

**DATES:** The meeting will be held on Wednesday, September 14, 2022, from 1 p.m. to 4:30 p.m. See **SUPPLEMENTARY INFORMATION** for agenda details.

**ADDRESSES:** The meeting will be held via webinar. Details on the agenda, webinar listen-in access, and briefing materials will be posted at the MAFMC's website: [www.mafmc.org](http://www.mafmc.org).

*Council address:* Mid-Atlantic Fishery Management Council, 800 N State Street, Suite 201, Dover, DE 19901; telephone: (302) 674-2331; [www.mafmc.org](http://www.mafmc.org).

**FOR FURTHER INFORMATION CONTACT:**

Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council, telephone: (302) 526-5255.

**SUPPLEMENTARY INFORMATION:** The Mid-Atlantic Fishery Management Council's Protected Resources Committee will meet to review materials for phase two of the Atlantic Large Whale Take Reduction Plan which focuses on reducing the risk of entanglement to right, humpback, and fin whales in U.S. East Coast gillnet, Atlantic mixed species trap/pot, and Mid-Atlantic lobster and Jonah crab trap/pot fisheries. The measures developed in phase two of this plan have the potential to impact several Council managed fisheries and the Protected Resources Committee will develop recommendations and guidance for the Council's representation on the Atlantic Large Whale Take Reduction Team. This team is making final recommendations at their September 19 and 22, 2022 meetings. The Protected Resources Committee will also review and provide comments on the proposed North Atlantic Right Whale Vessel Strike Reduction Rule. The Committee may address other protected resources issues as they arise.

**Special Accommodations**

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Shelley Spedden at the Council Office, (302) 526-5251, at least 5 days prior to the meeting date.

**SUPPLEMENTARY INFORMATION:** The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data

Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the Data Workshop are as follows:

An assessment data set and associated documentation will be developed during the workshop. Participants will evaluate proposed data and select appropriate sources for providing information on life history characteristics, catch statistics, discard estimates, length and age composition, and fishery dependent and fishery independent measures of stock abundance.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

**Special Accommodations**

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the South Atlantic Fishery Management Council

#### SUPPLEMENTARY INFORMATION:

#### I. Abstract

The Leahy-Smith America Invents Act (AIA), Public Law 112–29 § 32 (2011) directs the USPTO to work with and support intellectual property law associations across the country in the establishment of pro bono programs designed to assist financially under-resourced independent inventors and small businesses. To support this, the USPTO—in collaboration with various non-profit organizations—implemented the Patent Pro Bono program; a series of autonomous regional hubs that act as matchmakers to help connect low-income inventors with volunteer patent attorneys across the United States. The Patent Pro Bono program comprises a network of regional hubs organized by various bar associations, law school IP clinics, and lawyer referral services that provide services across all fifty states, the District of Columbia, and Puerto Rico.

In 2022, the Patent Trial and Appeal Board (PTAB) began coordinating *pro bono* opportunities through the newly created PTAB Pro Bono Program, having supported the establishment of a national clearinghouse that acts as a matchmaker to connect under-resourced inventors with volunteer patent practitioners across the United States for assistance in preparing and arguing *ex parte* appeals before the PTAB. The PTAB Bar Association’s national clearinghouse provides access to legal representation for *pro bono ex parte* appeal services across all fifty states and the District of Columbia.

Each *pro bono* program will be requesting that their respective regional hubs and a national clearinghouse collect demographic information from those seeking assistance that will be self-identified by the applicant. The requested standardized demographic information, collected through Applicant Intake Forms, will be a
