

FR 43255, August 10, 1999) and Executive Order 13175, entitled "Consultation and Coordination with Indian Tribal Governments" (65 FR 67249, November 9, 2000) do not apply to this final rule. In addition, this final rule does not impose any enforceable duty or contain any unfunded mandate as described under Title II of the Unfunded Mandates Reform Act of 1995 (UMRA) (2 U.S.C. 1501 *et seq.*).

Although this action does not require any special considerations under Executive Order 12898, entitled "Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations" (59 FR 7629, February 16, 1994), EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. As such, to the extent that information is publicly available or was submitted in comments to EPA, the Agency considered whether groups or segments of the population, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticide discussed in this document, compared to the general population.

XI. Congressional Review Act

Pursuant to the Congressional Review Act (5 U.S.C. 801 *et seq.*), EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Synopsis

As required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3507), the FCC is notifying the public that it received OMB approval on January 7, 2013, which contained new or modified information collection requirements for Fixed Service (FS) operators to comply with the Rural Microwave Flexibility Policy adopted in the *Wireless Backhaul Second Report and Order*, directing the Commission's Wireless Telecommunications Bureau to favorably consider waivers of the payload capacity requirements if FS applicants demonstrate compliance with certain criteria, and that the Rural Microwave Flexibility Policy would not be effective until approved by the Office of Management and Budget. The information collection was adopted in the Report and Order in WT Docket No. 10-153 which appears at 77 FR 54421 (September 5, 2012). The effective date of the rules adopted in that Report and Order was published as October 5, 2012, except for the Rural Microwave Flexibility Policy. Through this document, the Commission announces that it has received this approval (OMB Control No. 3060-0718, Expiration Date: January 31, 2016) and that the Rural Microwave Flexibility Policy became effective on January 7, 2013.

Under 5 CFR part 1320, an agency may not conduct or sponsor a collection of information unless it displays a current, valid OMB Control Number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a current, valid OMB Control Number. The OMB Control Number is 3060-0718. The foregoing notice is required by the Paperwork Reduction Act of 1995, Public Law 104-13, October 1, 1995, and 44 U.S.C. 3507.

The total annual reporting burdens and costs for the respondents are as follows:

OMB Control Number: 3060-0718.

OMB Approval Date: January 7, 2013.

OMB Expiration Date: January 31, 2016.

Title: Part 101 Rule Sections Governing the Terrestrial Microwave Fixed Radio Service

Form Number: N/A.

Respondents: Business or other for-profit entities, not-for-profit institutions, federal government and state, local, or tribal government.

Number of Respondents: 27,342 respondents; 27,342 responses.

Estimated Time per Response: 1.2962475 hours.

Frequency of Response: On occasion and 10 year reporting requirements, third party disclosure requirements and recordkeeping requirements.

Obligation to Respond: Required to obtain or retain benefits or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151, 154(i), 301, 303(f), 303(g), 303(r), 307, 308, 309, 310 and 316 of the Communications Act of 1934, as amended.

Total Annual Burden: 35,442 hours.

Total Annual Cost: \$810,000.

Nature and Extent of Confidentiality: No questions of a confidential nature are asked.

Needs and Uses: On August 3, 2012, the Commission adopted the Rural Microwave Flexibility Policy, which directed the Wireless Telecommunications Bureau to favorably consider waivers of the requirements for payload capacity of equipment, if the applicants demonstrate equipment compliance with the following criteria:

- The interference environment would allow the applicant to use a less stringent Category B antenna (although the applicant could choose to use a higher performance Category A antenna);

- The applicant specifically acknowledges its duty to upgrade to a Category A antenna and come into

compliance with the applicable efficiency standard if necessary to resolve an interference conflict with a current or future microwave link pursuant to § 101.115(c);

- The applicant uses equipment that is capable of readily being upgraded to comply with the applicable payload capacity requirement, and provide a certification in its application that its equipment complies with this requirement;

- Each end of the link is located in a rural area (county or equivalent having population density of 100 persons per square mile or less);

- Each end of the link is in a county with a low density of links in the 4, 6, 11, 18, and 23 GHz bands;

- Neither end of the link is contained within a recognized antenna farm; and

- The applicant describes its proposed service and explains how relief from the efficiency standards will facilitate providing that service (e.g., by eliminating the need for an intermediate hop) as well as the steps needed to come into compliance should an interference conflict emerge.

These requirements are necessary for the Commission staff to carry out its duties to determine whether applicants would be eligible for a waiver of the payload capacity requirements. In addition, the information is used to determine whether the public interest, convenience, and necessity are being served as required by 47 U.S.C. 309. Without this information, the Commission would not be able to carry out its statutory responsibilities.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.

National Oceanic and Atmospheric Administration

50 CFR Part 622

[Docket No. 001206604-1758-02]

RIN 0648-XC474

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Coastal Migratory Pelagic Resources of the Gulf of Mexico and South Atlantic; Trip Limit Increase

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; inseason trip limit increase.

SUMMARY: NMFS increases the trip limit in the commercial sector for king mackerel in the Florida east coast subzone to 75 fish per day in or from the exclusive economic zone (EEZ). This trip limit increase is necessary to maximize the socioeconomic benefits of the quota.

DATES: This rule is effective 12:01 a.m., local time, February 1, 2013, through March 31, 2013, unless changed by further notification in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT:

Susan Gerhart, telephone: 727-824-5305, fax: 727-824-5308, email: Susan.Gerhart@noaa.gov.

SUPPLEMENTARY INFORMATION: The fishery for coastal migratory pelagic fish (king mackerel, Spanish mackerel, and cobia) is managed under the Fishery Management Plan for the Coastal Migratory Pelagic Resources of the Gulf of Mexico and South Atlantic (FMP). The FMP was prepared by the Gulf of Mexico and South Atlantic Fishery Management Councils (Councils) and is implemented under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) by regulations at 50 CFR part 622.

On January 30, 2012 (76 FR 82058, December 29, 2011), NMFS implemented a commercial quota of 1,215,228 lb (551,218 kg) for Gulf migratory group king mackerel in the Florida east coast subzone of the eastern zone (50 CFR 622.42(c)(1)(i)(A)(1)), for the current fishing year, July 1, 2012, through June 30, 2013. From November 1 through March 31 annually, the Florida east coast subzone of the Gulf group king mackerel is that part of the eastern zone north of 25°20.4' N. lat. (a line directly east from the Miami-Dade/Monroe County, FL, boundary).

In accordance with 50 CFR 622.44(a)(2)(i)(B)(2), beginning on February 1, if less than 75 percent of the Florida east coast subzone king mackerel commercial quota has been harvested by that date, king mackerel in or from that subzone may be possessed on board or landed from a permitted vessel in amounts not exceeding 75 fish per day. NMFS has determined that 75 percent of the quota for Gulf group king mackerel in the Florida east coast subzone will not be reached before February 1, 2013. Accordingly, a 75-fish trip limit applies to vessels fishing for king mackerel in or from the EEZ in the Florida east coast subzone effective 12:01 a.m., local time, February 1, 2013.
