from public disclosure. In order for BOEM to consider withholding from disclosure your personally identifying information, you must identify, in a cover letter, any information contained in your comments that, if released, would constitute a clearly unwarranted invasion of your personal privacy. You must also briefly describe any possible harmful consequences from disclosing your information, such as embarrassment, injury, or other harm. Even if BOEM withholds your information in the context of this ICR, your submission is subject to the Freedom of Information Act (FOIA) (5 U.S.C. 552). If your submission is requested under the FOIA, BOEM can only withhold your information if it determines that one of the FOIA's exemptions to disclosure applies. Such a determination will be made in accordance with the Department of the Interior's FOIA regulations (43 CFR part 2) and applicable law.

Note that BOEM will make available for public inspection all comments in their entirety submitted by organizations and businesses, or by individuals identifying themselves as representatives of organizations or businesses.

BOEM protects proprietary information in accordance with FOIA, the Department's implementing regulations.

Title of Collection: ''North Atlantic Right Whale Research and Management Activities.''

Abstract: BOEM is working on a project to identify and synthesize current North Atlantic right whale (NARW) research and management activities conducted by State and Federal government researchers, academic institutions, and non-governmental organizations (NGOs). This project includes identification of mitigation efforts to avoid or limit impacts from offshore wind development activities on NARWs. This information will provide essential data and stakeholder feedback so that BOEM managers and scientists are better able to predict, mitigate, and monitor any potential conflicts between NARWs and offshore wind development.

An important component of this project is the development of the NARW synthesis report. This report will include a summary of: (1) existing sources of information related specifically to understanding presence, distribution, and density of NARWs in and around wind energy areas offshore the U.S. Atlantic coast; (2) current approaches for avoiding or limiting impacts to NARWs during offshore wind construction and operation; (3) a listing of mitigation measures recommended by others but not yet adopted; (4) current monitoring requirements and their implementation; and (5) an accounting of emerging technologies that may allow monitoring at project and regional scales.

In order to develop the synthesis report, BOEM seeks OMB approval for a set of standardized questions to NARW stakeholders regarding their activities to understand impacts from offshore wind energy projects on the whales and to ensure effective mitigation monitoring. The questions are designed to learn of recent and ongoing research and management strategies employed by relevant State and Federal governments, academic institutions, and NGOs, including outcomes of prior workshops and planning bodies. BOEM has partnered with the Blue World Research Institute to implement the questionnaire. The questionnaire comprises approximately 20 questions that ask respondents about: (1) their organization; (2) information on current monitoring and research activities, such as objective, location, scope, methods, timelines, outcomes and challenges, and contributions to NARW conservation or impact reduction; (3) related ancillary information, such as type of study, next steps, and focus of future funding sources; and (4) additional comments and discussion. The questionnaire avoids sensitive topics or matters that are commonly considered private. The results will be summarized as part of the NARW synthesis report.

Additionally, BOEM plans to hold two to three webinars or one virtual workshop to present results of the synthesis report and solicit feedback on future research priorities and management needs from the offshore energy industry and NARW stakeholders. This feedback will be compiled in a final report.

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 731–TA–865–867 (Fourth Review)]

Stainless Steel Butt-Weld Pipe Fittings From Italy, Malaysia, and the Philippines; Scheduling of Expedited Five-Year Reviews

AGENCY: United States International Trade Commission.

ACTION: Notice.

SUMMARY: The Commission hereby gives notice of the scheduling of expedited reviews pursuant to the Tariff Act of 1930 (''the Act'') to determine whether revocation of the antidumping duty orders on stainless steel butt-weld pipe fittings from Italy, Malaysia, and the Philippines would be likely to lead to continuation or recurrence of material injury within a reasonably foreseeable time.

DATES: February 6, 2023.

FOR FURTHER INFORMATION CONTACT: (Caitlyn Hendricks-Costello (202) 205–2058), Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202–205–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202–205–2000. General information concerning the Commission may also be obtained by accessing its internet server (*https://www.usitc.gov*). The public record for this proceeding may be viewed on the Commission's electronic docket (EDIS) at *https://edis.usitc.gov.*

SUPPLEMENTARY INFORMATION:

Background.—On February 6, 2023, the Commission determined that the domestic interested party group response to its notice of institution (87 FR 65819, November 1, 2022) of the subject five-year reviews was adequate and that the respondent interested party group response was inadequate. The

Commission did not find any other circumstances that would warrant conducting full reviews.[1] Accordingly, the Commission determined that it would conduct expedited reviews pursuant to section 751(c)(3) of the Tariff Act of 1930 (19 U.S.C. 1675(c)(3)).[2]

For further information concerning the conduct of these reviews and rules of general application, consult the Commission's Rules of Practice and Procedure, part 201, subparts A and B (19 CFR part 201), and part 207, subparts A, D, E, and F (19 CFR part 207).

Staff report.—A staff report containing information concerning the subject matter of the reviews has been placed in the nonpublic record, and will be made available to persons on the Administrative Protective Order service list for these reviews on March 3, 2023. A public version will be issued thereafter, pursuant to section 207.62(d)(4) of the Commission's rules.

Written submissions.—As provided in section 207.62(d) of the Commission's rules, interested parties that are parties to the reviews and that have provided individually adequate responses to the notice of institution,[3] and any party other than an interested party to the reviews may file written comments with the Secretary on what determination the Commission should reach in the reviews. Comments are due on or before March 8, 2023 and may not contain new factual information. Any person that is neither a party to the five-year reviews nor an interested party may submit a brief written statement (which shall not contain any new factual information) pertinent to the reviews by March 8, 2023. However, should the Department of Commerce (''Commerce'') extend the time limit for its completion of the final results of its reviews, the deadline for comments (which may not contain new factual information) on Commerce's final results is three business days after the issuance of Commerce's results. If comments contain business proprietary information (BPI), they must conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission's rules. The Commission's *Handbook on Filing Procedures,* available on the Commission's website at *https://www.usitc.gov/documents/handbook_on_filing_procedures.pdf,* elaborates upon the Commission's procedures with respect to filings.

In accordance with sections 201.16(c) and 207.3 of the rules, each document filed by a party to the reviews must be served on all other parties to the reviews (as identified by either the public or BPI service list), and a certificate of service must be timely filed. The Secretary will not accept a document for filing without a certificate of service.

Authority: These reviews are being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to section 207.62 of the Commission's rules.

By order of the Commission.

Issued: February 17, 2023.

Lisa Barton,

Secretary to the Commission.
