

recommendation forms to persons who will fill them out; 15 minutes to complete a recommendation form; and 2 hours for a follow-up report.

Needs and Uses: The Teacher-At-Sea Program provides educators with the opportunity to participate in research projects aboard NOAA vessels. The respondents are educators who provide information about themselves and their teaching situation and who submit a follow-up report with ideas for classroom applications.

Recommendations are also required.

Affected Public: Individuals or households.

Frequency: On occasion.

Respondent's Obligation: Required to obtain or retain benefits.

OMB Desk Officer: David Rostker, (202) 395-3897.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to David Rostker, OMB Desk Officer, FAX number 202-395-7285, or David_Rostker@omb.eop.gov.

Dated: April 22, 2004.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

[I.D. 042304D]

Submission for OMB Review; Comment Request

The Department of Commerce has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Licensing of Private Land Remote-Sensing Space Systems.

Form Number(s): None.

OMB Approval Number: 0648-0174.

Type of Request: Regular submission.

Burden Hours: 295.

Number of Respondents: 18.

Average Hours Per Response: License application, 40 hours; amendment, 10

hours; foreign agreement notification (including investment), 2 hours; executive summary, 1 hour; notification of the demise of a system or a decision to discontinue system operations, 2 hours; notification of any operational deviation, 2 hours; submission of data collection restriction plans, 5 hours; submission of operational plans for restricting collection or dissemination of Israeli territory, 3 hours; submission of data flow diagrams, 3 hours; submission of satellite sub-systems drawings, 2 hours; submission of final imaging system specifications, 3 hours; submission of spacecraft operational information when a spacecraft becomes operational, 2 hours; notification of disposition/orbital debris change, 2 hours; notifications of planned purges of information, 2 hours; operational quarterly reports, 3 hours; annual compliance audits, 8 hours; annual operational audits, 10 hours.

Needs and Uses: NOAA has established requirements for the licensing of private operators of remote-sensing space systems. The information in applications and subsequent reports is needed to ensure compliance with the Land Remote-Sensing Policy Act of 1992 and with the national security and international obligations of the United States.

Affected Public: Business or other for-profit organizations.

Frequency: On occasion, quarterly, annually.

Respondent's Obligation: Mandatory.

OMB Desk Officer: David Rostker, (202) 395-3897.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to David Rostker, OMB Desk Officer, FAX number 202-395-7285, or David_Rostker@omb.eop.gov.

Dated: April 22, 2004.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

International Trade Administration

[A-122-822]

Notice of Extension of Time Limit for Preliminary Results of Antidumping Duty Administrative Review: Corrosion-Resistant Carbon Steel Flat Products From Canada

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: April 29, 2004.

SUMMARY: The Department of Commerce (the Department) is extending the time limit for the preliminary results of the antidumping duty administrative review of corrosion-resistant carbon steel flat products from Canada until no later than August 30, 2004. This review covers the period August 1, 2002, through July 31, 2003. The extension is made pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act").

FOR FURTHER INFORMATION CONTACT:

Scott Lindsay or Thomas Gilgunn, Office of AD/CVD Enforcement 7, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230, at (202) 482-0780 or (202) 482-4236, respectively.

Background

The Department of Commerce (the Department) received timely requests for administrative review of the antidumping duty order on corrosion-resistant carbon steel flat products from Canada, with respect to Continuous Color Coat, Ltd. ("CCC"), Dofasco Inc. ("Dofasco"), Ideal Roofing Company, Ltd. ("Ideal Roofing"), Impact Steel Canada, Ltd. ("Impact Steel"), Russel Metals Export ("Russel Metals"), Sorevco and Company, Ltd. ("Sorevco"), and Stelco Inc. ("Stelco"). On September 30, 2003, the Department published a notice of initiation of this administrative review for the period of August 1, 2002, through July 31, 2003 (68 FR 56262).

On December 19, 2003, the Department rescinded the administrative reviews of CCC, Impact Steel, and Ideal Roofing (68 FR 70764). On March 30, 2004, the Department rescinded the administrative review of Russel Metals (69 FR 16521). After these rescissions, the only companies still subject to review were Stelco, Dofasco, and Sorevco.

Extension of Time Limits for Preliminary Results

Pursuant to section 751(a)(3)(A) of the Act, the Department shall issue preliminary results in an administrative review of an antidumping duty order within 245 days after the last day of the anniversary month of the date of publication of the order. The Act further provides, however, that the Department may extend that 245-day period to 365 days if it determines it is not practicable to complete the review within the foregoing time period.

In light of the complexity of analyzing Stelco's, Dofasco's and Sorevco's cost calculations, and the issues concerning Dofasco's and Sorevco's affiliation, it is not practicable to complete this review by the current deadline of May 2, 2004.

Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is extending the time limit for the preliminary results by 120 days, until no later than August 30, 2004. The final results continue to be due 120 days after the publication of the preliminary results.

