local WIC Agency directors and WIC participants.

Proposed Collection: State WIC Agency Survey: Public burden is estimated at 66 minutes for one response each with a total of 99 hours for 90 respondents.
