Listing Endangered and Threatened Wildlife and Plants and Designating Critical Habitat; 90-Day Finding for a Petition to List Atlantic White marlin (*Tetrapturus albidus*)

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of petition finding; request for information and comments.

SUMMARY: NMFS announces the 90-day finding for a petition to list Atlantic white marlin (*Tetrapturus albidus*) as threatened or endangered throughout its known range and to designate critical habitat under the Endangered Species Act (ESA). NMFS finds that the petition presents substantial scientific information indicating that the petitioned action may be warranted. NMFS will conduct a status review of Atlantic white marlin to determine if the petitioned action is warranted. To ensure that the review is comprehensive, NMFS is soliciting information and comments pertaining to this species and potential critical habitat from any interested party. NMFS also

seeks suggestions from the public for peer reviewers to take part in the peer review process for the Atlantic white marlin status review.

DATES: Comments and information related to this petition finding must be received by February 19, 2002.

ADDRESSES: Requests for copies of the petition, and information and comments on this finding should be submitted to Georgia Cranmore, Assistant Regional Administrator for Protected Resources, National Marine Fisheries Service, Southeast Regional Office, 9721 Executive Center Drive North, St. Petersburg, FL 33702-2432. Section 4 (b)(3)(A) of the ESA (16 U.S.C. 1531 *et seq.*) requires that NMFS make a finding as to whether a petition to list, delist, or reclassify a species presents substantial scientific or commercial information indicating that the petitioned action may be warranted. NMFS' ESA implementing regulations (50 CFR 424.14) define "substantial information" as the amount of information that would lead a reasonable person to believe that the measure proposed in the petition may be warranted. In determining whether substantial information exists for a petition to list a species, NMFS takes into account several factors, including information submitted with, and referenced in, the petition and all other information readily available in NMFS' files.