This notice is issued and published in accordance to sections 751(a)(1) and 777(i)(1) of the Act.

Dated: April 21, 2004.

Joseph A. Spetrini,

Deputy Assistant Secretary for Import Administration, Group III.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 042204F]

Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits (EFPs)

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notification of a proposal for EFPs to conduct experimental fishing; request for comments.

SUMMARY: The Assistant Regional Administrator for Sustainable Fisheries, Northeast Region, NMFS (Assistant Regional Administrator) has made a preliminary determination that the subject EFP application contains all the required information and warrants further consideration. The Assistant Regional Administrator has also made a preliminary determination that the

activities authorized under the EFP would be consistent with the goals and objectives of the Northeast (NE) Multispecies Fishery Management Plan (FMP). However, further review and consultation may be necessary before a final determination is made to issue the EFP. Therefore, NMFS announces that the Assistant Regional Administrator proposes to recommend that an EFP be issued that would allow two commercial fishing vessels to conduct fishing operations that are otherwise restricted by the regulations governing the fisheries of the Northeastern United States. The EFP would allow for exemptions from the FMP as follows: The GOM Rolling Closure Areas; the Days-at-Sea (DAS) notification requirements; and the effort-control program (DAS).

Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed EFPs.

DATES: Comments on this document must be received on or before May 14, 2004.

ADDRESSES: Comments on this notice may be submitted by e-mail. The mailbox address for providing e-mail comments is DA498@noaa.gov. Include in the subject line of the e-mail comment the following document identifier: "Comments on Manomet Rigid-Mesh Panel Gear Study." Written comments should be sent to Patricia A. Kurkul, Regional Administrator, NMFS, Northeast Regional Office, 1 Blackburn Drive, Gloucester, MA 01930. Mark the outside of the envelope "Comments on Manomet Rigid-Mesh Panel Gear Study." Comments may also be sent via facsimile (fax) to (978) 281-9135.

FOR FURTHER INFORMATION CONTACT: Brian Hooker, Fishery Management Specialist, phone 978-281-9220.

SUPPLEMENTARY INFORMATION: The Manomet Center for Conservation Sciences (Manomet) submitted an application for an EFP on April 2, 2004. Information completing the application was received on April 14, 2004. The proposed project, "Development and Testing of a Novel 'Rigid-Mesh' Bycatch Reduction Device for the Gulf of Maine Groundfish Fisheries," is the second year of the project funded by the Northeast Consortium.

The main purpose of the project is to test a fishing gear net modification that utilizes a panel of rigid mesh inserted between the extension and codend of a conventional otter trawl. The researchers seek to assess the applicability of the rigid mesh panel in

the GOM NE multispecies fishery towards reducing regulatory discard. The proposed panel would be 2 meters (6.5 ft) in length and entirely constructed of elongate meshes 60 mm (2.36 in) by 200 mm (7.87 in) long and would be inserted along the net between the extension and a conventional 16.5-cm (6.5-inch) diamond mesh codend. The panel would extend around the entire circumference of the net. The net would be filmed inside and outside to verify proper construction and document fish behavior. The experimental design for the project calls for towing the experimental net and the conventional net in alternate tows (A-B-B-A pattern). No more than a total of 40 tows would be performed during the fishing trials.

The main species that would be expected to be caught under this EFP are: 45.40 kg (100 lb) of yellowtail flounder; 9 kg (20 lb) of winter flounder; 45.40 kg (100 lb) of summer flounder; 45.40 kg (100 lb) of American plaice; 138 kg (305 lb) of cod; 11 kg (25 lb) of haddock; 490 kg (1,080 lb) of skates; 166 kg (365 lb) of spiny dogfish; and 1,601 kg (3,530 lb) of monkfish. These estimates are based, in part, upon two days of testing which occurred in 2003. There will be no retention of undersized fish onboard the vessels. The project would take place between June 1-July 31, 2004. The study would occur in two areas: Area 1 is off the Maine coast in 30-minute squares 138, 139, 140, 146, and 147; and Area 2 is off of Cape Cod in 30-minute squares 123 and 124. At no time is fishing to occur inside year-round closure areas. Exemption from 10 DAS, 5 per vessel, is requested to conduct the experiment. DAS exemptions are requested as a commercial DAS level of effort would not likely be realized and profit from the sale of fish would be used to offset research costs associated with data analysis, report production, travel, and leasing the vessels.

This EFP would allow for exemptions from the Northeast (NE) Multispecies Fishery Management Plan (FMP) as follows: The GOM Rolling Closure Areas specified at 50 CFR 648.81(g)(1)(i)-(v); the Days-at-Sea (DAS) notification requirements specified at § 648.10; and the effort-control program (DAS) as specified at § 648.82(a).

Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 23, 2004.

Alan D. Risenhoover,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
